On behalf of the new USSOCOM Commander, GEN Richard Clarke, welcome to the 2019 Special Operations Forces Industry Conference (SOFIC). We are proud to cosponsor this annual event with the National Defense Industry Association (NDIA) in our great host-city of Tampa.

This year's theme is "Accelerating SOF Innovation." The National Defense Strategy (NDS) directs the Department of Defense to increase the US military advantage and achieve greater performance and affordability by building a more lethal force and reforming the department. The way we will achieve these goals is by accelerating the cycle of innovation. Throughout the conference we will highlight many of the ways that USSOCOM is innovating internally and streamlining the acquisition process. We will also challenge our industry and government partners to innovate with us, bring us your cutting-edge technologies at the speed of SOF to ensure that our operators remain the most elite fighting force in the world

During this 3.5-day conference, I encourage you to get involved. SOFIC is a unique opportunity to forge new connections with acquisition professionals, industry partners, and special operations components. SOFIC is a two-way conversation. There are multiple direct engagement opportunities throughout the week with our Program Executive Officers, our Director for Science and Technology, and our Director for Logistics, to name a few. We have

an amazing team of military and acquisition professionals—I want you to get to know them, and I want them to get to know you.

In addition to the exhibits, Program Executive Office breakout sessions, and component commander panels, we are also honored to present keynote addresses by the new Mayor of Tampa, the new USSOCOM Commander, Honorable Ellen Lord, Honorable Owen West, and our new Chief Data Officer, David Spirk. I am exceptionally excited about the Disrupter Event. Over the past two months we invited industry to submit their best new capabilities for ideas for the hyper-enabled operator, data and networks and next generation ISR. This week, some of those companies will pitch to the government and we, in turn, will use agile acquisition authorities to get deserving technologies onto government contracts.

Finally, I want to invite all attendees to join us the last day of the conference to recognize our outstanding team of SOF Acquirers as we announce our annual individual and team acquisition award winners.

I look forward to another great conference this year. On behalf of USSOCOM, thank you for attending SOFIC 2019 and for your resolute commitment to supporting our Special Operations Forces.

James H. Smith
Acquisition Executive

U.S. Special Operations Command

Welcome to the 2019 Special Operations Forces Industry Conference (SOFIC) and Exhibition. If you're attending for the first time, I know you'll find amazing opportunities for networking and identifying potential business partnerships. If you regularly attend, I'm excited for you to

experience SOFIC's "New for 2019" features, designed to drive innovation and collaboration tailored to address U.S. Special Operations Command's (SOCOM) highest priority requirements. 2019 SOFIC builds on previous success to deliver three-and-a-half days of personal, mission-driven engagement with senior leaders from government and industry.

This year's theme, "Accelerating SOF Innovation" mirrors the push across the Department of Defense to prepare forces for peer competition. Don't miss our distinguished speakers including Ellen Lord, Under Secretary of Defense for Acquisition and Sustainment, Owen West, Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict, Shannon Jackson, Acting Director, Department of Defense (DoD) Office of Small Business Programs and David Spirk, Jr., Chief Data Officer, USSOCOM. They'll share vision and strategies that will shape

America's warfighting future.

We're extremely excited about the growth of small business participation in SOFIC, especially IGNITE, our new innovation pavilion. SOFIC 2019 also boasts a Disrupter Event open to government attendees, with the opportunity to meet with all companies during Disrupter Networking. NDIA recognizes that American small businesses provide the economic engine for our country and play a key role in driving innovation that helps U.S. operators maintain competitive advantage across all warfighting domains.

I look forward to talking to many of you as you network and take advantage of SOFIC's many opportunities to learn about SOCOM requirements. I am confident you will depart with a better understanding of SOCOM emerging missions and needs. Thank you for joining us as we work together to strengthen our national security.

General Herbert "Hawk" Carlisle, USAF (Ret) President and Chief Executive Officer

National Defense Industrial Association

General Richard Clarke, USA

Commander, USSOCOM

General Richard D. Clarke was born in Germany and raised in an Army family. He was commissioned Infantry in 1984 upon graduation from the United

States Military Academy. He earned a Master of Business Administration from Benedictine College. He is a distinguished graduate of the National War College earning a master's degree in Security and Strategic Studies.

General Clarke has led Soldiers at all levels in Airborne, Ranger, Mechanized, and Light Infantry units in five different Army Divisions, the 173rd Airborne Brigade, and the 75th Ranger Regiment in the United States, Europe, Iraq, and Afghanistan. General Clarke spent eight years in the 75th Ranger Regiment commanding at all levels from Company through Regiment. He also served as commander of 3rd Battalion, 504th Parachute Infantry Regiment, 82nd Airborne Division.

His most recent assignments include serving as the Director of Operations, Joint Special Operations Command; Deputy Commanding General for Operations, 10th Mountain Division; the 74th Commandant of Cadets, United States Military Academy at West Point; Commander of the 82nd Airborne Division; and J5 Director for Strategy, Plans, and Policy, Joint Staff, Pentagon, Washington.

General Clarke's deployments while serving in the aforementioned positions include Operations Desert Shield and Desert Storm, Operation Joint Guardian in Macedonia, three deployments in support of Operation Enduring Freedom, four deployments in support of Operation Iraqi Freedom, and one deployment as the commander of the Combined Joint Forces Land Component Command - Operation Inherent Resolve.

General Clarke is married to the former Suzanne Key Stovall, from Beaufort, South Carolina. They met in West Berlin, Germany, while attending High School. They have two children, Madeleine, a Junior at Tufts University and Will, a high school Senior, who will attend Northeastern University next year.

James Smith
Acquisition Executive,
USSOCOM

Mr. James H. Smith is currently the Acquisition Executive and Senior Procurement Executive for U.S. Special Operations Command (USSOCOM),

MacDill AFB, Florida, with responsibility for all Special Operations Forces (SOF) research, development, acquisition, procurement, and logistics programs as well as management of the SOF Acquisition, Technology, and Logistics (SOF AT&L) Workforce Enterprise.

Mr. Smith, a native of Lyndhurst, New Jersey, graduated from the U.S. Military Academy in 1986 and was commissioned as a Second Lieutenant of Infantry. He served initially with the 3d Infantry Division in Kitzingen, Germany, as Bradley Platoon Leader, Heavy Mortar Platoon Leader, and Company Executive Officer. He then served as the 2d Brigade's Assistant Operations Officer and Rifle Company Commander in 5th Battalion, 21st Infantry Regiment of the 7th Infantry Division (Light). Following receipt of a Master of Science in 1995, he served as

Associate Professor in the Department of Civil and Mechanical Engineering and as Battalion Executive Officer of 1st Battalion, 1st Infantry Regiment at the U.S. Military Academy.

His acquisition assignments include Chief, Firepower Division, Combat Developments Directorate, U.S. Army Infantry Center; Assistant Product Manager, Soldier Power; Deputy Technology Product Manager, Objective Force Warrior; Chief, Interoperability, HQ Department of the Army G8; Product Manager, Soldier Sensors and Lasers, Program Executive Office Soldier; and Program Executive Officer, Special Operations Forces Warrior Systems, followed by Military Deputy to the USSOCOM Acquisition Executive. Mr. Smith retired from active military duty on 31 October 2013 after 27 years of service. Immediately upon his military retirement, he was appointed to the Senior Executive Service and selected to serve as the Deputy Director for Acquisition, SOF AT&L, HQ USSOCOM, the position he held just prior to his current role as Acquisition Executive.

In 1986, Mr. Smith earned a Bachelor of Science degree in Civil Engineering from the U.S. Military Academy. He subsequently earned a Master of Science degree in Mechanical Engineering from Stanford University in 1995 and a Master of Science degree in Strategic Studies from the U.S. Army War College in 2009.

Ellen Lord Under Secretary of Defense for Acquisition and Sustainment

Senate Confirmed in August 2017, the Honorable Ellen M. Lord currently serves as the Under Secretary of Defense for

Acquisition and Sustainment (A&S). In this capacity, she is responsible to the Secretary of Defense for all matters pertaining to acquisition; developmental testing; contract administration; logistics and materiel readiness; installations and environment; operational energy; chemical, biological, and nuclear weapons; the acquisition workforce; and the defense industrial base.

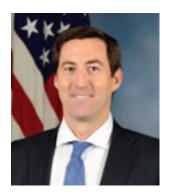

Prior to this appointment, from October 2012 – June 2017, Ms. Lord served as the President and Chief Executive Officer of Textron Systems Corporation, a subsidiary of Textron Inc. In this role, she led a multi-billion dollar business with a broad range of products and services supporting defense, homeland security, aerospace, infrastructure protection, and customers around the world.

Ms. Lord has more than 30 years of experience in the defense

industry, serving in a variety of capacities, to include Senior Vice President and General Manager of Textron Defense Systems, now Weapon & Sensor Systems; and Senior Vice President and General Manager of AAI Corporation, now known as Textron Systems' Electronic Systems, Support Solutions, and Unmanned Systems businesses. Earlier in her career, Ms. Lord served as Vice President of Integration Management for Textron Systems and Vice President of Intelligent Battlefield Systems for Textron Defense Systems, in addition to other business and operations positions.

Ms. Lord is a former Vice Chairman of the National Defense Industrial Association, as well as a former Director of the U.S. – India Business Council. She has served on the industry steering committee for the Center for New American Security's (CNAS) task force on "Strategy, Technology and the Global Defense Industry," as well as CNAS's DoD-Industry collaborative project "Future Foundry: Forging New Industries for Defense," which was formed to examine key technological trends and challenges facing the global defense industry. Ms. Lord has also served on the Board of Trustees of the U.S. Naval Institute Foundation.

Ms. Lord earned a Master of Science degree in chemistry from the University of New Hampshire, as well as a Bachelor of Arts degree in chemistry from Connecticut College.

Owen West

Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict

Mr. Owen West is the Assistant Secretary of Defense for Special Operations and Low-Intensity

Conflict. Previously, Mr. West worked for Goldman, Sachs as an energy trader. He has 19 years of experience in risk-management and the most volatile international markets, leading the global natural gas and U.S. power businesses.

While at Goldman, Mr. West took two leaves of absence to activate and deploy with fellow Marines to Iraq. In 2003 he was the fire support officer for Force Recon Company and in 2006 he deployed as an advisor to an Iraqi infantry battalion holding a remote outpost in Anbar Province, where he led a group of 12 soldiers and Marines living among 500 Iraqi soldiers.

Mr. West is a member of the Council on Foreign Relations.

He was a Director of the Positive Coaching Alliance and is a certified trainer of youth coaches and a multi-sport coach for his two boys. He is also a Director of the Marine Corps Scholarship Foundation. Mr. West and his wife have founded two cornerstone scholarships benefitting the children of fallen troops.

He is the author of three books about military affairs. Sharkman Six (Simon and Schuster, 2001) won the Boyd literary award for best military novel. The Snake Eaters (Simon and Schuster, 2012) detailed the combat advisory mission in Iraq. He has written dozens of articles and op-eds on the military and adventure sports published in several publications such as The Wall Street Journal, Slate, Men's Journal, Popular Mechanics, Topic, and The New York Times.

Mr. West graduated cum laude from Harvard College as a Government major and was commissioned in the Marine Corps where he served for 6 years as a platoon commander and a reconnaissance platoon commander.

He twice deployed overseas to Asia and the Middle East before attending Stanford Business School. At Stanford, Mr. West was co-president of his class and the CEO of Challenge for Charity, the largest business school non-profit corporation.

Shannon Jackson

Acting Director, Department of Defense (DoD) Office of Small **Business Programs** (OSBP)

Mr. Jackson leads a network of

700 full- and part-time Small Business Professionals across the Department of Defense (DoD). He ensures they leverage DoD's small business industrial base to contribute to military readiness, introduce innovation to build a more lethal force and provide timely and cost-effective products and services. The work of DoD's Small Business Professional workforce annually results in more than \$50 billion in prime-contract spending and over \$40 billion in subcontract spending for

small businesses.

Mr. Jackson is a retired Lieutenant Colonel of the U.S. Army where he served for 23 years. In the military, he was the Deputy Program Manager for the U.S. Army Rapid Equipping Force; a Foreign Military Sales Acquisition Officer/Program Manager for a Major Weapon Systems, Ammunition and Service for the Government of Iraq; and the Department of the Army System Coordinator (DASC) within the Office of the Assistant Secretary of the Army for Acquisition Logistics and Technology directly managing the Joint Air to Ground Missile (JAGM) and the Hellfire Missile System.

Mr. Jackson earned a bachelor's degree in History from Virginia State University, a master's degree in Business Administration from Nichols College and a master's degree in Procurement and Acquisition from Webster University. He is a Defense Acquisition Workforce Improvement Act (DAWIA) Level 3 certified Program Manager and a Level 2 Contracting professional.

David Spirk, Jr. Chief Data Officer. **USSOCOM**

In August 2018, Dave rejoined United States Special Operations Command (USSOCOM) as its first generation Chief Data Officer

(CDO). In this role, he is responsible to the Commander for the creation of a data-driven decision making culture while leading the integration of Artificial Intelligence/Machine Learning/automation across the U.S. Special Operations Forces (SOF) enterprise.

Prior to this assignment, Dave was the Associate Director of Technology Investment at the Secretary of the Air Force's (SECAF) Concept Development and Management Office for Advanced Analytics and Technology Investment (CDMA). Since 2016, Dave was responsible for advising the SECAF and Under Secretary of Defense for Intelligence (USDI) leadership on industry leading technology required to advance the Defense Intelligence Enterprise mission across operational and functional requirements.

In March 2015, Dave assumed the position of Associate Director of the USSOCOM Intelligence Directorate (J2), where he was responsible for advising USSOCOM leadership and the Director of Intelligence on operational activities

associated with the provision of intelligence to support the SOF Enterprise.

Before the shift to USSOCOM, Dave served as the Deputy Director of Intelligence at United States Central Command (USCENTCOM). In this role, Dave led the USCENTCOM J2's Divisions for Operations, Plans, Intelligence Surveillance, and Reconnaissance (ISR), and Foreign Disclosure/Special Security Office.

In 2009, he was selected by the Director of National Intelligence to stand up the Associate Director of National Intelligence for Afghanistan and Pakistan (ADNI Af/Pak) and was retained to serve as its Deputy and Chief of Operations. In 2010, he served as the International Security Assistance Force Commander's Senior Intelligence Advisor.

Dave joined the ODNI in June 2007 to be the Chief of Operations for the Cuba/Venezuela Mission Manager where he also took the lead role in developing and implementing the U.S. Intelligence Community's strategy to support U.S. Inter-agency and Government of Mexico efforts against the expanding influence and violence of drug cartels.

Prior to becoming a civilian, Dave served across echelons at various United States Marine Corps (USMC) elements that set the stage for many deployments throughout Africa, the Balkans, and South Asia. He was the first USMC Intelligence Specialist in Afghanistan after the attacks on September 11, 2001. As a member of Task Force-58, he participated in the seizure of Kandahar Airfield and the reopening of the American Embassy in Kabul.

SOFIC BOOTH #1312

www.klastelecomgov.com

U.S. Army Special Operations Command

The U.S. Army Special Operations Command (USASOC) at Fort Bragg, North Carolina, provides

Special Forces (Green Berets), Rangers, Special Operations Aviators, Civil Affairs Soldiers, Military Information Support Operators, Training Cadre, and Sustainment Soldiers to USSOCOM for deployment to geographic combatant commands around the world. USASOC commands active Army SOF and provides oversight of Army National Guard SOF readiness, organization, training, and employment in coordination with the National Guard Bureau and State Adjutants General.

Naval Special Warfare Command

The Naval Special Warfare Command (NAVSPECWARCOM) at Coronado, California,

consists of Sea, Air, Land (SEALs), Special Warfare Combatantcraft Crewmen (SWCC), and Enablers to man, train, equip, educate, deploy, resource, and sustain forces to conduct direct action and special reconnaissance, support advise-and-assist programs, and build partner capability, in or out of the maritime environment, by employing tailored capabilities in support of military commanders, Chiefs of Mission, interagency, and foreign partners and allies.

Air Force Special Operations Command

The Air Force Special Operations Command (AFSOC) at Hurlburt Field, Florida, organizes, trains, and

equips Airmen to execute global special operations. AFSOC is home to America's Air Commandos: Special Tactics, Special Operations Aviators, and Support Air Commandos.

Marine Corps Forces Special Operations Command

The Marine Corps Forces Special Operations Command (MARSOC) at Camp Lejeune, North

Carolina, is composed of Critical Skills Operators, Special Operations Officers, Special Operations Capabilities Specialists, and Special Operations Combat Services Specialists. MARSOC equips and trains Marines to succeed in austere conditions against a wide range of adversaries.

Joint Special Operations Command

The Joint Special Operations Command (JSOC) at Fort Bragg, North Carolina, is a sub-unified command of

USSOCOM. JSOC is charged to study special operations requirements and techniques, ensure interoperability and equipment standardization, plan and conduct special operations exercises and training, and develop joint special operations tactics.

Each Geographic Combatant Command has a Special Operations Component Commander just like it has a ground, air, and naval Component Commander. The USSOCOM Theater Special Operations Commands provide the Geographic Combatant Commanders with a separate element to plan and control joint Special Operations Forces in their theaters.

Special Operations Command Europe (SOCEUR)

Headquartered at Patch Barracks in Stuttgart, Germany, and supports U.S. European Command.

Special Operations Command Pacific (SOCPAC)

Headquartered at Camp H. M. Smith in Oahu, Hawaii, and supports U.S. Pacific Command.

Special Operations Command Central (SOCCENT)

Headquartered at MacDill Air Force Base in Tampa, Florida, and supports U.S. Central Command.

Special Operations Command Korea (SOCKOR)

Headquartered at Camp Kim in Yongsan, Korea, and supports U.S. Forces Korea.

