On behalf of the Commander, USSOCOM, I welcome you to the 2018 Special Operations Forces Industry Conference (SOFIC) and Exhibition. As the USSOCOM Acquisition Executive, I am proud to co-sponsor this annual event with the National Defense Industrial Association (NDIA) in our great

host-city of Tampa. For the 2nd year, the conference theme "Win – Transform – People" emphasizes the USSOCOM Commander's vision to win the current fight, transform current capabilities and equipment for future threats, and focus on our greatest asset: our people and their families. This year, we are joined by international military members from many of our partner nations who share in our common pursuit to deliver the most cutting-edge technologies and capabilities into the hands of our SOF operators.

The 4-day conference is packed with opportunities for you to network and engage with USSOCOM acquisition, technology, and logistics professionals. Be sure not to miss the new capability gaps discussions in the Marketplace, led by acquisition professionals from each Program Executive Office and Directorate. The objective of these focused engagements is to shape and leverage the industrial and intellectual network to capitalize on collaboration opportunities, accelerate our technical competitive edge, and eliminate gaps, threats, and risks across the SOF capability life-cycle.

In addition to our traditional panels with USSOCOM's Commander, Acquisition Executive, Component Commanders, and Program Executive Officers and Directors, you will also have the opportunity to engage directly with Theater Special Operations Commanders to discuss challenges and initiatives as they relate to acquisition, requirements, operations, technology, and sustainment. This year's conference will also include an International SOF Capabilities Demonstration in the outdoor bay area where U.S. and International SOF operators will conduct a joint demonstration that displays our partnership and interoperable tactical capabilities. Lastly, due to the overwhelming success of last year's Operation SOFtalk networking event, we are once again hosting a special networking event that will allow attendees to engage in an informal environment. I also want to encourage all attendees to join us the last day of the conference in recognizing our outstanding team of SOF Acquirers as we announce our annual individual and team acquisition award winners.

I look forward to another successful conference this year and, on behalf of USSOCOM, I thank each of you for your participation in this event and your resolute commitment to supporting our Special Operations Forces.

amen James H. Smith Acquisition Executive U.S. Special Operations Command

Welcome to the 2018 Special Operations Forces Industry Conference (SOFIC) and Exhibition. If this is your first visit to SOFIC, you will find the opportunities for gaining business intelligence and networking virtually endless. If you are a return visitor, you will find new features designed to

provide broader and more detailed insight for doing business with U.S. Special Operations Command (SOCOM). In either case, plan for 4 days of unparalleled engagement with the most senior leadership in government and industry.

This year's theme of "Win – Transform – People" reflects the vision and commitment of the Commander of USSOCOM to win the current fight, transform current capabilities and equipment for future threats, and focus on our greatest asset: our people and their families. Keynote remarks by General Raymond A. Thomas III, USA, Commander USSOCOM, Mr. James H. Smith, Acquisition Executive, and the Honorable Ellen Lord, USD (A&S) will impress and inspire. While panel sessions will feature insight from the Component Commanders, Theater SOC Commanders and updates from the acquisition community. The always exciting and impressive International SOF Capabilities Demonstration

will be a not to miss highlight for the week. An expansive exhibit hall filled with cutting edge systems and technologies will further accentuate this year's theme and emphasize the necessity for innovation. Be sure to visit the outdoor and marine displays. This year's agenda includes the return of the popular Tactical Assault Light Operator Suit (TALOS) one-on-one sessions and the Innovation Showcase, where entrepreneurial companies present innovative new concepts and technology in short, exciting talks. The USSOCOM Marketplace, working with SOFWERX, will represent and facilitate PEO Capability Gaps between PEO and Industry, featuring a wide variety of USSOCOM experts prepared to answer your questions in an informal environment.

I am confident you will find this a relevant and leadingedge forum where government and industry come together to strengthen our Nation's security. Thank you for joining NDIA and USSOCOM at 2018 SOFIC.

General Raymond A. Thomas III, USA Commander, USSOCOM

General Raymond A. Thomas III is the 11th Commander of U.S. Special Operations Command (USSOCOM) headquartered at MacDill Air Force Base, FL.

General Thomas previously served as Commander, Joint Special Operations Command (JSOC) Fort Bragg, NC; Associate Director for Military Affairs at the Central Intelligence Agency; Commanding General, NATO Special Operations Component Command – Afghanistan; Deputy Commanding General, JSOC; Deputy Director for Special Operations, The Joint Staff in the Pentagon; Assistant Division Commander, 1st Armor Division in Iraq; and Assistant Commanding General, JSOC.

His other notable assignments include: JSOC Chief of Staff and Director of Operations, Commander, Joint Task Force – Bravo, Soto Cano, Honduras; Commander, 1st Battalion, 75th Ranger Regiment, Savannah, GA.; and Commander, B Squadron, 1st Special Forces Operational Detachment – Delta, Fort Bragg, NC.

He is a graduate of the U.S. Army War College, Carlisle, PA., and the Naval Command and Staff College, Newport, RI.

General Thomas is a native of Philadelphia, PA. He attended the United States Military Academy at West Point, NY, and was commissioned as an infantry second lieutenant upon graduation in 1980.

General Thomas and his wife Barbara have two sons, both of whom are United States Military Academy graduates.

#### Mr. James H. Smith Acquisition Executive, USSOCOM

Mr. James H. Smith is currently the Acquisition Executive and Senior Procurement Executive for U.S. Special Operations Command (USSOCOM), MacDill AFB, Florida, with responsibility for all Special Operations Forces (SOF) research, development, acquisition, procurement, and logistics programs as well as management of the SOF Acquisition, Technology, and Logistics (SOF AT&L) Workforce Enterprise.

Mr. Smith, a native of Lyndhurst, New Jersey, graduated from the U.S. Military Academy in 1986 and was commissioned as a Second Lieutenant of Infantry. He served initially with the 3d Infantry Division in Kitzingen, Germany, as Bradley Platoon Leader, Heavy Mortar Platoon Leader, and Company Executive Officer. He then served as the 2d Brigade's Assistant Operations Officer and Rifle Company Commander in 5th Battalion, 21st Infantry Regiment of the 7th Infantry Division (Light). Following receipt of a Master of Science in 1995, he served as Associate Professor in the Department of Civil and Mechanical Engineering and as Battalion Executive Officer of 1st Battalion, 1st Infantry Regiment at the U.S. Military Academy.