Special Operations Command South (SOCSOUTH)

Headquartered at Homestead Air Reserve Base in Homestead, Florida, and supports U.S. Southern Command.

Special Operations Command Africa (SOCAFRICA)

Headquartered at Kelley Barracks in Mohringen, Germany, and supports U.S. Africa Command.

Special Operations Command North (SOCNORTH)

Headquartered at Peterson Air Force Base in Colorado Springs, Colorado, and supports U.S. Northern Command.

The Best For The Best

The AR-20 is the smallest, lightest, most compact 20-watt booster amplifier in the world.

When used with your tactical radio, the AR-20 Booster Amplifier provides a clearer, stronger, more dependable signal and extends your range of communication. It provides a communications advantage that saves missions... and lives. The AR-20 is a manpack amplifier - easy to use, easy to carry.

There's a whole family of small AR-20 booster amps – for use in the air, on

gunships, wherever you need – and they all give you big advantages:

- The AR-20 weighs just 1 lb., 10 oz. The entire kit weighs only 2 lbs., 12 oz.
- Only one antenna needed covers the entire 30-512 MHz frequency range
- Fully Automatic Tx/Rx switching and harmonic filtering
- Waterproof IP67 rated
- Battle-Tested in the most extreme conditions it keeps on working!

To learn more, visit us at www.arworld.us/tactical or call us at 425-485-9000.

Come See Us at SOFIC, Tampa, FL, May 20-23, 2019, Booth #1619

ISO 9001:2015 Certified

Celebrating 50 Years & Still Going Strong

2019 SOFIC HIGHLIGHTS

All events will be located at the Tampa Convention Center, Marriott Tampa Water Street and the Westin Tampa Waterside.

REGISTRATION HOURS

Tampa Convention Center

Sunday, May 19 8:00 AM - 5:00 PM Monday, May 20 8:00 AM - 5:00 PM Tuesday, May 21 7:00 AM - 6:00 PM Wednesday, May 22 7:00 AM - 4:30 PM Thursday, May 23 8:00 AM - 12:00 PM

REGISTRATION BADGES

During the registration check-in, you will be issued a conference badge that must be worn at all times, no exceptions. Any special events that were added to your registration will be noted on the badge, including Operation SOFtalk.

Badges will only be available for pick-up onsite and must be worn at all 2019 SOFIC functions. To gain access to the events for which you have registered, you must show your issued registration badge. Please be prepared to present a valid picture ID when picking up your registration badge.

PLEASE NOTE: No personal firearms or ammunition will be permitted during 2019 SOFIC. This includes ALL EVENTS, including in the Tampa Convention Center and off-site events, including Operation SOFtalk. The only firearms allowed in the Tampa Convention Center must belong to Law Enforcement Officers or on display by exhibitors. Law Enforcement Officers will be required to reveal if they are armed. Firearms displayed by exhibitors must have the firing pins removed and have been inspected.

NOTE: Any person licensed by the state of Florida to carry a concealed weapon is hereby notified that they shall not carry their firearm during 2019 SOFIC.

NOTE: All large bags and pelican cases will be searched. Please be sure to leave sufficient time to get through security and registration.

WESTSHORE HOTEL SHUTTLE NEW!

New this year, two shuttles will be running daily to the Tampa Convention Center from all the Westshore hotel properties. For more information, visit page 34.

HOUSING QUESTIONS

If assistance is needed, visit the Experient housing desk at Registration on the mezzanine level. You can also email Experient at SOFIC@experient.inc.com or call (800) 424-5249.

EXHIBITS

EXHIBIT HALL HOURS

Tuesday, May 21 9:00 AM - 6:00 PM Wednesday, May 22 9:00 AM - 4:30 PM Thursday, May 23 9:00 AM - 1:30 PM

*See page page 42 for hall floor plan and page 58 for our full list of exhibiting companies.

SOFLANDING

Join us at the new and improved outdoor space, SOFlanding. Located across from the Franklin Street entrance of the Tampa Convention Center, exhibitors will display their most durable products for the SOF community. You can find these companies in the Exhibitor List by searching for those booth numbers that start with a "P." While visiting SOFlanding, stop by for lunch at one of the local Tampa Bay food trucks.

Food trucks sponsored by NUTANIX

IGNITE

A new pavilion at SOFIC, Ignite, will feature 20 small businesses showcasing innovative products and services for the SOF community. Be sure to visit the Ignite pavilion, booth 1236, located in the Exhibit Hall.

DRESS CODE

Civilians: Business casual Military: Uniform of the day

NDIA CELEBRATES 100 YEARS!

The technology used by today's modern warfighter was unimaginable 100 years ago. In 1919, BG Benedict Crowell's vision of a collaborative team working at the intersection of science, industry, government and defense began what was to become the National Defense Industrial Association. For the past century, NDIA and its predecessor organizations have been at the heart of the

mission by dedicating their time, expertise and energy to ensuring our warfighters have the best training, equipment and support.

Reflecting on NDIA's history, we embrace the opportunity to emphasize the need for legal and ethical collaboration among military, government, industry and academia to ensure the defense industrial base is prepared for future challenges and conflicts. Just as the early 20th century was characterized by massive transformation in military capabilities, emerging trends in technology and increasing geopolitical challenges demand new strategies and policies in today's national security landscape.

NDIA 100TH ANNIVERSARY – INTERACTIVE KIOSK & VIDEO WALL

We invite attendees to learn about NDIA's 100 year history through an interactive touchscreen and our exciting domain of warfare videos.

JUST ANOTHER DAY IN YOUR OFFICE...

SKB waterproof iSeries cases are built to military spec and feature a virtually indestructible construction that's lighter and stronger than the competition. Mezzanine

1:00 - 2:00 PM

Intro to SOF AT&L (TILO, SBIR, OSB, TE)

Ballrooms A-C

- COL Anthony Wizner, USA, SOF AT&L Military Deputy, USSOCOM
- Karl Rozelsky, Deputy Program Executive Officer, SOF Warrior, USSOCOM

USSOCOM subject matter experts from SOF AT&L will present an overview of the command and acquisition center and its current programs. This event is structured to provide insight into initiatives and processes for those who have not recently done business with USSOCOM as well as provide a guideline for making the best of your time at SOFIC.

1:00 - 5:00 PM

Disrupter Event: Technology Focus Area #1 (AI/ML/Robotic Automation)

Room 39

Government Only

USSOCOM, in collaboration with SOFWERX, will host the "Disrupter Event", a multi-phased, competitive acquisition process focused on showcasing the latest, most disruptive and transformational technologies/capabilities for Government Stakeholders to rapidly evaluate and acquire effective solutions relevant to the specific Technology Focus Areas (TFAs). Selected companies will be allotted a one-on-one session with the USSOCOM TFA evaluation panel to pitch, demonstrate, and discuss their solutions.

2:00 - 3:00 PM

CRADA "Crash Course"

Rooms 18-19

• Ben Chitty, Science & Technology Projects Manager, USSOCOM

SOF AT&L will present the basic construct of a Cooperative Research and Development Agreement (CRADA) and the process for entering into a CRADA with USSOCOM. An interactive discussion will follow the presentation. It will include the value of entering into the agreement and the criteria SOF AT&L uses in determining if it is the right tool for the Industry-proposed work and what Industry can do to improve the CRADA tool and process.

2:00 - 3:00 PM

Communications with Industry

Rooms 20-21

• Contracting Managers and Program Managers for SOF AT&L

SOF AT&L Contracting Officers and Program Managers will conduct roundtable exchanges with attendees on the different communication medium (e.g., FedBizOpps, Industry Days, etc.) used to forecast or discuss new requirements with industry, as well as discuss the limitations on communications during the formal source selection process. The intent of these exchanges is to provide industry with insight on the left and right limits of Government communication during the acquisition process and to gain insight from industry on areas where SOF AT&L can improve in its communication with industry. Specific emphasis will be given to the communications during the Market Research and Pre-Solicitation Phase, i.e. responding to Government Requests for Information (RFI's), sources sought, etc.

3:00 - 3:30 PM

Networking Break

Ballroom Fouer

Bringing today's leading technologies together in a physical and virtual environment, accessible from anywhere in the world and now virtually from the nation's capital.

VISIT US AT BOOTH #436

AND ONLINE AT WWT.COM

3:30 - 4:30 PM Acquisition Agility/SOFWERX

Rooms 18-19

- Kelly Stratton-Feix, Director of Acquisition Agility, USSOCOM
- Tambrein Bates, Director of SOFWERX

Directors of USSOCOM Acquisition Agility and SOFWERX will highlight recent rapid prototyping, collaboration, and competitive acquisition processes conducted by SOCOM and SOFWERX that underpin the goal to generate acquisition efficiency, speed and flexibility.

3:30 - 4:30 PM Facility Clearances

Rooms 24-25

• Troy Fredette

Overview of facility clearances.

3:30 - 4:30 PM RFP Sections L + M

Rooms 20-21

• SOF AT&L Contracting Officers and Program Managers

SOF AT&L Contracting Officers and Program Managers will conduct roundtable exchanges with attendees on Sections L and M of USSOCOM request For Proposals, highlighting keys to submitting successful proposals. Emphasis will be given to Industry's proposal response to Compensation for Professional Employees (Reference FAR 52.222-46).

5:00 - 6:30 PM Exhibitor Reception

Tampa Marriott Water Street, Il Terrazzo

- Gen Hawk Carlisle, USAF (Ret), President and CEO, National Defense Industrial Association
- Jane Castor, Mayor, Tampa, FL

10:15 - 11:00 AM **Commander and Acquisition Executive Remarks**

Ballrooms A-C

- GEN Richard Clarke, USA, Commander, USSOCOM
- James Smith, Acquisition Executive, USSOCOM

11:00 AM - 12:00 PM Lunch on Own

12:00 - 1:00 PM **Component Commander's Forum**

Ballrooms A-C

- LTG Francis Beaudette, USA, Commander, USASOC
- RADM Collin Green, USN, Commander, NAVSPECWARCOM
- Lt Gen Marshall Webb, USAF, Commander, AFSOC
- MajGen Daniel Yoo, USMC, Commander, MARSOC
- Lt Gen Scott Howell, USAF, Commander, JSOC

USSOCOM Component Commanders and Sub-Unified Commander will participate in panel discussions on key acquisition, requirements, operations, and technology issues in the context of component and sub-unified command SOF missions.

12:00 - 1:00 PM **PEO SOFSA Overview**

Room 9

Government Only

This briefing is geared to PEO'S, PM's, Logisticians, Components, and TSOC's to learn more about the capabilities and logistical services available to ALL USSOCOM users.

1:00 - 1:30 PM **Networking Break**

Exhibit Hall

1:30 - 2:30 PM Senior Industry Executive Forum (Large Business)

Rooms 24-25

- GEN Richard Clarke, USA, Commander, USSOCOM
- James Smith, Acquisition Executive, USSOCOM

Advanced Registration is Required

GEN Richard Clarke, USA, USSOCOM Commander, Mr. James Smith, Acquisition Executive, and the USSO-COM Component Commanders and Sub-Unified Commander will discuss with industry leaders how USSOCOM and industry can collaborate more closely to provide Special Operations Forces around the world with the capabilities and support they need. Pre-approved industry CEOs, COOs, and Presidents are invited to participate in a Senior Industry Executive Forum. This session is closed to the media.

DEPLOY. OPERATE. COMMUNICATE.

STRATEGIES TO COMMUNICATE IN A2/AD ENVIRONMENT

XIPHOS MACRO 4.0

- New design fits all site types
- Offers modular outdoor radios in a new form factor
- Delivers 4G/5G performance with carrier-grade quality

XIPHOS MICRO 3.0

- Delivers superior wireless performance in a compact, robust small cell
- 30% more computing power for over-the-top applications

ONMISSION NETWORK MANAGEMENT SYSTEM

- Expanded radio interference intelligence
- Offers new solutions to a dynamic RF environment or to a rogue emitter

SENSORNET FROM ONMISSION

- Ingests data from an array of systems and sensor platforms, including 3PP IoT devices, COTS systems and GFE
- Identifies developing situations and provides your mission with actionable intelligence through powerful algorithms

ONCAST

- Encrypts data peer-to-peer instead of requiring a dedicated trusted VPN gateway server like traditional VPNs
- Allows for traditional Multicast traffic to run over networks that traditionally don't support Multicast (such as cellular networks), enabling traditional Government Multicast applications to run across cellular networks without any modifications to the applications

To learn more and see our products in action, visit booth 413 at SOFIC 2019.

1:30 - 4:30 PM

Program Executive Officers - Overview, Deep Dives, Capabilities Gaps (Concurrent Sessions)

Rooms 5-6: Program Executive Office for Rotary Wing

Rooms 7-8: Program Executive Office for Command, Control, Communications, and Computers (C4)

Room 13: Program Executive Office for Services

Rooms 18-19: Program Executive Office for Fixed Wing

Rooms 20-21: Program Executive Office for SOF Warrior

Rooms 22-23: Program Executive Office for Maritime

USSOCOM Program Executive Officers will provide a strategic overview of current acquisition programs of record, followed by Program Manager-led detailed program-focused presentations on specific USSOCOM program initiatives, challenges, and issues as they relate to global acquisition, technology, and logistics support for SOF.

2:00 - 3:30 PM

Engineering Challenges and Opportunities in a Dynamic Operating Environment

Room 9

• COL Calvin Hudson, II, USA, Command Engineer, USSOCOM

The Command Engineer will provide an overview on SOF engineering structure and responsibilities, and discuss engineering technology challenges in principally four focus areas: Power, Sanitation and Water Management, Construction Materials/Methods, and Force Protection/Sensitive Compartmented Information Facilities.

2:30 - 4:30 PM

JATF Overview (Transition to Room 11 for demo after brief)

Room 17

• COL Alex MacCalman, USA, Director, Joint Acquisition Task Force, USSOCOM

The Joint Acquisition Task Force (JATF), within USSOCOM's Science and Technology (S&T) directorate, has previously been oriented on protecting the operator in the physical domain, as part of the Tactical Assault Light Operator Suit (TALOS) project. The key outcomes of the TALOS project include: the pioneering of innovative processes; technology spin-outs that increases survivability, human performance, situational awareness, and surgical lethality; the acceleration of SOCOM research in the human-machine interface; and the reinforcement of our need to experiment with prototypes and foster a learning culture. As the project draws to a close in 2019, the JATF has refocused on the Hyper-Enabled Operator (HEO) concept. The HEO concept emerged from our need to embrace our future operating environment and is intended to focus on cognition at the edge - the dismounted SOF professional operating at the edge in austere or denied environments empowered by technologies that increase situational awareness, reduce cognitive load, and accelerate decision-making. The purpose of the HEO definition is to place the technological emphasis on the individual dismounted SOF operator that is performing SOF activities at the edge. This emphasis highlights the first SOF Truth, "Humans are more important than hardware," and distinguishes the enabling technologies the operator will use at the edge. The enabling technologies include data assets, adaptive and flexible sensors, scalable tactical communications, edge computing, embedded algorithms, and tailorable human-machine interfaces.

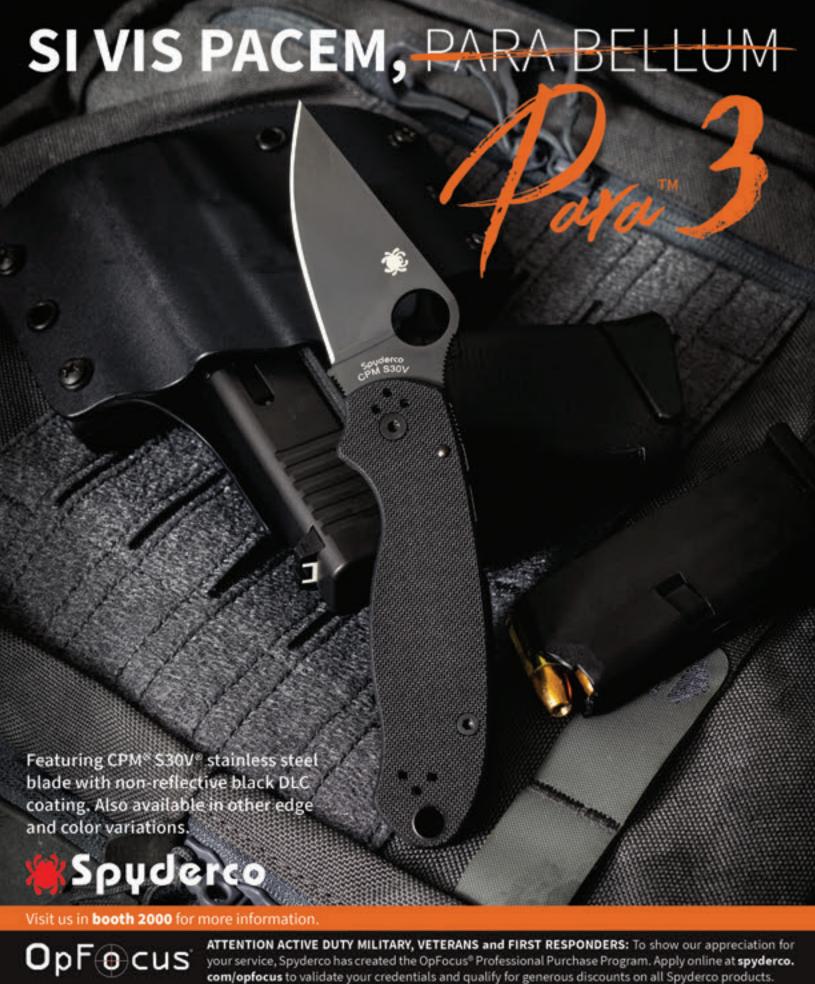

2:30 - 4:30 PM

S&T Engagements and Opportunities

Ballroom D

· Lisa Sanders, Director, Science and Technology, USSOCOM

USSOCOM Director, Science and Technology will provide an S&T overview and discuss the various USSOCOM S&T engagements and opportunities that are available for industry, academia, and other external organizations.

Program Executive Office for Command, Control, Communications, and Computers

Mrs. Deborah J. Woods leads the Program Executive Office for Command, Control, Communications, and Computers (PEO-C4). The office manages the development, acquisition, and sustainment of C4 systems that collectively form the SOF Information Environment. To provide this critical capability, the PEO focuses on the integration of state-

of-the-art technologies and products, while working very closely with the Chief Information Officer's staff and all the Component Commands and Theater Special Operations Commands. PEO-C4 portfolio consists of programs in the capability areas of enterprise and tactical networks, Military Information Support Operations and Civil Affair Systems, data transport, tactical communications, and mission planning software.

Program Executive Office for Fixed Wing

U.S. Air Force Colonel Melissa A. Johnson leads the Program Executive Office for Fixed Wing (PEO-FW). PEO-FW's mission is to deliver special operations-peculiar manned and unmanned fixed wing airpower capabilities to effectively enable SOF. To meet this mission, the PEO partners with the Warfighter and various development and support organizations

to synchronize acquisition activities to field an array of advanced technology sensors, defensive countermeasures, precision strike capabilities, advanced avionics, and mission training systems.

Program Executive Office for Maritime

U.S. Navy Captain Katherine M. Dolloff leads the Program Executive Office for Maritime (PEO-M). PEO-M'S mission is to deliver the most effective and advanced maritime mobility solutions to SOF. To accomplish this critical mission, PEO-M partners with Naval Special Warfare Command building unmatched affordable surface and undersea platforms that

deliver SOF safely and undetected to any global operation with SOF focus. The surface fleet consists of the SEALION, Combatant Craft Medium, Combatant Craft Assault, Special Operations Craft - Riverine, and Combatant Craft Forward Looking Infrared 2. The undersea fleet consists of the Dry Deck Shelter, Dry Combat Submersible, Shallow Water Combat Submersible, SEAL Delivery Vehicle, SOF Combat Diving, and small Unmanned Underwater Vehicles.

Program Executive Office for Rotary Wing

U.S. Army Colonel David C. Phillips leads the Program Executive Office for Rotary Wing (PEO-RW). The PEO is responsible for providing rapid and focused acquisition, research and development, and life-cycle logistics support to the operators of the US Army Special Operations Aviation Command and the 160th Special Operations Aviation

Regiment, which provides SOF rotary-wing capability to the joint force. PEO-RW provides the most advanced rotary wing aircraft, mission equipment, and training systems available to the U.S. military by continuing to focus on technologies that ensure operators have a comparative advantage against all potential threats. PEO-RW accomplishes this critical mission with a three-part strategy focused on readiness, recapitalization, and investments in lethality and survivability. The rotary wing fleet consists of the MH-47G Chinook, MH-60M Black Hawk, and the A/MH-6M Little Bird.

Program Executive Office for Services

Mr. Theodore W. Koufas leads the Program Executive Office for Services (PEO-SV). PEO-SV is responsible for planning, policy, and execution oversight and management of USSOCOM service acquisitions awarded in accordance with the contracting authority of USSOCOM's Acquisition Executive. PEO-SV's customers are in the USSOCOM headquarters,

including SOF AT&L, as well as the Component Commands and Theater Special Operations Commands.

Program Executive Office for Special Operations Forces Warrior

COL Joel Babbitt, USA, Program Executive Officer SOF Warrior (PEO-SW), leads an organization of 200 military, civilian and contract support personnel comprising a PEO Special Staff and 10 Joint Program Management Offices. By cultivating an aggressive, risktaking culture amongst acquisition, financial, security, and contracting personnel - this

team planned and executed \$1.8 billion towards the development, production, worldwide fielding and sustainment of SOF peculiar equipment supporting five USSOCOM Component Commands to include the Joint Special Operations Command, and Theater Special Operations Commands (TSOC). This Program Executive Office team concentrates its efforts in acquiring a diverse range of combat and combat support, Intelligence, Surveillance, and Reconnaissance capabilities affecting SOF lethality, survivability, mobility (air, ground and sea), Situational Awareness for application in all environments.

Program Executive Office for Special Reconnaissance, Surveillance, and Exploitation

Mrs. Margaret E.G. McCaskey is the Program Executive Officer for the Program Executive Office for Special Reconnaissance, Surveillance, and Exploitation (PEO-SRSE). The office is responsible for the development, fielding, and sustainment of state of the art technical collection and exploitation capabilities for advanced surveillance, reconnaissance, and intelligence systems

for the SOF Warfighter. PEO-SRSE's capability portfolio includes Tagging, Tracking, and Locating Systems; Blue Force Tracking; Sensor Systems; Biometrics and Forensics Systems; Joint Threat Warning System; Distributed Common Ground/Surface System-SOF; Integrated Survey Program; SOF Planning, Rehearsal, and Execution Preparation; and Focused Research, Development, Test, and Evaluation.

Program Executive Office for Special Operations Forces Support Activity

Mr. Fred Little leads the Program Executive Office for Special Operations Forces Support Activity (PEO-SOFSA). PEO SOFSA's mission is to enable global SOF operations through dedicated life cycle sustainment. PEO SOFSA serves as the dedicated cornerstone for executing USSOCOM's SOF-peculiar logistics, modifications and rapid prototyping

and is responsible for providing contract administration oversight of USSOCOM's largest service contract delivering effective depot-like capabilities to our Special Operations Forces.

Directorate of Science and Technology

Ms. Lisa R. Sanders is the Director of Science and Technology (S&T). She is responsible for all S&T funded activities. The S&T Directorate focuses on integrating S&T efforts across the SOF enterprise. This includes ensuring that capability gaps are aligned with technology enablers and developers, ongoing efforts are integrated with transition partners, additional

innovation that is required to address S&T gaps is identified, and disruptive technology solutions are assessed for their impact and potential benefit to the SOF mission set and SOF operator of the future. S&T priorities are aligned with the USSOCOM Commander's Capabilities and Programing Guidance (CPG). S&T is focusing its efforts on these four Capability Focus Areas: Next Generation Intelligence, Surveillance, and Reconnaissance (ISR)/Tactically Relevant Situational Awareness; Network and Data Management; Next Generation Effects/Precision Strike; and Biotechnologies/Human Interface. Joint Acquisition Task Force (JATF) – Hyper-Enabled Operator (HEO) and Next Generation Mobility are two additional Technology Focus Areas.

Directorate of Joint Acquisition Task Force Tactical Assault Light Operator Suit

U.S. Army Colonel Alex D. MacCalman leads the Directorate for the Joint Acquisition Task Force (JATF) within the Director of Science and Technology. The JATF mission is to serve as a SOF problem refinement tool to rapidly prototype, learn, and accelerate SOF innovation towards a Hyper-Enabled Operator. To meet this mission, the JATF will execute an agile

experimental process with integration testbeds to deliver insights to the SOF Enterprise.

Directorate of Logistics

U.S. Army Colonel Donald Wols leads the Directorate of Logistics (J4). The Directorate's mission is to plan, coordinate, synchronize, and integrate operational and strategic logistics and sustainment strategy in coordination with and in support of Unified Commands, Services, Components, Theater Special Operations Commands, Joint Staff, and Other Government

Agencies.

Directorate of Procurement

U.S. Air Force Colonel Eric D. Obergfell serves the SOCOM contracting enterprise. The mission of the Procurement Directorate is to develop portfolio of solutions to rapidly acquire superior technology, equipment and services for Special Operations Forces. The Directorate of Procurement fulfills its mission through 34 contracting offices located worldwide and

awards command-wide, large-dollar contracts for special operations equipment and services. The Directorate also manages contingency contracting operations in support of overseas operations.

Directorate of Acquisition Agility

Ms. Kelly Stratton-Feix, Director, Acquisition Agility, provides USSOCOM Program Management and Oversight of SOFWERX, the innovation platform chartered to close the gap between operators facing SOF's toughest challenges and "non-traditional" sources of new, novel, and provocative solutions. SOFWERX is USSOCOM's partnership with DefenseWERX,

located in an open-access, off-base facility with a 40,000+ network of agencies, academia, futurists, citizen scientists and industry experts. Activities ranging from technology outreach and collaboration, rapid prototyping, prize challenges, etc, connects USSOCOM with innovators to explore real-time and emerging SOF challenges to evolve relevant solutions. Active engagement with AT&L PEOs and Directorates ensures these solutions are "fast-tracked" and fielded at the earliest opportunities.

Office of Small Business Programs (USSOCOM)

Mr. Christopher A. Harrington leads the Office of Small Business Programs (OSBP) for USSOCOM. The OSBP advocates on behalf of small business by striving to meet the goals mandated by Congress and the Office of the Secretary of Defense for equal opportunities to conduct business with the Command.

SPEED. INNOVATION. PERFORMANCE.

National Security & Defense

SNC has spent more than 50 years developing industry-leading defense and avionics systems that protect the U.S. military's most cherished asset – the warfighter. Our customer-centric, quick response capabilities are designed to ensure the safest, most efficient and effective methods of addressing our customers' most complex challenges in the most critical of situations.

6TH ANNUAL INDUSTRY GIVES BACK RAFFLE

All proceeds from the raffle benefit the Special Operations Warrior Foundation. The drawing will be held on Thursday, May 23. You do not need to be present to win. Winners will be announced on NDIA social media and on SOFIC.org

Prizes Include:

- HEL-STAR 6 Helmet Mounted Strobe by Core Survival
- 2016 President Humidor by Ameripack
- Swag Bag by Glock
- Big Game Hunter Package by Otis Technology
- Crossfire binoculars and swag bag by Vortex Optics
- · Gun Safe Gift Certificate by ITility
- · Bushnell Elite Scope by Tri Star

- Personal Weapons Transport Case by Cases2Go
- Optima Battery by Military Battery Systems
- XPC Cooling Vest by First Line Tech
- · Power Bank Portable Charger by Acumentrics
- TACOPS M-10 Medical Backpack by TSSi
- 1535 Pelican Carry On Case by Pelican

Raffle tickets are \$20/ticket and can be purchased through the SOFIC registration website, ITility booth 1048, or the Special Operations Warrior Foundation booth 40 on the mezzanine level.

2019 SOFIC EXHIBITORS

Exhibitors from around the world will be showcasing their latest innovations, products and services in support of special operations military command. With more than 440 defense related companies exhibiting, SOFIC exhibits should not be missed.

Exhibits are located in multiple locations this year. Reference the key below to find the correct location.

Booth 1, NDIA's booth, is located on the exhibit hall entrance level of the Tampa Convention Center, outside the West Hall exhibit hall doors.

Booths 09-40 are located on the Tampa Convention Center mezzanine level, next to registration.

Booths 95-99 are located out side the Channelside entrance of the Tampa Convention Center, near the Sail Pavilion.

BOAT DOCK DISPLAYS

Be sure to stop by the South Boat Docks (right next to the Sail Pavilion) and visit our watercraft displayers. You can find these companies in the Exhibitor List by searching for those booth numbers that start with a "B."

SOFLANDING - OUTDOOR DISPLAYS

Food trucks sponsored by Nutanix

Join us at the new and improved outdoor space, SOFlanding. Located across from the Franklin Street entrance of the Tampa Convention Center, exhibitors will display their most durable products

for the SOF community. You can find these companies in the Exhibitor List by searching for those booth numbers that start with a "P."

While visiting SOFlanding, stop by for lunch at one of the local Tampa Bay food trucks.

IGNITE

A new pavilion at SOFIC, Ignite, will feature 20 small businesses with innovative products and services to display to the SOF community. A few examples of technology focus areas that will be showcased within the pavilion are: Artificial Intelligence, Machine learning (Data Management); Hyper-Enabled Operator (HEO); Next Generation ISR.

Stop by the pavilion, at booth 1236, to interact with the Ignite exhibitors. For a full list of Ignite exhibitors, see page 48.

SOF SELECT - SOFIC'S OPERATOR PAVILION

Visit SOF Select in the Oasis ballroom at the Westin Tampa Waterside, just a two minute walk from the Tampa Convention Center.

Pavilion Hours

Tuesday, May 21, 9:00 AM - 6:00 PM Wednesday, May 22, 9:00 AM - 5:00 PM Thursday, May 23, 9:00 AM - 1:00 PM

Participating companies include:

Blue Force Gear, Eagle Industries, GORE-TEX, LALO, Kryptek, MASSIF, Matbock, Mechanix Wear MOHOC, Mystery Ranch, Ops-Core, Patagonia - Lost Arrow Project, Princeton Tec, Point 6, SCUBAPRO, Smith Optics, S&S Precision, TACOPS, Team Wendy, Velocity Systems

SOF Select – SOFIC's Operator Pavilion is exclusively sponsored by Cove Management

NO DRONES ZONE

Drones will not be permitted in or on the property of the Tampa Convention Center.

Be sure to stop by the charity and non-profit organizations on the Tampa Convention Center mezzanine level next to registration.

Aimpoint is the worldwide leader and originator of red dot sighting technology. Aimpoint red dot sights remain the number one choice for combining ruggedness, speed and accuracy. Since 1997, Aimpoint has delivered over 1,000,000 of its proven sights to the U.S. Military. Soldier-tested, combatproven - don't settle for anything less.

Air Force Special Operations Command (AFSOC)

229 Cody Avenue, Suite 103, Hurlburt Field, FL 32544

The Air Force Special Operations Command was established May 22, 1990, with headquarters at Hurlburt Field, Fla. The vision is: Air Commandos... Ready Today, Relevant Tomorrow, Resilient Always. The mission of AFSOC is to provide our nation's specialized airpower, capable across the spectrum of conflict...Any Place, Any Time, Anywhere. The priorities of the command are to ensure readiness to execute global special operations today, transform our force and fleet to maintain relevance tomorrow and invest in the resiliency of our force, family and relationships. AFSOC provides Air Force special operations forces for worldwide deployment and assignment to regional unified commands. The command's SOF are composed of highly trained, rapidly deployable Airmen, conducting global special operations missions ranging from precision application of firepower to infiltration, exfiltration, resupply and refueling of SOF operational elements. AFSOC has more than 19,500 active-duty, Air Force Reserve, Air National Guard and civilian personnel.

Air Locker Inc.

BOOTH: 233

4810 D Street Northwest, 103, Auburn, WA 98001

https://www.arbusa.com/

ARB is a world leading provider of 4×4 equipment to a global customer base with products used extensively in the oil and gas sectors, militaries, GOV agencies and NGOs. The ARB Group of companies has an operational presence in over 100 countries. ARB invests substantial amounts of capital into R&D and manufacturing. With over 60 design and manufacturing engineers, ARB spends countless hours designing, testing and developing our product range to ensure ARB remains an innovator in the industry.

Air Tractor

BOOTH: 96

1524 Leland Snow Way, PO Box 485, Olney, TX 76374 http://www.802U.com

The AT-802U multi-mission aircraft is a rugged platform for managing an array of evolving security environments. This FAA certified, fully-armored airplane has the payload, long-loiter, interoperability and austere environment capabilities that make it well suited for USSOCOM and AFSOC foreign internal defense (FID), combat aviation advisor (CAA) and direct action (DA) missions against our nation's and allied nations' most dangerous threats. #agile #lethal #survivable #affordable #interoperable

Airborne Systems

BOOTH: 328

5800 Magnolia Ave, Pennsauken, NJ 08109

https://www.airborne-sys.com/

Airborne Systems is the number one company in the world for military parachutes, with 100 years of experience. We outfit the USMC with the Enhanced Multi-Mission Parachute System, which replaced their legacy system. This includes a Hi-5 canopy, with revolutionary technology capable of a range of glide ratios from 5:1 to 1:1. We also have a complete line of GPADS/JPADS that safely and accurately deliver goods such as food, water, ammunition, to active warzones and for humanitarian reasons.

BOOTH: 1636

2550 Wasser Terrace, Suite 9100, Herndon, VA 20171

https://www.airbus.com/defence.html

Airbus is a world leader in aerospace, defense, and related services. Airbus offers a broad array of advanced solutions to meet U.S. military and commercial requirements, including fixed and rotary-wing aircraft, homeland security systems, public safety communications, defense electronics/ avionics and threat detection systems. Airbus contributes more than \$16 billion to the U.S. economy annually and supports over 250,000 American jobs through its network of suppliers.

Alakai Defense Systems

BOOTH: 426

8285 Bryan Dairy Road, Suite 125, Largo, FL 33777 http://www.alakaidefense.com

Alakai Defense Systems, veteran owned, specializes in laser standoff threat detection sensors for defense and security applications for detection of bombs, IEDs, narcotics and chemicals at long-standoff ranges. Our systems include man-portable, vehicle-portable, and stationary systems designed to seamlessly integrate with existing security infrastructures. Alakai's innovative systems give soldiers and first responders a critical tool needed in warzones and hazardous areas. Visit us in Booth 426.

Alaska Structures

BOOTH: 952

6991 Camelback Road, Suite D-216, Scottsdale, AZ 85251 http://www.aks.com

Alaska Structures, Inc. (AKS) designs, engineers and delivers the highest quality fabric shelter and base camp systems for military operations in extreme environments. For nearly 40 years, AKS products have been tested and proven in over 60 countries. Alaska Structures has delivered over 30,000 shelters and 15,000 ECUs to the U.S. military, NATO Forces and foreign militaries.

Alion Science and Technology

BOOTH: 2017

1750 Tysons Blvd, Suite 1300, McLean, VA 22102 http://www.alionscience.com

Alion designs and delivers engineering and technical solutions across six core capability areas. Our engineers, technologists, and program managers bring together agile engineering methodologies and the best tools on the market to deliver cost-effective mission success faster. We are committed to maintaining the highest standards; Alion is ISO 9001:2015 certified and maintains CMMI Level 3-appraised development facilities. To learn more, visit www.alionscience.com.