His acquisition assignments include Chief, Firepower Division, Combat Developments Directorate, U.S. Army Infantry Center; Assistant Product Manager, Soldier Power; Deputy Technology Product Manager, Objective Force Warrior; Chief, Interoperability, HQ Department of the Army G8; Product Manager, Soldier Sensors and Lasers, Program Executive Office Soldier; and Program Executive Officer, Special Operations Forces Warrior Systems, followed by Military Deputy to the USSOCOM Acquisition Executive. Mr. Smith retired from active military duty on 31 October 2013 after 27 years of service. Immediately upon his military retirement, he was appointed to the Senior Executive Service and selected to serve as the Deputy Director for Acquisition, SOF AT&L, HQ USSOCOM, the position he held just prior to his current role as Acquisition Executive.

In 1986, Mr. Smith earned a Bachelor of Science degree in Civil Engineering from the U.S. Military Academy. He subsequently earned a Master of Science degree in Mechanical Engineering from Stanford University in 1995 and a Master of Science degree in Strategic Studies from the U.S. Army War College in 2009.

The World's Sixth Sense\*

Ellen M. Lord Under Secretary of Defense, Acquisition and Sustainment

The Honorable Ellen M. Lord currently serves as the Under Secretary of Defense for Acquisition and Sustainment (A&S). In this capacity, she is responsible to the Secretary of Defense for all matters pertaining to acquisition; contract administration; logistics and materiel readiness; installations and environment; operational energy; chemical, biological, and nuclear weapons; the acquisition workforce; and the defense industrial base.

Senate confirmed in August 2017, Ms. Lord served as the last Under Secretary of Defense for Acquisition, Technology and Logistics from August 2017 - January 2018.

Prior to joining the Department of Defense, Ms. Lord served as the President and Chief Executive Officer of Textron Systems Corporation, a subsidiary of Textron Inc. from October 2012 – June 2017. In this role, she led a multibillion dollar business with a broad range of products and

services supporting defense, homeland security, aerospace, infrastructure protection, and customers around the world.

Ms. Lord has more than 30 years of experience in the defense industry, serving in a variety of capacities, to include Senior Vice President and General Manager of Textron Defense Systems, now Weapon & Sensor Systems; and Senior Vice President and General Manager of AAI Corporation, now known as Textron Systems' Electronic Systems, Support Solutions, and Unmanned Systems businesses. Earlier in her career, Ms. Lord served as Vice President of Integration Management for Textron Systems and Vice President of Intelligent Battlefield Systems for Textron Defense Systems, in addition to other business and operations positions.

Ms. Lord is a former Vice Chairman of the National Defense Industrial Association, as well as a former Director of the U.S. - India Business Council. She has served on the industry steering committee for the Center for New American Security's (CNAS) task force on "Strategy, Technology and the Global Defense Industry," as well as CNAS's DoD-Industry collaborative project "Future Foundry: Forging New Industries for Defense," which was formed to examine key technological trends and challenges facing the global defense industry. Ms. Lord has also served on the Board of Trustees of the U.S. Naval Institute Foundation.

Ms. Lord earned a Master of Science degree in chemistry from the University of New Hampshire, as well as a Bachelor of Arts degree in chemistry from Connecticut College.

#### U.S. Army Special Operations Command

The U.S. Army Special Operations Command (USASOC) at Fort Bragg, North Carolina, provides

Special Forces (Green Berets), Rangers, Special Operations Aviators, Civil Affairs Soldiers, Military Information Support Operators, Training Cadre, and Sustainment Soldiers to USSOCOM for deployment to geographic combatant commands around the world. USASOC commands active Army SOF and provides oversight of Army National Guard SOF readiness, organization, training, and employment in coordination with the National Guard Bureau and State Adjutants General.

#### Naval Special Warfare Command

The Naval Special Warfare Command (NAVSPECWARCOM) at Coronado, California,

consists of Sea, Air, Land (SEALs), Special Warfare Combatantcraft Crewmen (SWCC), and Enablers to man, train, equip, educate, deploy, resource, and sustain forces to conduct direct action and special reconnaissance, support advise-and-assist programs, and build partner capability, in or out of the maritime environment, by employing tailored capabilities in support of military commanders, Chiefs of Mission, interagency, and foreign partners and allies.

#### Air Force Special Operations Command

The Air Force Special Operations Command (AFSOC) at Hurlburt Field, Florida, organizes, trains, and

equips Airmen to execute global special operations. AFSOC is home to America's Air Commandos: Special Tactics, Special Operations Aviators, and Support Air Commandos.

#### Marine Corps Forces Special Operations Command

The Marine Corps Forces Special Operations Command (MARSOC) at Camp Lejeune, North

Carolina, is composed of Critical Skills Operators, Special Operations Officers, Special Operations Capabilities Specialists, and Special Operations Combat Services Specialists. MARSOC equips and trains Marines to succeed in austere conditions against a wide range of adversaries.

#### Joint Special Operations Command

The Joint Special Operations Command (JSOC) at Fort Bragg, North Carolina, is a sub-unified command of

USSOCOM. JSOC is charged to study special operations requirements and techniques, ensure interoperability and equipment standardization, plan and conduct special operations exercises and training, and develop joint special operations tactics. Each Geographic Combatant Command has a Special Operations Component Commander just like it has a ground, air, and naval Component Commander. The USSOCOM Theater Special Operations Commands provide the Geographic Combatant Commanders with a separate element to plan and control joint Special Operations Forces in their theaters.

#### Special Operations Command Europe (SOCEUR)

Headquartered at Patch Barracks in Stuttgart, Germany, and supports U.S. European Command.

#### Special Operations Command Pacific (SOCPAC)

Headquartered at Camp H. M. Smith in Oahu, Hawaii, and supports U.S. Pacific Command.

#### Special Operations Command Central (SOCCENT)

Headquartered at MacDill Air Force Base in Tampa, Florida, and supports U.S. Central Command.

#### Special Operations Command Korea (SOCKOR)

Headquartered at Camp Kim in Yongsan, Korea, and supports U.S. Forces Korea.

#### Special Operations Command South (SOCSOUTH)

Headquartered at Homestead Air Reserve Base in Homestead, Florida, and supports U.S. Southern Command.

#### Special Operations Command Africa (SOCAFRICA)

Headquartered at Kelley Barracks in Mohringen, Germany, and supports U.S. Africa Command.