All Flex Flexible Circuits and Heaters

BOOTH: 229

1705 Cannon Lane, Northfield, MN 55057

http://www.allflexinc.com

All Flex is an industry leading flexible circuit and heater manufacturer providing prototype in high volumes with component assembly. Flex circuits include single-sided, double-sided, multilayer, and long Maxi-Flex with fine line capability. Quick turn custom and stock polyimide and silicone rubber heaters. All Flex has provided flexible solutions to the medical, aerospace, military, and industrial markets for over 25 years. AS9100, ISO9001, ITAR, MIL-PRF-31032/3 & MIL-PRF-31032/4 Certified

Allied Forces Foundation, Inc.

BOOTH: 28

713 Montauk Court NE, Leesburg, VA 20176 http://www.alliedforcesfoundation.org

The Allied Forces Foundation, Inc. (AFF) is a British-American foundation established to recognize and further the special relationship between the United States and the United Kingdom, working to raise awareness and funding for allied wounded and their families affected by the conflicts of Iraq and Afghanistan.

QRC Technologies designs and develops a host of open architecture RF products, providing comprehensive integrated solutions for Cellular Network Survey, RF signature management, and a wide range of SIGINT and EW missions.

QRC products are employed globally on multiple manned and unmanned platforms. QRC specializes in RF Spectrum Awareness.

Our ICS cellular survey product line surveys all providers, and all bands of cellular and WiFi technologies simultaneously, providing timely and accurate assessments for follow on efforts, while our PlayMaker product provides persistent RF energy detection and signal classification, supporting persistent spectrum awareness and signature management.

The WBT line of products, are self-contained capture and playback devices capable of capturing up to 320 MHz of spectrum from 100 kHz to 18 GHz for both follow on analysis.

The WBT acts as a force multiplier in a resource constrained environment by capturing and storing more data than can be processed by limited personnel real time. Integrated Solutions for Cellular
Network Survey,
RF Signature Management,
and a wide range of SIGINT &
EW missions

107 North Gold Drive, Robbinsville, NJ 08691 http://www.ameripack.com

Ameripack is a manufacturer and distributor of Mil-Spec cases, Rack mount cases, Transit and Weapons cases. We specialize in free prototyping and design. Custom foam integration and other value added services are provided. Over 6500 cases in stock in over 450+ sizes and colors to choose from.

AMPEX Data Systems

BOOTH: 1749

26460 Corporate Avenue, Hayward, CA 94545 http://www.ampex.com

AMPEX Data Systems is a leading provider of instrumentation, data acquisition, & recording systems for airborne applications. Our product line of solid-state & data recording systems are utilized for test & mission requirements and offer optional on-board machine learning based data management, OBP and airborne cyber security. The TuffServ Family of Network File Servers range from small NAS appliance & HD Servers to the high-performance TS640 10GigE Recorder/Server for demanding applications.

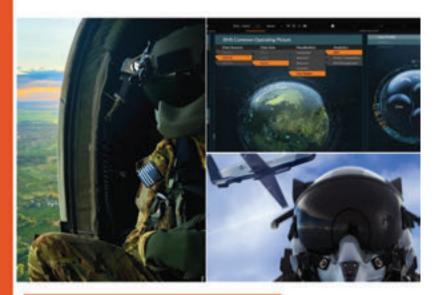

Apollo Video Technology

BOOTH: 748

24000-35th Avenue SE, Bothell, WA 98021 https://www.apollovideotechnology.com/solutions/ military-government/

Apollo Video Technology is a leading manufacturer of mobile video surveillance, fleet and information management solutions. By employing a forward-thinking approach to design and functionality, Apollo Video's comprehensive hardware and easy-to-use software advances public and rider safety while maximizing an agency's investment. The RoadRunner HDX Mobile Recording System delivers the highest quality video and audio recording.

YOUR MISSION PARTNER

TOGETHER, WE GO BEYOND®

Ball Aerospace optimizes Human-Machine Teaming to enhance mission performance and safety. Our expertise in transitioning human-centered research and development ensures we provide the most effective and reliable capabilities along with operationally relevant training to those who guard and guide our nation. It's all part of our partnership approach.

BALL.COM/GOBEYOND

VISIT US AT THE 2019 SOFIC EXHIBIT BOOTH 1725

IRS Expertise

Rolls-Royce's infrared suppressor technology turns down the heat. Our technology has been rigorously flight-tested and is in service on the AC-130W and has been on the MH-47 for more than a decade, performing well for over 200,000 flight hours. This battlefield experience proves that you don't have to choose between reliability and performance. With Rolls-Royce, you get both. The design is "plug and play" on all legacy C-130 variants. Our system has flown on the CV-22 and we have begun an internal design effort for the AC-130J as well.

Applied Companies

BOOTH: 206

28020 Avenue Stanford, Valencia, CA 91355

http://www.appliedcompanies.net/

We are a woman owned small business specializing in Aerospace, Commercial and Defense markets for over 60 years. We design and manufacture ruggedized environmental control units (air conditioners), chillers, gas particulate filtration units (CBRN), power generation equipment and pressure vessels (high end compressed air cylinders) designed to the customer's specifications. Visit our websites at http://www.appliedcompanies.net/ or http:// www.appliedpressurevessels.net/.

Applied Physical Electronics, LC.

BOOTH: 1348

PO Box 341149, Austin, TX 78734

http://www.apelc.com

APELC offers EMP simulators, current-injection, and high-power RF test systems for MIL-STD, IEC and effects testing. APELC also offers triggerpulse generators, solid-state pulsers, coaxial high-voltage connectors, and other accessories for high-power electronics.

Applied Research Associates, Inc.

BOOTH: 221

CAE is a global leader in training for the defense, civil aviation, and healthcare markets. Backed by a record of more than 70 years of industry firsts, we continue to help define global training standards to make flying safer, maintain defense force readiness and enhance patient safety. CAE has over 9,000 employees, 160 sites and training locations in over 35 countries. Each year, CAE trains more than 220,000 civil and defense crewmembers, including more than 135,000 pilots.

Camaraderie Foundation, Inc.

BOOTH: 36

2488 East Michigan Street, Orlando, FL 32806

http://camaraderiefoundation.org/

Camaraderie Foundation's mission is to provide healing for the invisible wounds of war through counseling, emotional and spiritual support for all branches of Post-9/11 Veterans, Service members and their families. We accomplish this by providing counseling services, mentoring for reintegration into the workforce and home life, as well as family-focused events like our Family Fun Days.

Camcode Global

BOOTH: 950

18531 South Miles Road, Cleveland, OH 44128

http://www.camcodeglobal.com

Camcode Global is the only contractor that has marked more than 3 million assets in 15 countries making us the most experienced UID provider in the defense industry, and a leading source of military standards compliance and asset traceability solutions. We help you leverage UID to comply with ITAR reporting requirements, meet DEF STAN 05-132 requirements, fulfill STANAG 2290 marking specifications, and comply with other national and international standards - while improving equipment visibility.

Carson Industries Inc

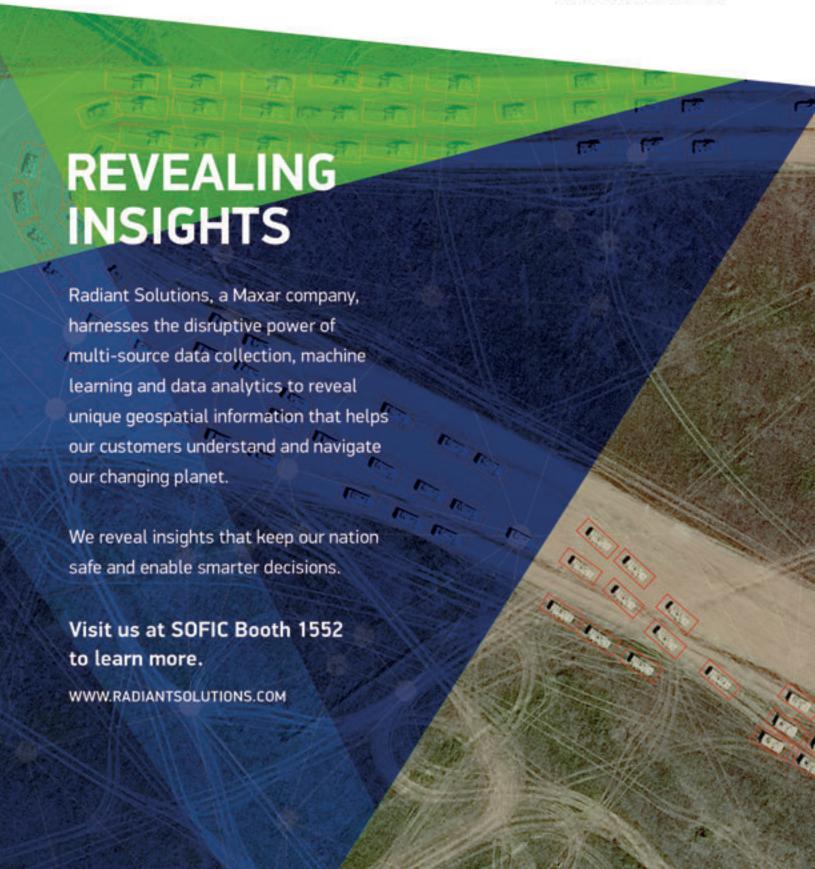

BOOTH: 209

110 Nobel Court, Alpharetta, GA 30005

http://www.noctistech.com

Carson Industries is an original equipment manufacturer (OEM) of Night Vision systems, spare parts, components and accessories for the U.S. Army's programs of record (POR) and more; thermal imaging weapon sights; and the latest in integrated fusion and digital night vision technology and systems. Carson Industries provides night vision systems and components to U.S. and foreign military forces, homeland security, law enforcement and first responders.

CarteNav Solutions Inc.

BOOTH: 1236

1959 Upper Water Street, Suite 1700, Halifax, NS B3J 3N2 Canada http://www.CarteNav.com

CarteNav is a leading supplier of mission system software that enhances situational awareness to improve mission effectiveness across a variety of platforms. The AIMS software is ITAR-free and interfaces with multiple sensor AIMS is the software of choice for military and commercial customers - deployed in 50+ countries for missions such as ISR, SAR, ALE, environmental monitoring, fire mapping and infrastructure inspection.

Cases2Go

BOOTH: 219

924-A East 124th Avenue, Tampa, FL 33612

http://www.cases2go.com

Supporting SOF since 1999, Cases2Go is a Tampa-based "Total Solution" packaging provider, specializing in deployable shipping and rackmount cases. We offer rapid design, custom foam, integration & quick turnaround on first articles and small orders in our Tampa manufacturing facility, with large run capabilities via our manufacturing partners throughout the US. Cases2Go is an ISO9001:2015 certified small business, with over 3 decades of experience in protective cases & packaging.

Catoma

BOOTH: 1812

6101 Brewbaker Blvd., Montgomery, AL 36116

http://www.catoma.com

Catoma is a manufacturer of field shelters and modular load carriage systems. Their Burrow family of field shelter products is under contract to DLA and moves into the military system in the thousands per year. Catoma's Switchblade Load-Carriage System is a versatile load carriage and rucksack system for the 21st century warfighter. Currently deployed with multiple U.S. Army Brigade Combat Teams. From radios to munitions, weapons to medical kits, the sky is the limit for the Switchblade System.

CEIA USA

BOOTH: 336

9155 Dutton Drive, Twinsburg, OH 44087

http://www.ceia-usa.com

CEIA Ground Search Metal Detectors provide overall superior performance in the areas of detection distance, soil compensation capability and immunity to external interference. The CEIA CMD is a high performance, high sensitivity and very compact metal detector designed to satisfy the most stringent operational requirements. CEIA USA provides nationwide sales, service and customer support to customers in North America. For more information about CEIA USA, visit www.ceia-usa.com.

Central Intelligence Agency

BOOTH: 14

CIA-Recruitment Center Washington, DC 20505

The CIA is currently seeking qualified applicants for the career position of Protective Special Agent. Applicants must have experience in the SOF Community that includes, at least 5 years of SWAT, 18 series MOS, SEALs, MARSOC and Air Force Pararescue Jumpers. CodeMettle, LLC

BOOTH: 227

6 Concourse Pkwy, Suite 1050, Atlanta, GA 30328

CodeMettle supplies a COTS data management software that enables clients to analyze, organize, and consolidate complex processes and operations. It is scalable, distributable and able to operate in a geographically distributed DIL network. CodeMettle manages networks, applications, and virtual environments, ultimately simplifying the management of these complex systems with customized workflows, automation, and reporting achieving a Common Operating Picture and Unified Network Operation.

Collins Aerospace

BOOTH: 1704

400 Collins Road NE, Cedar Rapids, IA 52498

http://www.collins.com

Collins Aerospace, a unit of United Technologies Corp. (NYSE: UTX), is a leader in technologically advanced and intelligent solutions for the global aerospace and defense industry. Created in 2018 by bringing together UTC Aerospace Systems and Rockwell Collins, Collins Aerospace has the capabilities, comprehensive portfolio and expertise to solve customers' toughest challenges and to meet the demands of a rapidly evolving global market.

COMSAT

BOOTH: 445, P507

2550 Wasser Terrace, Herndon, VA 20171

http://www.comsat.com

COMSAT, an SD company, is a leading provider of customized, secure endto-end satellite communications services, delivering a full portfolio of fixed satellite solutions (C-Band, Ku-Band, Ka-Band, X-Band and UHF), mobile solutions (Inmarsat, Thuraya and Iridium) and teleport services to aeronautic, land mobile and maritime users. For C2 BLOS, SlingShot enables tactical radios over commercial SATCOM. Useable on any platform, it is a gamechanging capability that redefines tactical communications.

COMSEC LLC

BOOTH: 1420

4525 South Blvd, Suite 302, Virginia Beach, VA 23452-1147 https://comsecllc.com

ComSec is a provider of Mobile SIGINT Solutions, including: 1) ComSec KESTREL Surface RF Locator Kits, (field ready RF Signal Intelligence Kits featuring Kestrel TSCM Pro Software), and 2) ORIUS Wi-Fi Directional Finder (a passive hand-held device that detects and locates any device transmitting data, video or audio over Wi-Fi.) Visit Booth 1420 for product demos and information.

Comtech EF Data

BOOTH: 226

2114 W. 7th Street, Tempe, AZ 85281

http://www.comtechefdata.com

Comtech EF Data has a proven track record of delivering reliable, scalable and ruggedized solutions for government applications above or below the sea, on the ground, and in the air. Our solutions are engineered to meet a range of standards and to support changing mission requirements.

CORE Survival, Inc.

BOOTH: 1902

4241 116th Terrace North, Clearwater, FL 33762

https://www.coresurvival.com

CORE Survival, Inc. makes user defined lighting and helmet-integrated, active Identification Friend or Foe (IFF) sensor/alert systems. Products include the HEL-STAR® line of personnel markers: HEL-STAR 6® Gen III, HEL-STAR 6 SWIR, HEL-STAR 5®, HEL-STAR 4® and HEL-STAR EXO® Series. Our active IFF devices include HEL-STAR F2® Multi-Spectral Identification Friend or Foe (IFF) and its variants. We also make special lighting for Military Free Fall (MFF), static line ops and aerial delivery.

Covidence

BOOTH: 326

Strandvejen 2A, Roende, 8410 Denmark

http://www.covidence.com

Covidence serves Police, Intelligence, Agencies, Special Forces and other Government approved Organizations fighting major crime and terror by supplying high quality miniature video surveillance solutions.

CP Technologies

BOOTH: 2218

10840 Thornmint Road, Suite 100, San Diego, CA 92127 http://www.cp-techusa.com

Aeronautics Group is a world-leading manufacturer of defense solutions based on UAS & advanced ISTAR systems. Since 1997, our products have been delivered to over 70 military & homeland security forces on 5 continents. Aeronautics will be joined by its US subsidiary CP Technologies, a manufacturer of Computer Hardware for Ground Control Stations.

CRFS, Inc **BOOTH: 1243**

4230 Lafayette Center Drive, Suite D, Chantilly, VA 20151 https://www.crfs.com

CRFS provides solutions to detect, identify, record & geolocate anomalous signals in complex RF environments. We provide spectrum managers and warfighters tools to control RF spectrum use. • Malicious interference or jamming • Bugging or breaches of secure facilities • Border & perimeter monitoring • Real-time RF situational awareness • Recording RF signals for forensic analysis CRFS is a leading supplier of RF spectrum management systems and tools. We help our clients see through the noise.

Crye Precision BOOTH: 2014

63 Flushing Avenue, Bldg. 128B, Unit 252, Brooklyn, NY 11205 http://www.cryeprecision.com

Specializing in innovative apparel & personal protective gear for units that have unique and diverse requirements.

Crystal Group

BOOTH: 1522

855 Metzger Drive, Hiawatha, IA 52233

http://www.crystalrugged.com

Crystal Group Inc, employee-owned small business, designs and manufactures deployment-ready, rugged servers, displays, networking, embedded, and storage devices that fit mission critical applications. Crystal excels at providing commercial-off-the-shelf (COTS) and custom designed systems tailored to specifications. All products are designed and built to meet/exceed MIL-STDs 810F/G, 167-1, 461E/F and MIL-S-901D.

CUBIC CORPORATION

BOOTH: 1135

330 Bob Heath Drive, Huntsville, AL 35806

http://www.cubic.com

Cubic Corporation designs, integrates, and operates systems, products and services in the C4ISR and defense training markets. Cubic's knowledge, experience and proven track record in mission critical situations enables you to train efficiently, deploy quicker, communicate faster, and accelerate your return on investment. Cubic will be displaying products designed to address a variety of needs including portable SATCOM, secure communications, C2ISR and FMV, datalinks, and specialized training.

BUILT TO PERFORM,

FOR THOSE WHO SERVE.