#### Special Operations Command North (SOCNORTH)

Headquartered at Peterson Air Force Base in Colorado Springs, Colorado, and supports U.S. Northern Command.

#### TACTICAL ASSAULT LIGHT OPERATOR SUIT (TALOS) INDUSTRY ENGAGEMENT SESSIONS

Advanced Registration Required Tampa Convention Center Rooms 11-13 Tuesday, May 22 9:00 A

Wednesday, May 23

Thursday, May 24

9:00 AM - 12:00 PM 2:30 - 4:30 PM 8:30 - 9:30 AM 10:15 - 11:15 AM Overview Brief to Industry 2:30 - 3:30 PM 3:30 - 4:30 PM Overview Brief to Industry 9:00 - 11:45 AM

These breakout meetings will allow interested SOFIC attendees to engage privately with the TALOS subject matter experts and learn more about collaborating with this unique SOF AT&L initiative. These meetings are intended to be targeted in nature towards the TALOS functional area or areas of interest to include visual augmentation, C4I, exoskeleton, base layer and human factors, power solutions, computing, armor or general engineering.

#### **USSOCOM MARKETPLACE**

Tampa Convention Cer	nter
Ballroom D	
Monday, May 21	2:00 - 4:30 PM
Tuesday, May 22	9:30 AM - 12:30 PM
	3:30 - 4:30 PM
Wednesday, May 23	9:45 - 11:15 AM
	2:30 - 4:30 PM

The Marketplace is a resource room of USSOCOM experts who will be available to answer attendee questions as they relate to doing business with the command. The Marketplace is especially useful for first-time SOFIC attendees or those who are new to doing business with USSOCOM. Representatives from C4, FW, J4, Maritime, RW, SOF Warrior, SRSE, and S&T will showcase their Capability Gaps in the SOFWERX event area. Interested industry will have the opportunity to review and discuss potential solutions and opportunities with each PEO representative, facilitated by SOFWERX representatives. Willing industry will have the opportunity to sign-up, commit, and identify IRAD funds to address closing PEO capability gaps via a CRADA, or other means with SOCOM, SOF AT&L or SOFWERX, i.e. Industry Fellow, Collaboration Event, Prize Challenge, etc.

#### **NETWORKING OPPORTUNITIES**

#### **TUESDAY NETWORKING RECEPTION**

Sponsored by Lockheed Martin Tampa Convention Center Exhibit Hall Tuesday, May 22 4:30 – 6:00 PM

Join us in the Exhibit Hall for the Opening Networking Reception. This is dedicated time to visit your favorite exhibitors and mingle with new and old colleagues.

#### **OPERATION SOFTALK**

*Title sponsor CACI* Ritz Ybor Wednesday, May 23 6:00 – 9:00 PM SOLD OUT

Due to the overwhelming success last year, NDIA will once again be hosting a networking reception Wednesday evening from 6:00 – 9:00 PM at the historic Ritz Ybor. This event is a great opportunity for attendees to engage with USSOCOM in an informal environment. This includes access to some of USSOCOM's senior leaders and acquisition, technology, and logistics experts to further discussions outside the conference. The evening will also include a not-to-miss live performance by Highway to Hell to make for a one-of-a-kind event. Heavy hors d'oeuvres, and beer and wine will be included in the purchase of your ticket. Casual attire is encouraged!

Transportation -- We encourage you to take the street cars to the event. Three street cars will be available at 5:45 PM outside the convention center to transport guests to the Streetcar Society Station which is located just one block from the Ritz Ybor. Parking is available and Uber is plentiful.

#### SPECIAL EVENTS

#### INTERNATIONAL SPECIAL OPERATIONS FORCES (ISOF) WEEK CAPABILITIES DEMONSTRATION

Tampa Convention Center Marina Wednesday, May 23 1:30 – 2:00 PM

The 2018 Capabilities Demonstration (CAPE DEMO) will be on 23 May from 1:30 - 2:00 PM. This is the ten-phase, combined US and Partner Nation (PN) SOF Direct Action mission. This demonstration will showcase US and PN SOF interoperability and will integrate US and PN SOF operators from eight PNs. The scenario is a hostage rescue mission in the Channelside area of downtown Tampa and will feature SOF rotary and fixed-wing aircraft, vehicles, and boats

# EJECT THE PAST CHAMBER THE FUTURE

PRECISION MANUFACTURING OF LIGHTWEIGHT POLYMER AMMUNITION

#### tvammo.com

CALIBERS SHOWN 5.56mm | 7.62 NATO | .338 NORMA MAG | .50 CALIBER | 12.7x108mm from the US Special Operations Forces. The different phases include fast-rope operations, combat dives, H-60 HELOCAST, ground and maritime assault forces, and an MC-130 Military Free Fall water jump. A key element is the assault and repatriation of a large yacht in front of the Tampa Convention Center.

Don't miss this exciting 30-minute demonstration with Joint U.S. and Partner national Special Operations Forces who will display their partnership and interoperable tactical capabilities. **See page 46 for the demonstration map** 

#### **5TH ANNUAL INDUSTRY GIVES BACK** RAFFLE

#### Sponsored by ITility

All proceeds for the raffle will benefit the Special Operations Warrior Foundation. The drawing will be held on Thursday, May 24. Winners will be announced via social media and on www.SOFIC.org. Winners will not need to be present to win. Raffle tickets are \$20/ticket and can be purchased through the SOFIC registration website, ITility booth #944, or the Special Operations Warrior Foundation booth #40 on the mezzanine level. For a full list of prizes, visit http://www.sofic. org/attend/operation-softalk.

#### **OUTDOOR AND BOAT DOCK DISPLAYS**

Be sure to stop by the North Boat Docks (follow the banners outside!) and visit our watercraft displayers. You can find these companies in the Exhibitor List by searching for those booth numbers that start with a "B."

New this year is an outdoor display lot, just outside the Franklin Street entrance to the convention center. Stop at Mission BBQ for a complimentary sample before walking just 500 feet to the display lot. You can find these companies in the Exhibitor List by searching for those booth numbers that start with a "SD."

#### True Canine Capabilities Demonstration on Tuesday, May 22nd 12 -1 PM at the Outdoor Display

Join us across from the Tampa Convention Center to see a live demonstration with an internationally renowned canine trainer and breeder, Leos Drhohlav. He has individually titled fifteen canines of which seven were titled at the most demanding level. See them in action!

#### **Outdoor Display Address:**

401 S Florida Ave Suite 210 Tampa FL, 33602

#### MEETING ROOMS AT THE TAMPA MARRIOTT WATERSIDE

A number of companies will be hosting meetings throughout the week. Please look for signage in the Marriott lobby for specific meeting room locations.

Tuesday 8:00 AM - 5:00 PM	Oracle	Room 5
Tuesday 8:00 AM - 5:00 PM	ARC'TERYX Equipment	Room 6
Tuesday 1:00 - 5:00 PM	Orbit	Room 10

#### **SUNDAY, MAY 20**

8:00 AM - 5:00 PM Registration Open SPONSORED BY GENERAL DYNAMICS Mezzanine

#### MONDAY, MAY 21

8:00 AM - 5:00 PM Registration Open SPONSORED BY GENERAL DYNAMICS Mezzanine

#### Intro to USSOCOM 101 1:00 - 2:00 PM

Ballrooms A-C

USSOCOM subject matter experts from SOF AT&L will present an overview of the command and acquisition center and its current programs. This event is structured to provide insight into initiatives and processes for those who have not recently done business with USSOCOM.

#### 2:00 - 3:00 PM CRADA "Crash Course" Rooms 18-19

SOF AT&L will present the basic construct of a Cooperative Research and Development Agreement (CRADA) and the process for entering into a CRADA with USSOCOM. An interactive discussion will follow the presentation. It will include the value of entering into the agreement and the criteria SOF AT&L uses in determining if it is the right tool for the Industry-proposed work and what Industry can do to improve the CRADA tool and process.

#### 2:00 - 3:00 PM **RFP Sections L&M Exchange**

Rooms 20-21

SOF AT&L Contracting Officers and Program Managers will conduct roundtable exchanges with attendees on Sections L and M of USSOCOM Request For Proposals, highlighting keys to submitting successful proposals. Emphasis will be given to Industry's proposal response to Compensation for Professional Employees (Reference FAR 52.222-46).

#### 2:00 - 4:30 PM USSOCOM Marketplace

#### Ballroom D

The U.S. Special Operations Command (USSOCOM) Marketplace is a resource room of USSOCOM experts who will be available to answer attendee questions as they relate to doing business with the command. The marketplace is especially useful for first-time SOFIC attendees or those who are new to doing business with USSOCOM. This informal exchange will include experts from the Technology & Industry Liaison Office, Office of Small Business Programs, Small Business Innovation Research, Project Vulcan and Discovery, Technical Experimentation, Cooperative Research and Development Agreements, Defense Contract Audit Agency (DCAA), S&T Business Process/Futures Foundry, and SOFWERX. This year, C4, Fixed Wing, Maritime, Rotary Wing, SOF Warrior, Special Reconnaissance, Surveillance and Exploitation, J4 Logistics, and Science & Technology will showcase their Capability Gaps in the SOFWERX area.

#### 3:00 - 3:30 PM **Networking Break**

Ballroom Foyer

#### 3:30 – 4:30 PM Communications with Industry

Rooms 20-21

SOF AT&L Contracting Officers and Program Managers will conduct roundtable exchanges with attendees on the different communication medium (e.g., FedBizOpps, Industry Days, etc.) used to forecast or discuss new requirements with industry and the limitations on communications during the formal source selection process. The intent of these exchanges is to provide industry with insight on the left and right limits of Government communication during the acquisition process and to gain insight from industry on areas where SOF AT&L can improve in its communications with industry. Specific emphasis will be given to the communications during the Market Research and Pre-Solicitation Phase, i.e. responding to Government Requests for Information (RFI's), sources sought, etc.

#### 3:30 – 4:30 PM Facility Clearances Rooms 18–19

This session will explain the process, timeliness, and requirements for individual businesses as well as Joint Ventures to navigate the waters to get to a Facility Clearance.

4:00 – 9:00 PM Satellite Registration Marriott Tampa Waterside

#### **TUESDAY, MAY 22**

7:00 AM - 6:30 PM	Registration Open SPONSORED BY GENERAL DYNAMICS Mezzanine
7:00 - 8:00 AM	<b>Continental Breakfast</b> Ballroom Foyer
8:00 - 8:15 AM	Welcome Remarks Ballrooms A-C
	• MG James Boozer, USA (Ret), Chief of Staff, National Defense Industrial Association
8:15 - 9:15 AM	Acquisition Agility/SOFWERX Ballrooms A-C
	Acquisition Agility will present a joint presentation from USSOCOM and Doolittle Institute leadership mission, methods, path forward, and engagement opportunities with USSOCOM through the SOFWEI

Acquisition Agility will present a joint presentation from USSOCOM and Doolittle Institute leadership on the mission, methods, path forward, and engagement opportunities with USSOCOM through the SOFWERX collaboration and innovation platform. The presentation will highlight recent rapid prototyping, collaboration, and proof of concept events conducted at USOCOM and SOFWERX that underpin the goal to generate acquisition efficiency, speed, and flexibility.

#### 9:00 AM - 12:00 PM Tactical Assault Light Operator Suit (TALOS) Breakout Sessions Industry Engagement Rooms 11-13

#### Advanced Registration Required

These breakout meetings will allow interested SOFIC attendees to engage privately with the TALOS subject matter experts and learn more about collaborating with this unique SOF AT&L initiative. These meetings are intended to be targeted in nature towards the TALOS functional area or areas of interest to include visual augmentation, C4I, exoskeleton, base layer & human factors, power solutions, computing, armor or general engineering.

### 35,000+ Alaska Shelter Systems and 17,000+ Alaska ECUs<sup>™</sup> Deployed!

Battalion Tactical Operations Center (BTOC)

Alaska Structures® designs and engineers the most scalable, redeployable, and energy-efficient military shelter systems.

The unmatched durability, proven performance, and ability to support any expeditionary to mid- and long-term deployment strategies is why Alaska Structures is the leading provider of military shelter systems to U.S. Special Operations Forces and foreign militaries.

Deployed in more than 65 countries, military shelter systems from Alaska Structures deliver rapid forward and sustaining capabilities in extreme hot and cold environments.