CHOOSING THE RIGHT SUPPLIER CAN BE DIFFICULT.

ZMicro is here to help you meet your program needs from start to integration. We bring together in-house engineering, on-site manufacturing and the highest degree of quality to deliver rugged computing solutions that you can depend on.

EVERYTHING YOU NEED IN ONE PLACE

Custom Designed Solutions

No matter what the requirement, we have a solution to help. We'll customize a product that works best for you.

In-House Engineering Team

Our team is focused on delivering quality product from conceptual. design to full rate production. Each project team has a dedicated project engineer manager to manage electrical, mechanical, firmware, software and environmental engineers.

On-site Manufacturing - USA Made

We're proud of our well-organized, quality-focused, clean and efficient operation and welcome you to schedule a tour of our production facility and see our manufacturing processes in action.

FIND THE RIGHT SOLUTION THAT FITS YOUR PROGRAM

Product solution offerings include: high-performance servers, modular flat panel displays, resident mass data storage systems, real-time video enhancement solutions, and video management software.

Cutting Edge Bullets

BOOTH: 423

75 Basin Run Road, Drifting, PA 16834 http://www.cuttingedgebullets.com

We manufacture solid copper, lathe turned projectiles for precision shooting in calibers .224-50BMG. Our patented SealTite band enables or bullets to fly unlike anything on the market today. The SealTite band is also used in our patented AP round design.

Darley Defense

BOOTH: 1836

325 Spring Lake Drive, Itasca, IL 60143

http://www.darleydefense.com

Since 1908, Darley & Co. has been dedicated to serving the world's Fire and Emergency Services and Defense organizations. Darley has been awarded major contracts by the Department of Defense to provide our forces with fire fighting, rescue, and special operational equipment. These contracts include, but are not limited to, the Tailored Logistics Support Program (TLSP), GSA, and DoD EMALL. Darley proudly supports SOCOM and the subordinate commands.

Dataminr

BOOTH: 1535

2101 Wilson Blvd, Suite 1002, Arlington, VA 22201

https://www.dataminr.com/public-sector

For those who serve and protect, Dataminr's First Alert capability provides critical, early indicators of breaking events - in real time - enabling the fastest response. Visit us at: https://www.dataminr.com/public-sector.

DataRobot

BOOTH: 249

One International Place, 5th Floor, Boston, MA 02110

https://www.datarobot.com/public-sector/

DataRobot helps enterprises embrace artificial intelligence (AI). Incorporating hundreds of the most powerful open source machine learning algorithms, DataRobot's platform automates, trains, and evaluates models in parallel, delivering AI applications at scale. DataRobot provides the fastest path to AI success for organizations of all sizes. Learn more at datarobot.com.

Dead Air Silencers

BOOTH: 321

5 South Main, Kamas, UT 84036

https://deadairsilencers.com/

Dead Air Silencers are driven by engineering performance. No gimmicks. There is no substitute for materials and no shortcuts with us. Every Sandman baffle is 100% Stellite. They cost three times more than stainless steel and they work better than Inconel under the hardest use and conditions. As for the tubes, we could have used the material that most of our competitors use, but instead we went with high-performance precipitation hardened stainless steel because strength does not come cheap.

Decon7 Systems LLC

BOOTH: 1850

8541 E Anderson Drive, Suite 106, Scottsdale, AZ 85255

http://www.decon7.com

Decon7s' Biological Decontaminant Accelerated Spray Plus (BDAS+) is a breakthrough solution to the complex chemical and engineering issues of containing the world's most effective military grade decontaminant in an individual rapid response application system. Where chemical and biological contamination is a threat, the low-burden D7 BDAS+ minimizes exposure risk to the warfighter. Small, lightweight, and man-portable, the BDAS+ gives warfighters instant access to a powerful decon anywhere

DeepSig Inc.

BOOTH: 1236

3100 Clarendon Blvd, Suite 200, Arlington, VA 22201

DeepSig is applying deep learning AI to dramatically improve wireless in both defense and commercial markets. OmniSIG is a signal detection and classification software product that provides 1000X speed increase with reduced SWaP for threat warning, ISR, EW, SIGINT, and cyber intrusion detection. An SDK enables rapid system training of new signals. OmniPHY learns waveforms that are optimized for a mission needs such as UAV data links and is also being used to improve 5G performance and SWaP.

Defender Pharmaceuticals

BOOTH: 1654

324 S. Hyde Park Avenue, Suite 350, Tampa, FL 33606

http://defenderpharma.com

Defender Pharmaceuticals, Inc. (DPI) is a development-stage pharmaceutical organization focused on the discovery, development, and partnering of anti-emetic (anti-vomiting and anti-nausea) compounds for both the human and veterinary markets. The primary focus of DPI is the development of scopolamine as a motion sickness countermeasure, specifically in the military and for astronauts, filling a large unmet need for an easily-administered, fastacting motion sickness remedy, and can lead to life-threatening and missionthreatening debilitation.

Defense Contract Audit Agency (DCAA)

8725 John J. Kingman Road, Suite 2135, Fort Belvoir, VA 22060 http://www.dcaa.mil

As a key member of the government acquisition team, we are dedicated stewards of taxpayer dollars who deliver high quality contract audits and services to ensure that warfighters get what they need at fair and reasonable prices. The DCAA Small Business Program Manager provides information and training to small businesses explaining the accounting requirements for government contracts with the Department of Defense.

BOOTH: 1749

747 Dresher Road, Suite 125, Horsham, PA 19044-2247

http://www.deltadigitalvideo.com

Delta Digital Video is a leading supplier of mission-qualified video compression and scan conversion products. Our MISB/STANAG compliant airborne encoders are currently in operation on key military unmanned and manned platforms and are specifically designed for the demanding environmental requirements of airborne operation. With several decades of program success, we are committed to working with government and industry partners to ensure interoperability, reliability, and quality.

Dexter Edward

BOOTH: 1049

13873 Park Center Road, Suite 304, Herndon, VA 20171

http://www.dexteredward.com

Dexter Edward is the premiere integrator of encrypted, traceless communications and collaboration networks built over public infrastructure. We provide leading-edge solutions well-adapted for team/low-vis comms, obfuscated data transport, and managed attribution/OPSEC. Our solutions can protect military source operations, persistent surveillance & secure sensor exfiltration, OSINT operations, remote advise-and-assist missions, battlefield intelligence prep, and more mission-critical operations.

Digital Force Technologies

BOOTH: 244

6779 Mesa Ridge Road, Suite 150, San Diego, CA 92121

http://www.digitalforcetech.com

Digital Force Technologies designs, manufactures, and deploys unique sensor and surveillance solutions for military, industrial, and executive protection customers. Areas of expertise include integrated sensor systems, advanced camera and imaging devices, quick-deploy force protection systems, and rapid product development.

Digital Receiver Technology

BOOTH: 504

12409 Milestone Center Drive, Germantown, MD 20876 United States http://www.drti.com

DRT designs/manufactures RF and DSP-based products for Municipal, County, State, Federal and Military investigative/intelligence collection organizations for support of technical surveillance and tactical operations. DRT's softwaredefined nature of product enables a single system to target numerous communication protocols. A full line of both transmit and receive products are available.

DIT Defence & Security Organisation

BOOTH: 1122

3 Whitehall Place, London, SW1A 2AW United Kingdom http://www.gov.uk/dit-dso

The Defence & Security Organisation within UK Department of International Trade (DIT DSO) provides the essential Government-to-Government dimension to company-led marketing campaigns in the export of Defence and Security equipment. Drawing on the wider DIT experience of trade promotion and working closely with the UK Ministry of Defence and Armed Forces, the Defence and Security Organisation helps build defence-to-defence and wider Gov-to-Gov relations, and provides access to specialist support.

DLA Corporate Events

BOOTH: 1940

8725 John J Kingman Road, Ft Belvoir, VA 22060

As the Nation's combat logistics support agency, the Defense Logistics Agency provides innovative logistics, acquisition, and technical solutions. DLA provides nearly all consumable items America's military forces need to operate: food, fuel and energy, uniforms, medical supplies, construction and barrier equipment, and spare parts. DLA also provides reutilization, disposition, cataloging, and document automation & production services.

DoD CIO's DIB Cybersecurity Program

BOOTH: 29

1550 Crystal Drive, Suite 1000A, Arlington, VA 22202

DoD's Defense Industrial Base Cybersecurity (DIB CS) program was established to enhance and supplement DIB participants' capabilities to safeguard DoD information that resides on, or transits, DIB unclassified information systems. Through this public-private cyber security information sharing partnership, DoD and DIB participants share cyber threat information to identify and respond to adversary activity.

DOE Nevada National Security Site

2621 Losee Rd, Las Vegas, NV 89030

The Nevada National Security Site and its facilities help ensure the security of the United States by: stewardship of the nation's nuclear deterrent; providing nuclear and radiological emergency response capabilities/training; contributing to key nonproliferation and arms control initiatives; executing national level experiments; working with national security customers and other federal agencies on national security activities; and providing long-term stewardship of the NNSS's Cold War legacy.

Double Shoot

BOOTH: 1818

Bialick134 Ramat Gan, Ramat Gan, Israel

Double Shoot Ltd. is a rapidly growing Israeli startup. Double Shoot provides a unique and pioneering system to quickly and efficiently zero high accuracy weapons, as well as an advanced scoring system. The platform utilizes an advanced image processing system deployed by smartphone. It also analyses all the system's data in order to provide a wide spectrum of reports. The Double Shoot app reduces the number of sessions required to properly zero weaponry, leading to both time and ammunition savings of 30%-50%. Double Shoot's technology is unique and patent-protected.

Draeger

BOOTH: 318

7256 S Sam Houston Pkwy W #100, Houston, TX 77085 http://draeger.com

For more than 100 years, Dräger has focused on one goal: human safety. By working closely with military and civil forces, we have learned about the dangers you face on a daily basis.

Using state-of-the-art technology, we develop products based on knowledge of your special requirements. Dräger solutions include respiratory protection systems, portable gas detectors and monitors, diving equipment, and NBC/ CBRNe protection/detection systems - all backed by service and support points worldwide.

Dynamic Systems, Inc.

BOOTH: 250

124 Maryland Street, El Segundo, CA 90245

https://www.DynamicSystemsInc.com

At Dynamic Systems, Inc. we develop, deploy and maintain sophisticated technology by combining expert professional services and cutting-edge technology to provide an all-encompassing cloud-based or on-premises solution. We have been providing high-end IT solutions to our public sector clients since 1991 and have cleared resources and many contracting vehicles to meet customer requirements. We are an Oracle Platinum Cloud Standard partner with 34 specializations.

SOLUTIONS FOR YOUR FINANCIAL FUTURE

AAFMAA designed its Military Family Life Insurance with the Active Duty military community in mind.

Starting under \$12/month, you can get affordable coverage for your whole family that stays with you even after you leave the military.

As an added benefit of AAFMAA Membership, you may qualify for our \$5,000 CAP loan at just 1.5% APR paid back over five years. Available to Members in ranks E-5 through O4, there's no credit check, no fees, and no prepayment penalties — and you can use it for whatever you need.

Secure your financial future and take advantage of a smart, easy financial boost from your AAFMAA Membership.

AAFMAA, here for you, here for *Life*. Fast and easy to apply. Contact us now.

LIFE INSURANCE • FINANCIAL SOLUTIONS • MEMBER BENEFITS

Visit aafmaa.com/militaryfamily or call us at (800) 985-3446

for complete details, terms & conditions

Subject to terms and conditions of the policy, including exclusions and limitations. There is no insurance coverage unless you apply and are accepted by AAFMAA, a policy is issued, delivered, and accepted by you, and you pay the required premiums. AAFMAA's military family life insurance described above consists of separate life insurance policies that are underwritten, priced, and sold individually. The example price of \$12 per month is the total cost of three policies (\$2.95 + \$2.95 + \$5.20) rounded up to the nearest whole dollar. The CAP Loan is a benefit of AAFMAA Membership for current servicemembers in the U.S. Armed Forces, National Guard, or Reserves in ranks E-5 to E-9, all Warrant Officers, and O1 to O4, with at least \$250,000 of term life insurance or \$50,000 of Value-Added Whole Life Insurance in force. No war, aviation, terrorist clause. Coverage stays with you after you leave the military. All policies include Survivor Assistance Services. The U.S. Government does not sanction, recommend, or encourage the sale of this product. Subsidized life insurance may be available from the Federal Government.

Dynamit Nobel Defence

BOOTH: 1922

Dr.-Hermann-Fleck-Allee 8, Burbach, 57299 Germany

http://www.dn-defence.com

Dynamit Nobel Defence GmbH is a German defence company and the global technology leader for recoilless rifles. We look back at more than 60 years of experience in the development and production of shoulder-launched weapons for anti-tank, anti-armor, and multipurpose uses. We are the home of the iconic Panzerfaust and RGW90 systems. More than 18 armed forces worldwide have already made the choice to equip their operators with our combatproven solutions.

Edgybees

The Condor, Tyton, Hydra & Adapt products are MIL-STD-810 compliant, SWaP-conscious and deployed on several domestic & international airborne, naval & land based platforms. Products include rugged 3U VPX, XMC & PCIe cards with multiple video inputs & outputs. The NVIDIA/AMD/Own IP based designs offer GPGPU/CUDA/OpenCL support. Products include H.265 (HEVC) / H.264 encoders, video format converters and splitters.

ElbitAmerica

BOOTH: 1212

4700 Marine Creek Pkwy., Fort Worth, TX 76179

http://www.ElbitAmerica.com

ElbitAmerica helps keep America safe. For more than 25 years, our employees have delivered affordable, high-quality solutions that protect and saves lives. We are an American-run company that provides innovative and advanced capabilities for our nation's military, border patrol agents and commercial pilots; sustainment and support solutions for aircraft and ground combat vehicles; and life-saving medical instrumentation technologies.

eMagin Corporation

BOOTH: 1236

700 South Drive, Suite 201, Hopewell Junction, NY 12533 http://www.emagin.com

eMagin is the leading and only US manufacturer of active-matrix Organic LED (AM-OLED) microdisplays. Our OLED displays perform at lowpower levels, extended temperature ranges and provide image performance required for current and future systems, including the F-35 HMDS, Enhanced Night Vision Goggle III/B, Family of Weapons Sights, Javelin CLU, Laser Targeting Locator, Common Laser Range Finder, E-COTI, and E-COSI. Prototyping is ongoing for new fixed/rotary wing helmets and ground soldier HMDs.

Endgame

BOOTH: 216

3101 Wilson Blvd, Suite 500, Arlington, VA 22201

http://www.endgame.com

Endgame makes military-grade endpoint protection as simple as anti-virus. Leveraging the industry's most advanced machine learning technology, Endgame enables security operators of any skill level to deliver full-force protection, stopping everything from ransomware, to phishing, and targeted attacks. For more information, visit www.endgame.com and follow us on Twitter @EndgameInc.

EnerSys, Inc.

BOOTH: 421

301 Maple Avenue West, Suite 500, Vienna, VA 22180

http://www.hawkeraplus.com

EnerSys, the world's largest manufacturer of industrial batteries, offers complete VRLA, Li-Ion, Lithium Primary Reserve and NiCad stored energy solutions for the aerospace and defense industry. EnerSys batteries for military tactical ground vehicles, aircraft, submarines, soldier portable applications and weapons systems are known for their superior quality and innovative technology.

Epiq Solutions

BOOTH: 1622

165 Commerce Drive, Suite 204, Schaumburg, IL 60173

http://www.epiqsolutions.com

Epiq Solutions develops state of the art Software Defined Radio (SDR) systems and sensors, SWaP-optimized for SOF and SMU applications: Covert Comms, Intelligence, Surveillance, & Reconnaissance (ISR). We are experts in cellular and wireless protocols including Wi-Fi, Bluetooth, and IoT with turnkey solutions for: Advanced Wireless network characterization, including Cellular Towers and handsets identification and location. We also offer highperformance wideband collection modules and systems.

Esri

BOOTH: 649

380 New York Street, Redlands, CA 92373

http://esri.com/intelligence

Esri's ArcGIS provides an open platform that leverages web tools and integrated applications. With Esri technology you can use web maps and apps in a collaborative environment to integrate data, sensors, and activities in real time. Quickly detect, understand, and share intelligence for situational awareness and decision making between field and operations.

Excelitas Qioptiq

BOOTH: 1436

Glascoed Road, St. Asaph, LL17 0LL United Kingdom

http://www.qioptiq.com/equipment.html

Ignite

BOOTH: 1236

2101 Wilson Blvd, Suite 700, Arlington, VA 22201

http://www.sofic.org/exhibits/ignite

A new pavilion at SOFIC, Ignite, will feature 20 small businesses with innovative products and services to display to the SOF community. A few examples of technology focus areas that will be showcased within the pavilion are: Artificial Intelligence, Machine learning (Data Management); Hyper-Enabled Operator (HEO); Next Generation ISR.

IMMI

BOOTH: 411

18881 IMMI Way, Westfield, IN 46074

http://www.imminet.com

IMMI® innovates, designs, tests, and manufactures a wide range of advanced safety solutions for the U.S. military, including 2-, 3-, 4-, 5-, and 6-point restraint systems, cargo securement devices, rollover protection, and airbag systems designed to keep those who serve our country safer. TARDEC also uses CAPE®, IMMI's award-winning crash test facility, to test components to full-size vehicles. IMMI is ITAR-compliant, ISO/TS certified, and meets all applicable MIL-STD and MIL-SPEC standards.

Inert Products LLC

BOOTH: 2228

100 Powderly Court, Scranton, PA 18504

http://www.inertproducts.com

Inert Products, LLC provides Law Enforcement, Homeland Security and the United States Department of Defense with extremely durable, highly realistic inert training aids used in training against terrorist threats. Located in Scranton, PA, Inert Products, LLC produces and supplies support materials used by security forces in training to recognize, respond to, and mitigate the threat of explosives & terrorism.

Information Assurance Specialists

BOOTH: 1647

151 Fries Mill Road, Suite 506B, Turnersville, NJ 08012 http://www.iaspecialists.com

Information Assurance Specialists (IAS) designs and manufactures software and hardware based IP networking router solutions for the commercial and defense markets. As NSA Commercial Solutions for Classified (CSfC) experts, IAS delivers secure, enterprise-level products that meet the most stringent mission requirements where ruggedization, security, size, weight, and power are critical. IAS also provides custom design engineering, engineering support, and COMSEC and INFOSEC segment consulting.

Innovative Solutions & Support

BOOTH: 550

720 Pennsylvania Drive, Exton, PA 19341

http://www.innovative-ss.com

Innovative Solutions & Support, Inc. (IS&S) is a leading systems integrator that designs and manufactures cost effective NextGen flight navigation systems and precision flight instrumentation equipment for the aerospace industry. The world's most respected aircraft builders, owners and operators rely on our leading edge avionics technology, superior craftsmanship, and stringent quality standards to significantly enhance reliability, performance and provide superior value.

Insitu, Inc. A Boeing Subsidiary

BOOTH: 504

118 East Columbia River Way, Bingen, WA 98605 http://www.insitu.com

Insitu is an industry-leading provider of information for superior decision making. We create customized unmanned aerial systems and information processing software solutions while providing 24/7 global training, services and support. Our platforms - ScanEagle, Integrator, and Blackjack - have logged more than one million operational flight hours and deliver high-quality, combat-proven ISR for both land and maritime missions. Founded in 1994, Insitu is a wholly owned subsidiary of The Boeing Company.

Intelligent Waves LLC

BOOTH: 412

1801 Robert Fulton Drive, Suite 440, Reston, VA 20191

https://www.intelligentwaves.com

Intelligent Waves, an SDVOSB, is a premier provider of end-to-end IT services and solutions. Our unique ability to enable secure information sharing and communications from any technology anywhere derives from years of military operations and communications support in tactical and strategic environments. Committed to our nation and the warfighter, we are mission focused and dedicated to making an impact for our customers through innovative and advanced technologies. Visit intelligentwaves.com.

IntelliSense Systems

BOOTH: 517

20600 Gramercy Place, #100, Torrance, CA 90501

http://www.intellisensesystems.com

Intellisense Systems, Inc. (ISI) is a small business committed to providing innovative, timely, and cost-effective solutions for our defense customers in cutting-edge sensors, information processor, optoelectronic instrumentations, augmented intelligence, and visualization technologies. With well-rounded technical expertise and well-established processes and certifications, ISI has built an in-house engineering and production facility and infrastructure to support technology transition.

Intelsat General Corporation

BOOTH: 425

7900 Tysons One Place, McLean, VA 22102

http://www.intelsatgeneral.com

Intelsat General (IGC) is a wholly owned subsidiary of Intelsat, operator of the world's first Globalized Network. IGC delivers high-quality, cost-effective, secure video and broadband communications solutions via the world's largest satellite backbone with terrestrial infrastructure, managed services and an open, interoperable architecture. Our customers rely on IGC to provide ubiquitous broadband connectivity, secure satellite communications and seamless mobility services.

International Armored Group

BOOTH: 2223

5840 US 1 Highway South, St. Augustine, FL 32086 http://www.interarmored.com

For over 20 years, International Armored Group has proudly manufactured the highest quality armored vehicles available on the market. We offer over 75 models of commercial armored vehicles, as well as a wide variety of special purpose tactical armored vehicles for Military and Law Enforcement Agencies.

Interspiro Inc

BOOTH: 205

10225 2nd Avenue, Pleasant Prairie, WI 53158-5801

http://www.interspiro.com

Interspiro supplies military and defense organizations and police departments with state-of-the-art breathing apparatus and auxiliary equipment for search and rescue missions, emergency escape, firefighting and diving in harsh conditions. Since 1948 Interspiro has worked to improve the safety and efficiency of professional diving. Today we are trusted by elite divers in all corners of the world. Our history is full of technical milestones and achievements putting personal safety first.

- Software-Defined Networks for global connectivity
- BLoS Airborne ISR Networks
- Anti-Jam Waveforms with LPI/LPD
- All from the partner you trust

Message Received

When missions go around the world, network challenges go beyond any one form of connectivity. At Hughes, our world-class engineers are continuing a legacy of innovation by delivering critical breakthroughs for the most complex networking challenges. From SATCOM to SD-WAN, when the message must get through, count on us.

Hughes. The partner you choose when communication matters most.

Invisible Interdiction Inc

BOOTH: 207

5320 Rosewood Lane, Vero Beach, FL 32966

http://www.invisidiction.com

Invisible Interdiction designs and manufactures counter-UAS jamming systems. These designs include hand-held, weapon-mounted and integratable jamming modules. We are a Veteran-owned small business manufacturing in Melbourne, Florida.

Iris Technology Corporation

BOOTH: 344

PO Box 15115, Irvine, CA 92623 https://www.iristechnology.com

Iris Technology develops and manufactures all-digital power solutions for the warfighter. This unique design approach allows for design reuse, the highest efficiencies, and scalability - from 1 Watt to 10 kW. This technology is applicable to communications and intelligence systems, expeditionary and base operations, military vehicles, and space platforms. Our Cyber operation delivers special services for forensics and criminal investigations (www. cypher.black).

IrvinGQ

BOOTH: 236

Bettws Road, Llangeinor, Bridgend CF32 8PL United Kingdom http://www.IrvinGQ.com

Following successful live drops in multiple configurations from C130, IrvinGQ are showcasing their new and highly capable Rapid Rig/De-Rig, Aerial Delivery System, "ATAX", which is transforming the capability and speed at which military assets can be deployed. Celebrating their centenary, IrvinGQ (formerly Airborne Systems 'Europe'), is the world's most trusted design and manufacturing resource for Personnel Parachutes, Aerial Delivery solutions and Corner Reflector Naval Decoy Systems.

ITility, LLC BOOTH: 1048

14840 Conference Center Drive, Suite 100, Chantilly, VA 20151 http://www.itility.com

ITility serves those who secure our freedoms, our borders, and our most precious resources. Our team of experienced professionals routinely achieve what others say cannot be done to improve readiness and develop the next generation of SOF operators. Their experience and creativity ensure outcomes that have significance for each of our SOCOM customers in Program and Project Management, Training & Education, R&D, Engineering, and Systems Integration. At ITility, we value what matters.

Jameson

BOOTH: 2219

1451 Old North Main Street, Clover, SC 29710

http://www.jamesonllc.com

Since the 1980s Jameson lights have been fielded across all branches of the military. Today, we offer an expanded line of products to address the needs of military, first responders, emergency personnel and law enforcement.

JEM Engineering

BOOTH: 213

8683 Cherry Lane, Laurel, MD 20707

https://www.jemengineering.com/

JEM Engineering, centrally located between Baltimore and Washington, DC, specializes in quick-reaction custom antenna development, novel antenna products, and rapid radio frequency (RF) testing services. The engineers at JEM have decades of combined experience in the development and validation of antennas, microwave circuits, phased arrays and associated electronics. We cover a spectrum from 2 MHz to 40 GHz. Our products are suitable for both government and commercial applications.

JGW Group

BOOTH: 314

1801 Robert Fulton Drive, Suite 400, Reston, VA 20191

http://www.jgwgroup.com

JGW Group expertise in the DoD: marketing/sales, training, consulting, proposal preparation and management, business development, and contractual intelligence. Our focus areas include Aerospace, Force Protection, CBRNE

Joint Communications Support Element

BOOTH: 32, P521

8532 Marina Bay Drive, MacDill AFB, FL 33621

On order, JCSE provides rapidly deployable, en-route, early entry, and scalable command, control, communications, computer, coalition, intelligence, surveillance, and reconnaissance (C5ISR) services capability across the full spectrum of operations to combatant commanders or other agencies as directed in order to facilitate rapid establishment of Joint Force Headquarters and bridge joint C5ISR requirements.

Joint Special Operations University

7701 Tampa Point Blvd., MacDill AFB, FL 33621

The Joint Special Operations University (JSOU) serves as the USSOCOM lead component for all matters pertaining to Joint SOF education. JSOU provides operational and strategic level special operations education and research to Special Operations Forces and the joint, interagency, and international communities in support of USSOCOM objectives. In addition to offering over 50 courses and being the home to the Joint SOF Enlisted Academy, JSOU supports scholarly research and publishes monographs written by and for the SOF community through the JSOU Press. JSOU is an accredited institution with its academic standards and curriculum evaluated by the Accrediting Council for Continuing Education & Training (ACCET), a national agency recognized by the U.S. Department of Education.

Juggernaut.Case

BOOTH: 751

16460 N 91st Street, Scottsdale, AZ 85260-1563

http://www.JuggernautCase.com

Juggernaut. Case is the industry commercial-off-the-shelf (COTS) standard for bringing digital connectivity to the dismounted warfighter or first responder. Juggernaut's mission to ruggedize smartphones and tablets for the battlefield or emergency environment is fulfilled with its diverse products designed, engineered and manufactured in the USA. With over 45,000 cases/mounts deployed, Juggernaut.Case supports ATAK, APASS, and KILLSWITCH applications running on select Apple and Samsung devices.

Kestrel Ballistics

BOOTH: 1649

21 Creek Circle, Boothwyn, PA 19061

http://www.kestrelballistics.com

Get the world's most complete ballistics calculator - a rugged Kestrel Weather Meter with the "science of accuracy" built in! Get accurate measurement of wind, air density, and other environmental variables to deliver elevation and windage solutions for unprecedented accuracy on extended long range shots. Kestrel Ballistics Meters have been proven to stand up to the harshest operational conditions while providing dependable and reliable data at the most critical of moments for over 15 years.

TDC Tactical Data Center

IAP designs, integrates and delivers tailored high-availability and scalable solutions providing DoD customers enterprise service delivery at the tactical

edge. IAP leverages cutting-edge solid state Hyper-Converged Infrastructure (HCI) technologies form VMware, Nutanix and others. IAP's TDC Solution Engineering Cell utilizes US Army, DISA, NSA, DoD, USCYBERCOM and USSOCOM best practices in creating secure infrastructures supporting multiple classifications providing data, voice and video services to Joint Task Force (JTF) and Joint Special Operations Task Force (JSOTF) sized elements.

BOOTH: 437, P508

12277 134th Court NE, Suite 100, Redmond, WA 98052

http://www.kymetacorp.com

Seamless, global connectivity is becoming more essential every day. Yet the current ways of staying connected inevitably leave some gaps. The world needs a new way to connect, especially while on the move. Kymeta is that

L3 Technologies

BOOTH: 1504

602 E vermont Avenue, Anaheim, CA 92805

http://www.L-3com.com

L3 is a leading provider of a broad range of communication and electronic systems and products used on military, homeland security and commercial platforms. L3 is also a prime contractor in aerospace systems, security and detection systems, and pilot training.

Landguard Systems Limited

Semaphore House, Fareham Heights, Standard Way, Fareham, PO16 8XT United Kingdom

http://www.landguardsystems.com

Landguard Systems specialises in the design and manufacture of innovative, high-performance radio systems for the defence and the wider law enforcement communities worldwide. Our product lines include; GUARDSMAN Software Defined Radios and FOUNDATION devices which provide comprehensive tracking capabilities using Iridium, cellular and RF technologies. Landguard Systems provides ongoing after sales assistance, operational support and bespoke user training.

LaserMaxDefense (LMD)

BOOTH: 1344

3495 Winton Place, Rochester, NY 14623

http://www.lmd-corp.com

Founded in 1989, LaserMaxDefense (LMD) is the pioneer in weapon-mounted, handheld thermal lasers and long range beacons based on its patented Quantum Cascade Laser (QCL) technology. LaserMaxDefense (LMD) thermal lasers are ruggedized to survive the harshest environments and operate across a broad spectrum of fielded imagers. Visit us at booth #1344.

Leading Technology Composites

BOOTH: 1204

2626 W. May Street, Wichita, KS 67213

http://www.ltc-ltc.com

Leading Technology Composites (LTC) is the world's premier lightweight armor system supplier. LTC provides the nation's most elite operators with the most advanced and lightest weight multi-hit vital torso protection plates in the industry. LTC also manufactures lightweight armor systems for helicopter, fixed wing, marine and wheeled vehicles. In 2018, we will celebrate our 25th Anniversary, representing over two decades of excellence in armor system engineering and manufacturing.

Leica Sport Optics

BOOTH: 1649

1 Pearl Court, Allendale, NJ 07401

https://us.leica-camera.com/Sport-Optics

Leica leads the way in laser rangefinding, having introduced the first laser rangefinder in 1992! The accuracy and durability is unparalle! See our complete line of rangefinders, rifle scopes, spotting scopes and binoculars.

Leidos

BOOTH: 824

11955 Freedom Drive, Reston, VA 20190

http://www.leidos.com

Leidos is a Fortune 500® information technology, engineering, and science solutions and services leader working to solve the world's toughest challenges in the defense, intelligence, homeland security, civil, and health markets. The company's 32,000 employees support vital missions for government and commercial customers. Headquartered in Reston, Virginia, Leidos reported annual revenues of approximately \$10.19 billion for the fiscal year ended December 28, 2018. www.Leidos.com

Lenco Armored Vehicles

BOOTH: 2135

10 Betnr Industrial Drive, Pittsfield, MA 01201

http://www.LencoArmor.com

Lenco Armored Vehicles is the Nation's leading designer and manufacturer of tactical armored security vehicles. Lenco Armored Trucks meet the needs of S.W.A.T., Homeland Security, Counter-Terrorism, Force Protection, Military Police, HAZMAT Team and Dignitary Protection applications. A growing number of high-profile U.S. agencies around the globe are using our armored vehicles for dangerous law enforcement and military operations, citizen rescue and personnel/cargo delivery missions.

LEONARDO DRS

BOOTH: 936

100 N. Babcock Street, Melbourne, FL 32935

http://www.drs.com

Leonardo DRS which is celebrating its 50th Anniversary, is headquartered in Arlington, Virginia, U.S.A., and is a leading supplier of integrated products, services and support to military forces, intelligence agencies and prime contractors worldwide. Focused on defense technology, the Company develops, manufactures and supports a broad range of systems for mission critical and military sustainment requirements.

Autonomy & Positioning - Assured | novatel.com/sofic2019

NAVWAR SUPERIORITY

Liberty Dynamic

BOOTH: 1236

1550 Larimer Street, Unit 157, Denver, CO 80202

http://libertydynamic.com

Liberty Dynamic has developed a next generation Noise Flash Diversion Device that is set to revolutionize the deployment of flash bangs. Proprietary fuel-air technology, binary energetic material, and a microprocessor controlled fuse make this device the future of advanced non-lethal tactics.

Lightning Packs/HoverGlide

BOOTH: 2236

150 Strafford Avenue, Wayne, PA 19087

http://lightningpacks.com/

Lightning Packs is the only maker of ergonomic energy producing packs.

Lista/Vidmar

BOOTH: 240

400 Executive Blvd. S, Southington, CT 06489

https://storage.stanleyblackanddecker.com/

Stanley Black & Decker Storage Solutions is a global provider of highdensity storage solutions that help workforces work efficiently and safely. We partner with businesses to design customized storage and workspace systems that maximize productivity while saving space. Our trusted brands, LISTA® and Vidmar,® make up the broadest storage portfolio in the marketplace and enable us to provide tailored, cost-effective solutions to our customers' unique storage challenges.

Lockheed Martin

SPONSOR BOOTH: 922

6801 Rockledge Drive, Bethesda, MD 20817

http://www.lockheedmartin.com

Headquartered in Bethesda, Maryland, Lockheed Martin is a global security and aerospace company that employs approximately 105,000 people worldwide and is principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services.

Logos Technologies LLC

BOOTH: 750

2701 Prosperity Avenue, Suite 400, Fairfax, VA 22031

http://www.logos-technologies.com

Logos Technologies has a proven track record for developing leading-edge wide-area motion imagery (WAMI) sensors and advanced processing solutions. Our systems serve as a force multiplier, allowing operators to identify threats, quickly and affordably, across an entire city-sized area. Logos specializes in the fields of advanced sensors, wide area motion imagery, advanced analytics, and processing of large, multi-source datasets. Learn more at www.logos-technologies.com

Los Alamos National Laboratory

BOOTH: 13

PO Box 1663, MS B224, Los Alamos, NM 87545

http://www.lanl.gov/index.php

The Laboratory's Global Security organization is committed to protecting our Nation against emerging, prolific, and unconventional nuclear threats, regardless of origin. Global Security solves these complex security challenges by: 1) Anticipating our customer's technical needs; 2) Applying the Laboratory's innovative and trusted multidisciplinary science, technology & engineering capabilities; and by 3) Developing best-in-class people to execute the Laboratory's strategic deterrence mission.

Lunarline, Inc.

BOOTH: 222

3300 Fairfax Drive, Suite 212, Arlington, VA 22201

http://www.lunarline.com

Lunarline is a Service-Disabled Veteran-Owned Small Business founded in 2004 that helps our Intelligence, DoD, Federal Civilian and private sector clients fight back against modern cybercrime. We have grown to provide security training, services, managed security and products to over 500 clients.

MacGyver Solutions, Inc.

BOOTH: 1804

PO BOX 3906, Pinehurst, NC 28374

http://www.macgyversolutions.com

MacGyver Solutions provides vehicles, parts, maintenance, sustainment and training for FOSOV and Ground Mobility Vehicles. We are able to support Polaris, Kawasaki, Yamaha, Can-Am, Sea-Doo and most other brands. Owned/ operated by Special Forces Disabled Veteran. We employ veterans through RacingforHeroes.org and RFH Tactical Mobility. This year we have FOLDAR products, Zero Motorcycles, Tweel and BCB International as co-exhibitors. Visit www.MacGyverSolutions.com or www.MILATV.com for more info.