### Thursday, May 24

### INTERNATIONAL SPECIAL OPERATIONS FORCES (ISOF) WEEK CAPABILITIES DEMONSTRATION

### Tampa Convention Center Marina Wednesday, May 23 • 1:30 - 2:00 PM

**PHASE 1:** 4-man SEAL team INFIL by zodiac & Combat Dive to emplace demolition charge, board vessel, and occupy assault position

**PHASE 2:** 4-man teams INFIL via MH-6 to sniper and support by fire positions on TGH and TCC

**PHASE 3:** 5-man team on MH-60 HELOCAST with CRRC to secure enemy position

PHASE 4: 2-man SEAL team engages enemy sentries

**PHASE 5:** MH-6 returns to provide armed recon to assault teams

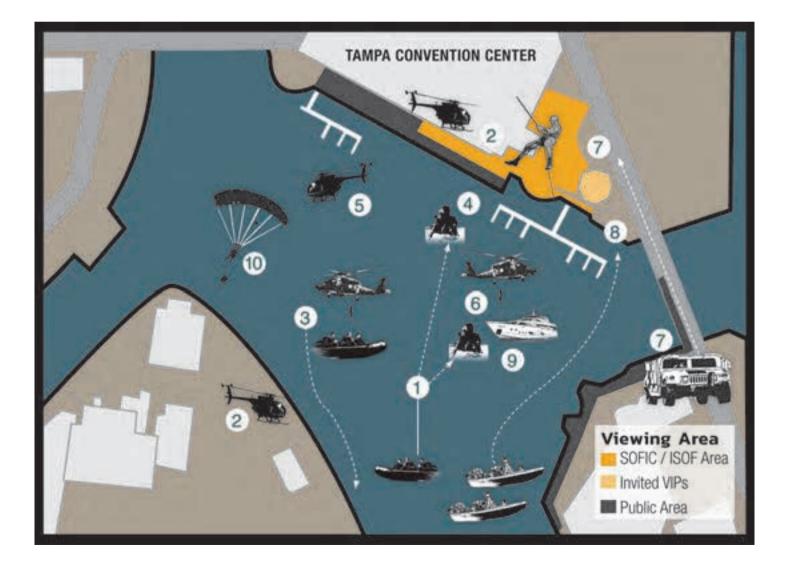

**PHASE 6:** 8-man team conducts a MH-60 FRIES assault and 2-man SEAL element boards enemy controlled vessel to rescue hostages

**PHASE 7:** 12-man team moves by GMVs and ATVs to assault enemy CP

**PHASE 8:** 8a: 10-man team conducts a boat assault to secure enemy village and rescue hostage | 8b: SOC-R boats engage OPFOR vessel

**PHASE 9:** EXFIL all units from OBJ area | 9a: TCC Sniper Rappel | 9b: TGH Sniper Pick-up | 9c: Boat/GMV EXFIL | 9d: SPIES EXFIL | 9e: EXFIL HELOCAST | 9f: Repatriate Vessel

PHASE 10: 7-man team conducts MFF water jump

## L3 TECHNOLOGIES. PARTNERS IN FREEDOM.

# WE SALUTE OUR ARMY, NAVY, AIR FORCE AND MARINE CORPS SPECIAL OPERATIONS FORCES.

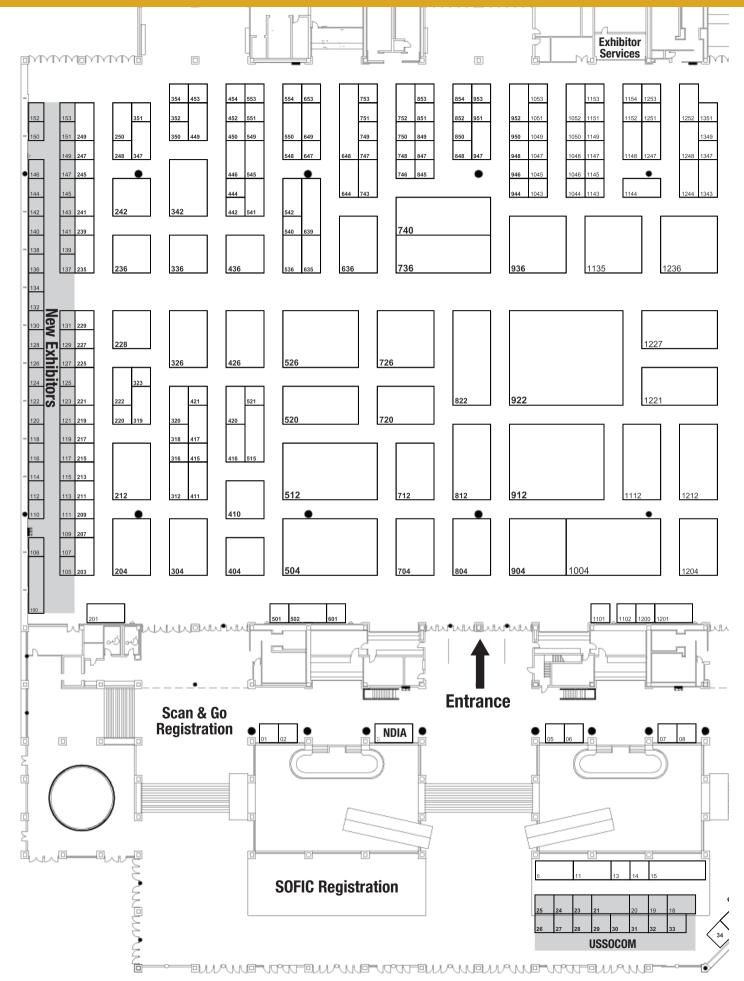

L3 Technologies' extensive portfolio supports the men and women of SOF with assured communications to operator systems that enhance identification, targeting and tracking. When you need performance and reliability, we have your back, delivering big data analytics vital to critical mission planning, as well as expeditionary ISR systems and sensors that support crucial operations.

L3 is proud to work with our global SOF operators. We are your Partners in Freedom.

50 2018 SPECIAL OPERATIONS FORCES INDUSTRY CONFERENCE | SOFIC.ORG

### **USSOCOM Marketplace & Innovation Showcase**

### SOFIC Outdoor Displays

#### Program Executive Office for Command, Control, Communications, and Computers

Mrs. Deborah J. Woods leads the Program Executive Office for Command, Control, Communications, and Computers (PEO-C4). The office manages the development, acquisition, and sustainment of C4 systems that collectively form the SOF Information Environment. To provide this critical capability, the PEO focuses on the integration of state-of-the-art technologies

and products, while working very closely with the Chief Information Officer's staff and all the Component Commands and Theater Special Operations Commands. PEO-C4 portfolio consists of programs in the capability areas of enterprise and tactical networks, Military Information Support Operations and Civil Affair Systems, data transport, tactical communications, and mission planning software.