MacroTrac

BOOTH: P317

https://www.macrotrac.com/

The MacroTrac Family is a full line of durable and environmentally-friendly injection-molded plastic flooring and roadway mats which have been used successfully to cover some of the most valuable turf and most hostile terrain in the world. Over two million square feet of MacroTrac manually deployable matting and roadways have been installed in North America alone. MacroTrac products are the ideal choice for military, aviation, event, drilling, and construction applications.

MAG Aerospace

BOOTH: 1547

12730 Fair Lakes Circle, Suite 600, Fairfax, VA 22033

https://magaero.com/

MAG Aerospace is a leader in providing and enabling real-time situational awareness to help its customers make the world smaller and safer. MAG delivers full spectrum C4ISR Services (integration, operations, training, and technical services) and other specialty aviation to customers around the world. MAG's team of 1,000+ professionals operate 200+ manned and unmanned special mission aircraft, delivering ~100,000 flight hours annually on six continents in support of its customers' missions.

Marathon Targets

BOOTH: 536

511 2nd Avenue, Columbus, GA 31901

http://www.marathon-targets.com

Problem: A root cause problem for SOF: the only time you practice live fire training with realistic moving targets - is in combat. Lethality suffers. Solution: Marathon Targets makes AI-enabled robotic targets for live-fire training. Shoot one robot, and the others autonomously scatter for cover, or self-organize a counterattack. For the first time - operators can perform live fire force-on-force against a 'thinking, adaptive and unpredictable enemy force.' Used by SF on 4 continents since 2008.

Maritime Tactical Systems, Inc.

BOOTH: B09

511 N. John Rodes Blvd, Suite 103, Melbourne, FL 32934 http://martacsystems.com

Maritime Tactical Systems, Inc. (MARTAC™) is an innovative provider of Unmanned Surface Vehicle (USV) Systems focused on protecting the United States and its allies and providing commercial and scientific firms with unmanned maritime systems capable of removing personnel from harm's way. The MANTAS™ vessel is scalable ranging in sizes from 6 to 50 feet, operating with an extreme performance envelope, which excels in hundreds of diverse missions. Test drive one today.

A next-generation multiband amplifier designed to enhance the communications environment of next-generation radios.

Any Mission. Anywhere. Any Time.

tricomresearch.com

Tricom Research's line of communications products is relied upon by frontline troops serving around the world. Designed, tested, and manufactured in the USA, Tricom RF Amplifiers are built to be the best. The TCR-MBA-50v2 is the latest in a long standing line of Power Amplifiers that deliver communications when it matters most.

When it comes time to communicate, trust Tricom Research.

Marketing Assessment, Inc/Trikke

BOOTH: P419

22831 Silverbrook CTR Drive, Unit 145, Sterling, VA 20166 http://www.trikke.com

MAI helps our strategic partners (and the DOD) find and transition COTS technology into the battlefield. We have deployed basic splinting capability, portable point of care laboratory devices, simulation training products and services, infrastructure and environmental technology, and introducing a 3-point cambering professional mobility force multiplier system for use in transportation, logistics, supply chain, deployment, and most applications where a "Gator" type of vehicle would be utilized.

Markforged

BOOTH: 1236

480 Pleasant Street, Watertown, MA 02472

https://markforged.com/

Markforged manufactures 3D printers that support mission critical use cases globally. With a unique, patented, capability to reinforce composite parts with continuous carbon fiber and Kevlar, Markforged printers create strong parts for real work. The Markforged Metal X expands this into metal 3D printing. The combination of the two enable our mission customers to create unique hybrid tools and products in support of critical requirements.

Maxim Defense Industries

BOOTH: 2119

1265 Kuhn Drive, Suite 100, St. Cloud, MN 56301 http://maximdefense.com

MaxVision LLC

BOOTH: 1047

495 Production Avenue, Madison, AL 35758

http://maxvision.com

Rugged Portable Computers (dba Max Vision®) specializes in ruggedizing the industry's best Commercial-Off-The-Shelf (COTS) technology to create the fastest rugged portable computers in the industry which include deployable storage/servers and multi-screen workstations. Our designs provide competitive pricing of COTS technology, built rugged for extreme environments.

McQ Inc

BOOTH: 1236

1551 Forbes Street, Fredericksburg, VA 22405

http://www.mcqinc.com

McQ Inc., a sensor company providing high tech solutions for remote sensing applications. Currently, developing a 77 GHz Nano Radar which provides immediate target information using no terrestrial infrastructure, requiring no operator training, and minimal operational planning. Once sensors are placed or dropped into an area of interest, the situation awareness is available to many distributed users on their standard display platforms. McQ excels in detecting, classifying and tracking targets.

Mercury Systems

BOOTH: 1102

50 Minuteman Road, Andover, MA 01810

http://www.mrcy.com

Mercury Systems is a leading commercial provider of secure and safety-critical processing subsystems. Our rugged servers are deployed in over 13 major U.S. Army programs and employed in a variety of C4ISR, weapon system, and tactical vehicle applications including mobile communications, simulation and stimulation, cyber operations, and VICTORY enabled platform communications. Our COTS products are known for their high performance, interoperability, availability & SWaP optimization.

Micro-Ant

BOOTH: 1304

4722 Wesconnectt Blvd., Jacksonville, FL 32210

http://www.micro-ant.com

Micro-Ant develops and manufactures custom antennas and RF electronics for military and commercial uses. These antennas include ESAs, flat panels, parabolic other antennas for land, maritime and airborne use for COTM, COTP and fixed operation. Micro-Ant's active components include LNAs, LNBs and SSPAs often integrated into the antennas. Micro-Ant has antennas from 40 MHz to 40 GHz covering L, S, C, X, Ku, K and Ka bands among others. Micro-Ant is AS9100 and ISO 9001 certified.

MIFRAM Security Ltd.

BOOTH: 1818, P506

6 Josef Levy Street, Kiryat Bialik, Israel

http://www.miframsecurity.com

Since its establishment in 1962, Mifram has been involved in building and protecting Israel. Mifram has more than 57 years' experience in the provision of comprehensive solutions for both security and industrial needs. Mifram Security is today, one of the world's leading providers in the design, manufacture and installation of physical perimeter security solutions. Mifram brings to the table accumulated a wealth of experience in its decades of dedicated service to its clients.

Mildef, Inc.

BOOTH: 338

630 W. Lambert Road, Brea, CA 92821

http://www.mildef.com

MilDef develops, manufactures and sells rugged computers and special electronics to customers in the aerospace and defense sector. The products range from rugged laptops and tablet PCs to servers & computers, routers and other network equipment. Our products are built to survive the rigors of combat in any environment from scorching desert heat to severe arctic winds.

Military Battery Systems, Inc.

BOOTH: 337

2729 W 38th Avenue, Denver, CO 80211

http://www.milbatteries.com

Rugged portable power systems featuring Gridless intelligent battery technology. Portable Wi-Fi, cellular hotspots. Optima Batteries, warfighter proven power for a variety of vehicles and equipment.

Military Systems Group, Inc.

BOOTH: 313

736 Fesslers Lane, Nashville, TN 37210

http://www.milsysgroup.com

Military Systems Group Inc. is a company committed to providing quality weapon systems and combat enhancements for military vehicle requirements. Based on operator input, MSG designs and manufactures machine gun mounts and other combat enhancements for use on GMV, HMMWV, FMTV, ATV and other vehicles. These enhancements have outfitted thousands of vehicles in both Afghanistan and Iraq. The MSG enhancements have enabled soldiers on the battlefield to effectively perform combat actions against the GWOT.

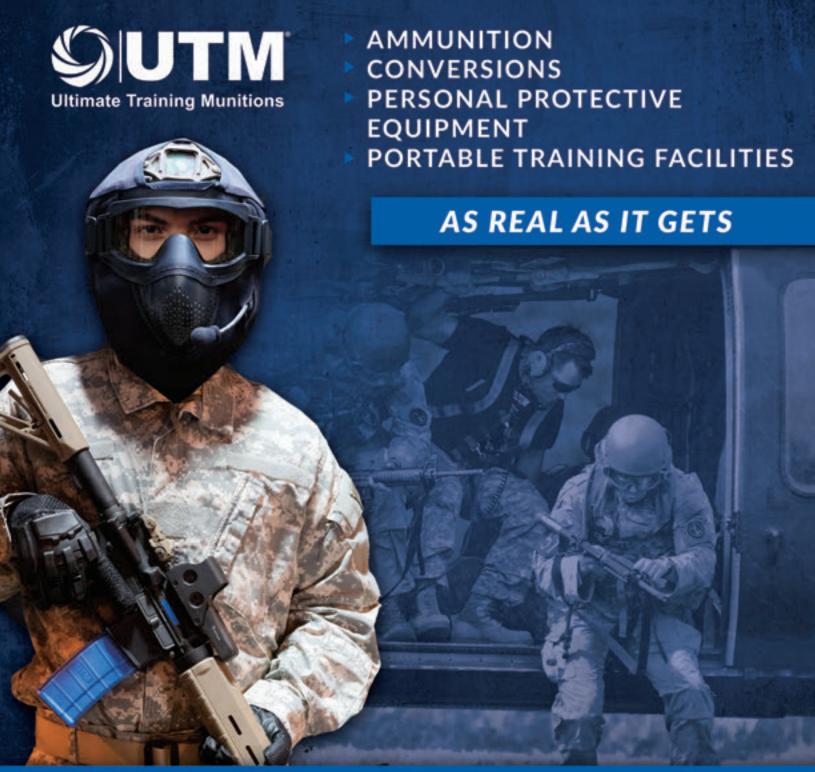

Millennium Sensor, LLC

BOOTH: 848

15611 Colorado Blvd., Brighton, CO 80602

Millennium Sensor manufactures ISR, Force Protection, and Tracking gear for tactical and short notice rapid deployment applications.Our fully integrated "Pack & Go" kits provide solutions in spectrum dominant and denied spectrum areas.P3 -Protect Prevent Pursue - gear has been fielded for almost two decades with continually enhanced design features providing operators a flexible, integrated system while improving situational awareness. Manufactured in the USA. Millennium Sensor www.msensor.com

www.utmworldwide.com | (877) 886-7233 | sales@utmusa.com

Ultimate Training Munitions (UTM) is and has been the leader in providing force-on-force training products to U.S. Military and Government Agencies for over 12 years. UTM offers the safest, most reliable and most accurate non-lethal training available. The UTM System consists of marking and blank ammunition rounds, conversions, personal protective equipment and portable training facilities, enabling better preparation to accomplish your mission. Using your own firearm, you will experience full function and unsurpassed realism with the freedom to train in any environment.

Milliken & Company

BOOTH: 1942

920 Milliken Road, Spartanburg, SC 29304

http://Military.Milliken.com

Trusted by the US military for more than 75 years, Milliken has been supplying a wide range of textiles proudly made in the USA. Built to serve and protect our front-line defenders, we offer flame-resistant ResQ™ fabrics, fabrics to protect against extreme cold and wet weather, fabrics for combat uniforms and even thermoplastic composites with impact resistance and ballistic protection. Those in service deserve the best, and Milliken fabrics deliver. Learn more at Military.Milliken.com.

Mistral Group

BOOTH: 1847

7910 Woodmont Avenue, Suite 820, Bethesda, MD 20814

http://www.mistralgroup.com

The Mistral Group is a team of independent companies, each operating in different markets worldwide, while collectively sharing the mission of "bridging" operational gaps in the Defense, Homeland Security, and Law Enforcement communities with practical, innovative, and field ready solutions. Mistral is a US owned, small business operating since 1988.

Mobile Virtual Player

BOOTH: 237

55 Old Bedford Road, Lincoln, MA 01773

http://www.mvptactical.com

MVP is a privately held robotics & engineering startup that specializes in developing high-performance robotic solutions for sports & tactical operations, headquarters in MA & VT. MVP has continued developing their patented robotic system to create HEKTR (Humanoid Engageable Kinetic Training Robot) a remote-control, fully armored, all-terrain, responsive live-fire target (speeds up to 18 mph) & provides instantaneous feedback to the shooter filling the realistic training needs of the warfighter.

Modus Operandi, Inc.

BOOTH: 341

709 S. Harbor City Blvd, Suite 400, Melbourne, FL 32901

http://modusoperandi.com

Modus Operandi is a high-tech software company serving the U.S. defense and intelligence community. Our purpose is to help defend and protect our country, our allies, and our planet by providing innovative software solutions and lead in the living intelligence revolution.

Motorola Solutions

BOOTH: 312

1301 E Algonquin Road, Schaumburg, IL 60196

http://www.motorolasolutions.com

Motorola Solutions provides SDR platforms that access intelligence feeds across spectrum to increase situational awareness and real-time intelligence. We offer one-box-solutions that adapt to multiple missions. Combined with tailored applications, your personnel will be more nimble, have real-time data for faster decision-making and improve mission efficiencies. MSI SDR technology that will transform your missions into smaller footprints. Motorola Solutions for modern battlefield solutions.

MPI

BOOTH: 231

36 Cogwheel Lane, Seymour, CT 06483

http://www.microboard.com

MPS TECHLINE OF PA, INC.

BOOTH: 1950

668 Davisville Road, Willow Grove, PA 19090

http://www.techlinetrauma.com

MPS TECHLINE a Woman-Owned Small Business, is the developer and manufacturer of RF- Transmissible Concealments and Camouflage. We can replicate anything, natural or man-made. Under our Techline Trauma® brand, we also make traumatic medical training products, offer training in bleeding control, and distribute tactical medical equipment. Please visit us in Booth 1914.

MSAB Inc.

BOOTH: 230

2001 Jefferson Davis Hwy, Suite 801, Arlington, VA 22202 http://www.msab.com

MSAB's sole focus is a quality forensic solution that creates secure and trusted results for end users. The core business today produces a world class product called XRY which has the capability to recover deleted data from mobile devices; smart-phones, drones, mobile phones, 3G modems, GPS and Tablet devices. Building on that foundation we have released XAMN to provide smartphone analytics to our customer base. XEC is our administrative platform to manage updates and logistics.

National Armaments Consortium (NAC)

BOOTH: 2136

315 Sigma Drive, Summerville, SC 29483

http://www.nacconsortium.org

The National Armaments Consortium (NAC) serves as the industry partner for the Department of Defense Ordnance Technology Consortium's (DOTC) and the Aviation and Missile Technology Consortium (AMTC). Our robust, transparent, and unique collaboration approach, once considered a novel and unrealistic concept, has evolved into a well-established process through which our DoD stakeholders acquire the innovative Armament technologies needed to maintain U.S. technological superiority.

National Defense Industrial Association (NDIA)

BOOTH: 1

2101 Wilson Blvd, Suite 700, Arlington, VA 22201 http://www.ndia.org

The National Defense Industrial Association is the trusted leader in defense and national security associations. As a 501(c)(3) corporate and individual membership association, NDIA convenes forums where thoughtful, innovative leaders exchange ideas and information to ensure America's armed forces enjoy decisive advantage across the spectrum of conflict. NDIA engages with government, industry and academia to ensure development of best policies, practices, products, and technologies to ensure the safety and security of our nation. NDIA's membership embodies the full spectrum of corporate, government, academic, and individual stakeholders who, together, form a vigorous, responsive, and collaborative community in support of defense and national security. For more information, visit www.ndia.org

We need heroes fighting just as passionately behind the scenes as those facing the enemy. We need patriots who dig deep and make the impossible possible. We need visionaries committed to getting the job done, no matter what it takes. We need to make a difference—we need you.

The Space Dynamics Laboratory (SDL) is dedicated to providing effective technology assets to assist in winning the battle while increasing the safety of our warfighters. Join our team and develop powerful engineering solutions like our Precision Weapons Platform that includes a Remote Door Gunner designed to help save lives by keeping operators out of the direct line of fire or our anti-jam COTS infiltrator drone designed for GPS-denied and RF-hostile areas.

For more information about SDL's job opportunities and technologies, talk to one of our experts in booth 1350.

National Training & Simulation Association (NTSA)

BOOTH: 1

2101 Wilson Blvd, Suite 700, Arlington, VA 22201

The National Training and Simulation Association (NTSA) is America's premier organization representing the interests of the modeling and simulation community worldwide. NTSA provides the training, simulation, related support systems and training services industries with a focused, formal organization to represent and promote their business interests in the market place. The association, an affiliate of the National Defense Industrial Association, provides a forum to communicate the full capability and broad characteristics of the elements of training systems and services to include associated support services. Founded in 1988, NTSA fosters communication between industry and training agencies to ensure understanding of requirements, procurement issues and policies. NTSA ensures all stakeholders, government, industry, and academia, recognize the independence and importance of training systems development as well as services, to ensure warfighter training and simulation requirements are highlighted as independent and important line items within the planning, programming, budgeting, execution and acquisition process.

Naval Small Craft Instruction and Technical Training School (NAVSCIATTS)

BOOTH: 30

2606 Lower Gainesville Road, Stennis Space Center, MS 39529

Naval Small Craft Instruction and Technical Training School is an international training center operating under U.S. Special Operations Command in support of Foreign Security Assistance and Geographic Commanders' Theater Security Cooperation priorities.

Navistar Defense

BOOTH: 1248

10400 W. North Avenue, Melrose Park, IL 60160

http://www.navistardefense.com

Navistar Defense is a leading wheeled vehicle original equipment manufacturer serving military, law enforcement, and government agencies. The company provides a complete portfolio of both tactical and commercial off-theshelf military vehicles, as well as custom-tailored lifecycle support solutions to a global customer base. Navistar Defense is known for its dependability, quality, and unwavering dedication to service and support.

Navy SEAL Foundation

BOOTH: 31

1619 D Street, Virginia Beach, VA 23459

http://www.tampbayfrogman.com

Tampa Bay Frogman Swim - 5K Open Water Swim and Fundraiser in support of the Navy SEAL Foundation, a 501(c)(3) non profit ranked by Charity Navigator as one of the top charities in the nation. Visit www.navysealfoundation.org to learn more about the Foundation and its mission.

Nexter Robotics

BOOTH: 1236

13 Route de la Minière, Versailles, France

http://www.unhitec-robotics.com

Nexter Robotics, a Nexter Group subsidiary, specializes in the design and marketing of robots for defense and security applications. The NERVA® LG robot is our flagship product, a 5kg modular robot with more than 25 payloads "1-click", a product deployed by units around the world for several years. We will present at SOFIC 2019 an outstanding product that will revolutionize the operations of tomorrow, a single target: Driving, Flying, Mapping!

NFSTC@FIU

BOOTH: 426

8285 Bryan Dairy Road, Suite 125, Largo, FL 33777 http://www.nfstc.org

NFSTC@FIU provides SOF exploitation training, exercise support and equipment integration. Our expertise in biometrics, forensic science and exploitation training and technology helps you get the most out of every intelligence opportunity. Visit #426 to see how hidden intelligence can be found with the right combination of knowledge and tools. Capabilities include forensic exploitation and training, biometrics, chemical/explosives detection, Rapid DNA, CELLEX/DOMEX and blast mitigation.

Night Vision Devices

BOOTH: 2037

PO Box 3415, Allentown, PA 18106

http://www.nvdevicescom

Night Vision Devices is a U.S. manufacturer of high quality night vision systems and accessories. We provide innovative and cutting edge products and services to the military, law enforcement and consumer markets. Our excellent reputation has made us a dynamic night vision leader.

Nokomis, Inc.

BOOTH: 1236

310 5th Street, Charleroi, PA 15022

http://nokomisinc.com/

Nokomis is an innovative small business delivering next-generation hardware to the Warfighter to support successful operations in contested battlespaces. Nokomis' Hiawatha technology enables next-generation ISR, anti-tamper, and cyber/cyber-physical security technology applications through the exploitation of unintended electromagnetic signals. Hiawatha has been demonstrated capable of superior real-time target detection, localization, and tracking, enhancing Warfighter situational awareness.

Northrop Grumman Corporation

BOOTH: 612

45101 Warp Drive, Dulles, VA 20166

http://www.northropgrumman.com

Northrop Grumman is a leading global security company providing innovative systems, products and solutions in autonomous systems, cyber, C4ISR, strike, and logistics and modernization to customers worldwide. We specialize in special mission aircraft conversion including maritime patrol, gunship and weaponized airborne ISR platforms. We produce small-, medium- and large-caliber ammunition, medium caliber guns and precision guidance kits for artillery and mortar munitions.

Nov Atel BOOTH: 746

10921 14th Street NE, Calgary, AB T3K 2L5 Canada

http://www.novatel.com

NovAtel, part of Hexagon's Positioning Intelligence division, designs, manufactures and sells high precision Global Navigation Satellite System (GNSS) positioning, jamming detection and anti-jam technology. We provide proven, mission ready Navigation Warfare (NAVWAR) technology to ensure Position, Navigation and Timing (PNT) to defend your people right now. Learn more at www.novatel.com/industries/defense/

Novetta

BOOTH: 450

7921 Jones Branch Drive, Suite 500, McLean, VA 22102 http://www.novetta.com

For more than two decades, Novetta has directly supported the integration, deployment, and R&D of the most advanced technologies for USSOCOM both in Tampa & Fort Bragg. We offer a comprehensive collection of capabilities, solutions, and experts to address mission needs - converging intelligence and operations services into a single solution that provides an integrated Processing, Exploitation, and Dissemination (PED), Mission Command, and Staff Services architecture and visualization platform.

MISSION CRITICAL MISSION SUCCESS

Rapid Deployment • Classified & Special Missions • Full-Spectrum Support

AIRCRAFT MISSIONIZATION

- Responsive to Critical Mission Needs
- Experts at Precision Strike Package Integration
- Proven History of Successful AFSOC & USASOC Aircraft Modifications
- Cost Effective Systems Integration

RAPID PROTOTYPING

- Runway & Hangar Capability for all USSOCOM Aircraft
- · On-Site Manufacturing
- 3D Printing Capability
- . Close Proximity to AFSOC HQ

WEAPON AND SENSOR PACKAGE

- Modular, Scalable Missionization System
- Expandable from ISR to Precision Strike Capability
- Permanent or Temporary Aircraft Modifications
- . Exportable to Partner Nations

AIRCRAFT INTEGRATION & SUSTAINMENT

Vertex's Aircraft Integration & Sustainment business line delivers rapid solutions to increase aircraft availability while decreasing sustainment costs. We specialize in high-end aircraft engineering, fabrication, installation, systems integration, and MMRO.

VTXAERO.COM

NOVO DR LTD.

BOOTH: 1643

18A HaYetsira Street, PO Box 3556, Petah Tikva, 4951243 Israel http://www.novo-dr.com

NOVO DR Ltd. is the leading developer and manufacturer of Portable Digital Radiography X-Ray Inspection Systems. We produce the latest generation flat panel based radiography inspection systems for the Security & NDT sectors. Combining our decades of experience and intensive in-house R&D, NOVO takes portable DR to the highest level possible while emphasizing the following: • Highest image quality • Portability & Small footprint • Ruggedness • Efficient user experience • Field work optimization

NTS

BOOTH: 1747

4265 Eagle Landing Pkwy., Orange Park, FL 32065 http://www.nextechsol.com

Our NTS Mission Support Center is pioneering the next generation of government-focused solutions through an unconventional approach to the modern collabspace. We connect government agencies to a robust service catalog of resources, collabspaces, and talent through a highly-effective procurement process and operational support platform. Our model includes strong and efficient security, IT/Network, logistics, and a platform under 1, easy contract.

Nutanix, Inc.

BOOTH: 215, P415

1740 Technology Drive, Suite 150, San Jose, CA 95110 http://www.nutanix.com

Nutanix is a global leader in cloud software & hyperconverged platforms that make infrastructure invisible so IT can focus on mission-critical applications. Government organizations use Nutanix to bring one-click application management & mobility across public, private & distributed clouds to run any application at any scale with a reduced total cost of ownership. Nutanix users can rapidly deliver high-performance IT environments on demand, giving application owners a true cloud-like experience.

NuWaves Engineering

BOOTH: 343

132 Edison Drive, Middletown, OH 45044

www.nuwaves.com

NuWaves Engineering is a veteran-owned, premier supplier of RF and Microwave solutions for military, government, and industrial customers. NuWaves offers a broad range of design and engineering services, as well as a complete line of commercially available RF products that include wideband frequency converters, high-efficiency and miniature solid state power amplifiers and bidirectional amplifiers, high intercept low noise amplifiers and miniature RF filters.

NVISOL

BOOTH: 1818

Alon Tavor Industrial Zone, Alon Tavor Industrial Zone, Israel http://nvisol.com

New Vision Solutions - NVISOL was founded in 2014 to provide tactical forces with smart, simplified and intuitive customized hardware and computing integrated systems and devices best suited to tackle tactical combat challenges in soldier oriented environments and to support Special Ops Forces' demanding requirements. Keeping end-users' needs, budgets and time-tomarket considerations in mind.

Ocean Marine Industries

BOOTH: 217

2810 Hudson Street, Chesapeake, VA 23324

http://www.oceanmarineinc.com

OMI is the exclusive distributor for Sound Metrics' product range of highresolution imaging sonars. SMC is a leading manufacturer of high-resolution imaging sonars with unmatched clarity and detailed. ARIS Defender diverheld is the latest addition to the ARIS product line. ARIS Defender is the first ever sonar offered in the market place as a convertible sonar. The design of ARIS Defender is unprecedented as it allows the customer the fully autonomous diver-held sonar that can be quickly field converted to a compact fully functional ARIS Explorer. Basically, it's two sonars in one!

Oceaneering International, Inc.

BOOTH: 1748

7001 Dorsey Road, Hanover, MD 21076

http://www.oceaneering.com

The Advanced Technologies (ADTECH) group of Oceaneering is an industry leader in enabling humans to work safely and effectively in harsh environments ranging from the depths of the sea to the outer reaches of space. ADTECH specializes in the support of manned systems and the development and application of practical, cost-effective robotic systems.

Oceus Networks Inc.

BOOTH: 413

1895 Preston White Drive, Reston, VA 20191

http://www.oceusnetworks.com

Oceus Networks provides secure, customized mobile broadband products and solutions to governments and enterprise customers leveraging the latest in standards-based commercial technology. We specialize in fixed and wireless broadband solutions that enable secure, high-speed voice, video and data communications. Privately U.S.-owned and operated, Oceus Networks' headquarters are located in Reston, Virginia, with labs in Plano, Texas.

ODU USA

BOOTH: 1719

300 Camarillo Ranch Road, Suite A, Camarillo, CA 93012 http://www.odu-usa.com

The ODU GROUP is one of the world's leading suppliers of connector systems. ODU Connector Solutions ensure a reliable transmission of power, signals, data & media for a variety of demanding applications including military and security such as: soldier communication systems, unmanned systems (UAV/UGV/UAS) & military vehicles. ODU Advanced Customer Benefits include: standard products readily available, one-to-one technical support, rapid product development & cable assembly integrated solutions.

Omnetics Connector Corporation

BOOTH: 1343

7260 Commerce Circle East, Minneapolis, MN 55432 http://www.omnetics.com

Omnetics manufactures a complete line of Highspeed Micro-miniature, Nanominiature, and Hybrid connectors, wire harness and cable assembly solutions. These rugged Mil-Spec based Micro-D, Nano-D, Circular, and strip connector solutions can aid in the SWaP design requirements of your interconnects while increasing the number of contacts for high speed compact circuitry in mission critical applications and withstand harsh environments.

ONTime Networks LLC

BOOTH: 1650

6060 North Central Expressway, Suite 500, Dallas, TX 75206 http://www.ontimenet.com

OnTime Networks provides network centric solutions (Ethernet switches, routers, taps and time synchronization servers) that are specifically designed for the unique requirements of mission critical applications within the Aerospace and Defense industries and can be found in Airborne, Ground and Naval Defense applications. Our rugged systems address complexity, enable modularity and provide growth, while delivering optimal performance for SWaP-C constrained applications.

Where Value Meets Values for a Stronger America

SourceAmerica elevates what it means to buy products and services. Your contract creates jobs for people with disabilities, and our passion for this mission fuels us to provide exceptional quality and service to our customers in order to keep the jobs coming for our dedicated workforce. SourceAmerica is an AbilityOne® Authorized Enterprise.

http://www.waterproof.eu

Waterproof is globally recognized for the design, function and quality of suits and associated products for military diving and on-surface operation. Waterproof's R&D is always ready to adapt the products for each individual need and highest performance.

Watershed

BOOTH: 307

2000 Riverside Drive, Suite 7, Asheville, NC 28804

http://www.drybags.com

Watershed designs and manufactures 100% waterproof, submersible backpacks, duffels, weapons bags, and specialized waterproof bags for SOF use.

Wendell's Mint Inc. **BOOTH: 151**

6601 Bunker Lake Blvd NW, Ramsey, MN 55303

http://www.wendellsmint.com

American made Challenge Coins at import prices. Utilizing state of the art minting and painting processes, Wendell's Mint is able to deliver best in class quality at prices competitive with foreign manufactured products.

Wilcox Industries

BOOTH: 1851

25 Piscataqua Drive, Newington, NH 03801

http://www.wilcoxind.com

Wilcox is an industry leader in the design and manufacture of high quality tactical equipment for use by military and law enforcement in the United States. Making tactical products that have a reputation for quality and toughness is what Wilcox is committed to. Wilcox works toward finding solutions to the technology shortfalls that military and law enforcement encounter. With over 30 years of experience in manufacturing Wilcox has become known as a proven performer.

Will-Burt Company

BOOTH: 854

169 S. Main Street, Orrville, OH 44667

http://www.willburt.com

Will-Burt is the world's premier manufacturer of telescoping masts for elevation of surveillance sensors and communications antennas. Will-Burt offers masts of varying sizes, capabilities and drive systems, electro mechanical, pneumatic and manual, providing the utmost in flexibility for our product to meet program requirements. Our products are designed and manufactured to meet MIL-STD-810 and are field proven in the harshest environments.

Wing Inflatables Inc.

BOOTH: 1841

3701 Mt. Diablo Blvd., Lafayette, CA 94549

http://www.inflatablesolutions.com

Wing Inflatables specializes in thermo-welded, long-lasting polyurethane Inflatable boats, CRRCs, sponsons and collars in an array of designs and applications. Wing-Made Products are Berry Amendment and 'Buy America Act' compliant, not only providing U.S. jobs but maintaining and enhancing U.S. manufacturing expertise . "Designed Smarter. Built Tougher"

WireOnAir A/S

BOOTH: 211

Brogrdsvej 70, 2820 Gentofte, Copenhagen Denmark

http://www.wireonair.com

WireOnAir A/S is a Danish company, developing and producing high quality Wireless Audio, GPS and Camera Surveillance systems. We have complete control of the design, development and manufacture of our products. This enables us to be flexible in supplying innovative and unique products to the market place. Exclusively for Military, Law Enforcement and Intelligence Agencies, our products are successfully used in both short and long term surveillance operations.

Women In Defense, A National Security **Organization (WID)**

BOOTH: 1

2101 Wilson Blvd, Suite 700, Arlington, VA 22201 United States

Women In Defense (WID), an affiliate of the National Defense Industrial Association, supports women's full integration into all aspects of national security, including senior leadership positions. Established in 1985 as a 501(c)3, WID is a dynamic community focused on developing leadership skills, building strategic networks, providing professional education, and encouraging mentorship and advocacy. WID members include men and women working in defense companies, small, medium and large, all branches of the U.S. armed forces, government agencies, academia, associations and professional services. WID and its 21 chapters also convene national and regional events where members collaborate to tackle some of the nation's toughest defense challenges. WID provides programming and support to ensure the U.S. will always field a diverse, inclusive, high-performing workforce. Finally, through its HORIZONS scholarship program, WID provides resources to exceptional women who intend to use their advanced education to lead organizations within the U.S. national security enterprise.

World Wide Technology

BOOTH: 436

1 World Wide Way, St. Louis, MO 63103

http://www.wwt.com

World Wide Technology, Inc. (WWT) is a leading systems integrator providing technology products, services and supply chain solutions to commercial, public sector and service provider markets around the globe. WWT understands today's advanced technologies, including Unified Communications, Security, Data Center, Wireless Mobility and eCommerce.

XTEK LTD

BOOTH: 2226

3 Faulding Street, Symonston, ACT, Canberra 2609 Australia

XTEK is a leading Australian integrated solutions and Defence provider who has developed multiple innovative products. XTEK will showcase at SOFIC: -The XT-CLAVE system for the manufacture of highly advanced composites and body armour, -The XTEK TAC2, the worlds most advanced sniper rifle; -XT-ATLAS, revolutionary real time mapping technology; and -SARBI, a chemical, radiological and air sensor package and software developed with ReconRobotics Throwbot 2.

Zanfel Laboratories, Inc.

BOOTH: 1520

10052 Jutin Drive, Suite L, Urbandale, IA 50322

http://www.zanfel.com

Item: Skin Wash Poison Ivy Treatment 1 oz. Tube & 0.125 oz. Packet Contract #: 36F79718D0415

ZeroBase Energy

BOOTH: P512

46609 Fremont Blvd., Fremont, CA 94538

http://www.zerobaseenergy.com

ZeroBase Energy is a leading innovator in hybrid power systems specializing in remote and off-grid systems that deliver clean and reliable power to some of the most rugged locations on the planet. ZeroBase's hybrid power systems are designed to use multiple energy resources, such as generators or solar panels, to produce clean, reliable power. Coupling these hybrid power systems with generators results in reduced generator run times lowering fuel use while allowing for quiet operation periods.

ZetrOZ, Systems / MedLog Solutions

BOOTH: 1236

56 Quarry Road, Trumbull, CT 06611

sam® is the world's first and only FDA cleared & clinically proven wearable Low Intensity Ultrasound for multi-hour treatment used remotely to accelerate soft tissue & bone healing by up to 50% & reduce or eliminate pain without the use of drugs. It is wearable and used outside of the clinical setting. sam® technology is virtually NEW in HOW it is used to treat the patient remotely! Come see us at booth 1236 for a full demonstration.

ZMicro BOOTH: 1736

9820 Summers Ridge Road, San Diego, CA 92121

http://www.zmicro.com

ZMicro is a leading manufacturer of rugged deployable computing and visual solutions. Since 1986 we have been delivering reliable, high-performance MIL-Spec solutions that are custom tailored to perform at their highest capacity in harsh environments. Our ruggedized products include displays, computers, servers, handhelds, data storage, video enhancement, video management resources, and much more.

Zodiac Aerospace

BOOTH: 647

225 Erie Street, Lancaster, NY 14086

http://www.safran-aerosystems.com

Safran Aerosystems Oxygen division designs and manufactures oxygen systems, masks and other equipment for the civil and military aviation sectors, ensuring the safety of flight crews and passengers in the event of cabin depressurization or the presence of smoke. Thanks to its capacities in terms of innovation, design, simulation and testing, Safran Aerosystems can supply its customers with advanced safety systems, guaranteeing unrivaled performances and helping to optimise operating costs.

Zodiac of North America, Inc.

BOOTH: 346. B23

540 Thompson Creek Road, Stevensville, MD 21666

http://www.zodiacmilpro.com

Zodiac is the recognized world-leading producer of inflatable boats and rigid hull inflatable boats (RIBS). With a 125-year heritage, and as the inventor of the inflatable boat, Zodiac remains dedicated to product innovation with an emphasis on safety and performance.