### **Program Executive Office for Fixed Wing**

U.S. Air Force Colonel Melissa A. Johnson leads the Program Executive Office for Fixed Wing (PEO-FW). PEO-FW's mission is to deliver special operations-peculiar manned and unmanned fixed wing airpower capabilities to effectively enable SOF. To meet this mission, the PEO partners with the Warfighter and various development and support organizations to synchronize acquisition activities to field an array of

advanced technology sensors, defensive countermeasures, precision strike capabilities, advanced avionics, and mission training systems.

### **Program Executive Office for Maritime**

U.S. Navy Captain Katherine M. Dolloff leads the Program Executive Office for Maritime (PEO-M). PEO-M'S mission is to deliver the most effective and advanced maritime mobility solutions to SOF. To accomplish this critical mission, PEO-M partners with Naval Special Warfare Command building unmatched affordable surface and undersea platforms that deliver SOF safely and undetected to any global operation

with SOF focus. The surface fleet consists of the SEALION, Combatant Craft Medium, Combatant Craft Assault, Special Operations Craft - Riverine, and Combatant Craft Forward Looking Infrared 2. The undersea fleet consists of the Dry Deck Shelter, Dry Combat Submersible, Shallow Water Combat Submersible, Seal Delivery Vehicle, SOF Combat Diving, and small Unmanned Underwater Vehicles.

### Program Executive Office for Rotary Wing

U.S. Army Colonel David C. Phillips leads the Program Executive Office for Rotary Wing (PEO-RW). The PEO is responsible for providing rapid and focused acquisition, research and development, and life-cycle logistics support to the operators of the US Army Special Operations Aviation Command and the 160th Special Operations Aviation Regiment, which provides SOF rotary-wing capability to the joint force.

PEO-RW provides the most advanced rotary wing aircraft, mission

equipment, and training systems available to the U.S. military by continuing to focus on

technologies that ensure operators have a comparative advantage against all potential threats. PEO-RW accomplishes this critical mission with a three-part strategy focused on readiness, recapitalization, and investments in lethality and survivability. The rotary wing fleet consists of the MH-47G Chinook, MH-60M Black Hawk, and the A/MH-6M Little Bird.

### **Program Executive Office for Services**

Mr. Theodore W. Koufas leads the Program Executive Office for Services (PEO-SV). PEO-SV is responsible for planning, policy, and execution oversight and management of US-SOCOM service acquisitions awarded in accordance with the contracting authority of USSOCOM's Acquisition Executive. PEO-SV's customers are in the USSOCOM headquarters,

including SOF AT&L, as well as the Component Commands and Theater Special Operations Commands.

#### Program Executive Office for Special Operations Forces Warrior

U.S. Army Colonel John T. Reim leads the Program Executive Office for Special Operations Forces Warrior (PEO-SW). This diverse organization provides rapid and focused acquisition of special operations-peculiar capabilities to Warfighters conducting decisive ground activities and global operations against terrorist networks. PEO-SW is a critical enabler in providing effec-

tive, wide-ranging, time-sensitive capabilities to widely-dispersed and often isolated SOF elements. PEO-SW manages a portfolio that includes programs and projects in the commodity areas of Special Operations Vehicles, Ammunition, Visual Augmentation, and Weapon Systems, Counterproliferation, F3EA, Sensitive Activities, Special Operations Forces Survival, Support, and Equipment Systems, and Communications and Intelligence Support Systems.

#### Program Executive Office for Special Reconnaissance, Surveillance, and Exploitation

Mr. David M. Breede is the Program Executive Officer for the Program Executive Office for Special Reconnaissance, Surveillance, and Exploitation (PEO-SRSE). The office is responsible for the development, fielding, and sustainment of state of the art technical collection and exploitation capabilities for advanced surveillance, reconnaissance, and intelligence systems for the SOF Warfighter. PEO-SRSE's capability

portfolio includes Tagging, Tracking, and Locating Systems; Blue Force Tracking; Sensor Systems; Biometrics and Forensics Systems; Joint Threat Warning System; Distributed Common Ground/Surface System-SOF; Integrated Survey Program; SOF Planning, Rehearsal, and Execution Preparation; and Focused Research, Development, Test, and Evaluation.

### Program Executive Office for Special Operations Forces Support Activity

U.S. Army Colonel Jack E. Dills leads the Program Executive Office for Special Operations Forces Support Activity (PEO-SOFSA). PEO SOFSA's mission is to provide the SOF community dedicated, rapid, sophisticated, broad and cost-effective streamlined design and rapid prototyping; production, modification, and integration; and lifecycle sustainment in support

of worldwide Special Operations Forces Component Commands and TSOCs.

### Directorate of Science and Technology

Ms. Lisa R. Sanders is the Director of Science and Technology (S&T). She is responsible for all science and technology (S&T) funded activities. The S&T Directorate focuses on integrating S&T efforts across the SOF enterprise. This includes ensuring that capability gaps are aligned with technology enablers and developers, ongoing efforts are integrated with transition

partners, additional innovation that is required to address S&T gaps is identified, and disruptive technology solutions are assessed for their impact and potential benefit to the SOF mission set and SOF operator of the future.

#### Directorate of Joint Acquisition Task Force Tactical Assault Light Operator Suit

U.S. Army Colonel James D. Miller leads as the Directorate for Joint Acquisition Task Force Tactical Assault Light Operator Suit (JATF-TALOS) with the Special Operations Forces Acquisition, Technology and Logistics (SOF AT&L). JATF-TALOS mission is to develop a peerless war fighting system for the future SOF Operator with enhanced protection, super-human performance,

surgical lethality and exponential situational awareness. To meet this mission SOF AT&L will design and develop a next generation, technologically advanced combat operator suit to provide unmatched and unprecedented advantage to our Special Operations Forces Operators as they execute the most complex and high risk mission sets.

### **Directorate of Logistics**

U.S. Army Colonel Donald Wols leads the Directorate of Logistics (J4). The Directorate's mission is to plan, coordinate, synchronize, and integrate operational and strategic logistics and sustainment strategy in coordination with and in support of Unified Commands, Services, Components, Theater Special Operations Commands, Joint Staff, and Other Government Agencies.

#### **Directorate of Procurement**

U.S. Air Force Colonel Christopher T. Daniels leads the Directorate of Procurement. Its mission is to rapidly deploy contracting expertise resulting in superior technologies, equipment, and services for SOF. The Directorate of Procurement fulfills its mission through 29 contracting offices located worldwide and awards command-wide, large-dollar contracts

for special operations equipment and services. The Directorate also manages contingency contracting operations in support of overseas contingency operations.

### Directorate of Acquisition Agility

Ms. Kelly Stratton-Feix, Director, Acquisition Agility, champions the SOFWERX innovation platform chartered to close the gap between operators facing SOF's toughest challenges, "non-traditional" sources of new, novel, and provocative solutions, SOF acquisition programs and requirements process. Through a partnership with Doolittle Institute/DefenseWERX, Ms.

Stratton-Feix and her team support an open-access, off-base facility with an 8,400+ network of agencies, academia, futurists, citizen scientists and industry experts. Activities ranging from technology outreach and collaboration, rapid prototyping, prize challenges, etc, ensure this unique asset rapidly connects operators with innovators to explore real-time and emerging SOF challenges to quickly iterate, prototype, assess, and evolve relevant solutions. Active engagement with AT&L PEOs and Directorates ensures these solutions are "fasttracked" and fielded at the earliest opportunities.

### Office of Small Business Programs (USSOCOM)

Mr. Christopher A. Harrington leads the Office of Small Business Programs (OSBP) for USSO-COM. The OSBP advocates on behalf of small business by striving to meet the goals mandated by Congress and the Office of the Secretary of Defense for equal opportunities to conduct business with the Command.

# **INVISIO** V10

Introducing the All-New Single-Com Control Unit

The INVISIO V10 is a lightweight, rugged, single-com Control Unit designed for soldiers with one radio. It features a large exchangeable PTT button, is 20 meters submersible and fully compatible with the INVISIO Soldier System. Simply swap existing INVISIO Control Units with the INVISIO V10 and use the exact same headset and radio cables.

Combined with the INVISIO X5 In-Ear headset the INVISIO V10 provides industry leading hearing protection, clear communication in noisy environments and state of the art situational awareness.

Come meet us at SOFIC aboard Team Galati Yacht on the Waterfront Boardwalk across the water from Tampa Convention Center.

### **USSOCOM MARKETPLACE**

The Marketplace is a resource room of USSOCOM experts who will be available to answer attendee questions as they relate to doing business with the command. The Marketplace is especially useful for first-time SOFIC attendees or those who are new to doing business with USSO-COM. This informal exchange will include experts in the following areas:

#### Booth 1–9: SOFWERX

SOFWERX was created under a Partnership Intermediary Agreement between Doolittle Institute and the United States Special Operations Command (USSOCOM). Located in Tampa, FL, SOFWERX has a very dynamic environment designed to create a high rate of return on collision for all participants. Through the use of a growing ecosystem, promotion Booth 1:MaritimeBooth 2:Rotary WingBooth 3:C4Booth 4:SOF WarriorBooth 5:Science & TechnologyBooth 6:Fixed WingBooth 7:Special Reconnaissance,Surveillance & ExploitationBooth 8:J4 LogisticsBooth 9:SOFWERX

of divergent thought, and neutral facilitation, their mission is to bring the right minds together to solve challenging problems. This year, C4, Fixed Wing, Maritime, Rotary Wing, SOF Warrior, Special Reconnaissance, Surveillance and Exploitation, J4 Logistics, and Science & Technology will showcase their Capability Gaps in the SOFWERX event area. Willing industry will have the opportunity to sign-up, commit and identify Industry Research and Development (IRAD) funds via a Cooperative Research and Development Agreement (CRADA), or other means with SOCOM, SOF AT&L or SOFWERX, i.e. Industry Fellow, Collaboration Event, Prize Challenge, etc.

### Booth 10: Defense Contract Audit Agency

(DCAA), Barbara Klein (Branch Manager) & Don Pasik (Auditor) As a key member of the government acquisition team, we are dedicated stewards of taxpayer dollars who deliver high quality contract audits and services to ensure that warfighters get what they need at fair and reasonable prices. The DCAA Small Business Program Manager provides information and training to small businesses explaining the accounting requirements for government contracts with the Department of Defense.

### **Booth 11:** The Office of Small Business Programs (OSBP), Chris Harrington, Paul Ward

OSBP is designated to advocate on behalf of small businesses and strives to meet the goals mandated by Congress and the Office of the Secretary of Defense, ensuring equal opportunities to conduct business with the command. The OSBP provides information and guidance on defense procurement policies and procedures as well as methods for identifying prime contracting and subcontracting opportunities.

#### **Booth 12:** Small Business Innovation Research (SBIR) Program, Anthony Aldrich

USSOCOM is an active participant in the congressionally mandated Federal Small Business Innovation Research (SBIR) Program. The objectives of the SBIR program are to stimulate technology innovation, use small business to meet federal research and development (R&D) needs, foster and encourage participation by minorities and disadvantaged groups, and increase private sector commercialization innovations derived from federal R&D. The USSOCOM SBIR program supports the Special Operations Forces by stimulating technology innovation in small businesses through contract awards aimed at discovering, developing, and rapidly inserting new capabilities to solve Special Operation Forces' needs.

### **Booth 13:** Technology and Industry Liaison Office (TILO), Shelvin Watts

TILO is your conduit to present marketing capabilities to the PEO's, Center Directors, and other interested parties within the Headquarters. It is the TILOs duty to match your company's product/service/capability to the appropriate personnel within the command and schedule discussions or demonstrations if there is sufficient interest.

#### Booth 13: Technical Experimentation, Dan Bernard

The USSOCOM Technical Experimentation (TE) program brings together Special Operations Forces (SOF) operational users, acquisition program managers and technology developers (industry, government research & development labs, and academia) in a collaborative environment to evaluate new technologies in the developmental stages. Under the sponsorship of USSOCOM's Science and Technology Directorate, these events are conducted throughout the year to rapidly assess the technical maturity and potential military utility of technologies based on the areas of need identified by the USSOCOM Components, Theater Special Operations Commands (TSOCs) and Program Executive Offices (PEOs). During the events, technology developers describe and then physically demonstrate the current function and performance level of their technology products. These events offer a superb opportunity for technology developers to receive direct feedback from the SOF operational and acquisition community.

#### **Booth 14:** S&T Business Process/Futures Foundry, Damian Guinn and Shawn Martin

The USSOCOM Science and Technology Directorate's (S&T) mission is to discover, enable and transition technologies that provide an asymmetric advantage to Special Operations Forces (SOF). The S&T Marketplace Table is an opportunity to engage S&T in order to better understand mechanisms to partner in development, review areas of technology interest and address any questions regarding the S&T Broad Agency Announcement. The S&T Futures Foundry process encompasses a comprehensive analysis that identifies potential disruptive technologies that will be emerging in 5-10 years. The identification of the technologies and impact to the SOF operating environment allows S&T to better anticipate the SOF Warfighter needs and is included in the technology investment strategy

#### **Booth 15:** Cooperative Research and Development Agreement (CRADA), Howard Strahan

Discuss execution of the SOF AT&L Cooperative Research and Development (CRADA) Program.

#### Booth 15: Vulcan/Discovery, Jawad Rahami

Vulcan is a technology scouting platform used by the SOF community and its partners to collaborate on the discovery and assessment of existing and emerging technology solutions. It allows Government organizations to leverage network-centric processes, by default, to augment and accelerate their tech scouting operations. Vulcan is also a functional environment for collective learning, collaboration, and engagement by SOF and its partners relative to the technology landscape.

### **SOFIC INNOVATION SHOWCASE SCHEDULE**

### Tuesday, May 22

Time	Company Name	Category	Innovation
9:35 - 9:45 AM	Advanced American Technologies	Advanced Materials	Advanced Hybrid Epoxy Resin - Isotropic Aluminum or Ceramic Impregnated Resin
9:50 - 10:00 AM	Elysian Labs	Autonomous Systems	CRUX - Tactical Input (CRUX-TI)
10:05 - 10:15 AM	Enlighten IT Consulting, LLC	Big Data Analytics	Big Data and Data Fusion (Enterprise to the Tactical Edge)
10:20 - 10:30 AM	Immunity, Inc.	Information Exploitation	INNUENDO
10:35 - 10:45 AM	Glenair, Inc.	Integrated Wearable Sensing	Integrated Soldier Power/Data Hubs
10:50 - 11:00 AM	Nikola Motor	Autonomous Systems	All Electric Drive Light Tactical All Terrain Vehicle
11:05 - 11:15 AM	RIVA Networks, Inc.	Cyber	Cyber VauLTE <sup>™</sup> secure LTE
11:20 - 11:30 AM	True Velocity, Inc.	Advanced Materials	Point of Use Polymer-Cased Ammunition Manufacturing
11:35 AM - 11:45 AM	AVATAR Partners, Inc.	Machine Learning	Next Generation Technology Augmented Reality Maintenance Aid (ARMA)
11:50 - 12:00 PM	Energetic Materials & Products, Inc.	Energetics	12 GA Reactive Breaching Round
12:05 - 12:15 PM	Applied Research Associates, Inc.	Directed Energy	60lbs Laser Weapon System
	AFTE	CRNOON BREAK	
3:35 - 3:45 PM	ArmaJet International, LLC	Advanced Materials	Liquid Armor Special Blast and Ballistic Coatings
3:50 - 4:00 PM	Brimtek, a Digital Barriers Company	Artificial Intelligence	SmartVis Face - Live Facial Recogntion
4:05 - 4:15 PM	Aquabotix Technology Corporation	Autonomous Systems	Swarming Micro UUV
4:20 - 4:30 PM	Esri	Big Data Analytics	Easy to Use Insights from Big Data

### Wednesday, May 23

Time	Company Name	Category	Innovation
9:50 - 10:00 AM	Dexter Edward, LLC	Cyber	Fognigma-Secure, Traceless Comms over Ephermeral Cloud Networks
10:05 - 10:15 AM	The Ochsner Group, LLC	Autonomous Systems	Covert sUAS "BirdsEye"
10:20 - 10:30 AM	Zignal Labs	Big Data Analytics	Zignal Labs, Full Spectrum Media Intelligence Platform
10:35 - 10:45 AM	Trigenx, LLC	Advanced Materials	Micro Antennas
10:50 - 11:00 AM	Applied Technology, Inc.	Directed Energy	Kinetic Drone Defense
	AFTE	RNOON BREAK	
2:35 - 2:45 PM	KF Armory, LLC	Advanced Materials	Modular Interlocking Ballistics Barrier Systems (MIB2S)
2:50 - 3:00 PM	Modus Operandi, Inc.	Information Exploitation	Collaborative Intelligence Exploitation using knowledge stores in a DIL environment
3:05 - 3:15 PM	CORE Survival, Inc.	Integrated Wearable Sensing	Active Identification Friend or Foe sensing and alert system
3:20 - 3:30 PM	Ghost Robotics Corporation	Autonomous Systems	Fast, High-Endurance and Autonomous Legged UGVs for Unstructured Terrain
3:35 - 3:45 PM	Zero Point, Inc.	Energetics	ZERO POINT TiTAN 12 ga. Disruptor System
3:50 - 4:00 PM	Caerus Associates	Artificial Intelligence	Artificial Intelligence
4:05 - 4:15 PM	QinetiQ Ltd	Integrated Wearable Sensing	Biometric Sensors through Bracer End to End encrypted Iridium Push-to-Talk satellite radio (one to many PTT + Satphone voice/data)
4:20 - 4:30 PM	Clear Entropy	Patterns of Life Analysis	Mobile Location Intelligence Enhancing Pattern of Life Analysis

### **SOFIC INNOVATION SHOWCASE**

The Innovation Showcase highlights innovative products, ideas, and services during 2018 SOFIC. Selected companies have 10 minutes of exclusive time to showcase their innovation to members of the SOF community. This is an exceptional opportunity to learn about new products and services that can offer solutions to your problems.

### **Advanced American Technologies**

**Presentation: Tuesday, May 22, 9:35 - 9:45 AM** 151 Midway Lane, Oak Ridge, TN 37830 Phone: (800) 218-7053 Website: www.advancedamericantechnologies.com

**Category**: Advanced Materials

**Innovation**: Advanced Hybrid Epoxy Resin - Isotropic Aluminum or Ceramic Impregnated Resin

**Innovation Description**: Advanced Hybrid Epoxy Resin isotropic aluminum or ceramic impregnated resin; 40% lighter than aluminum, non-corroding, flame resistant, compressive yield of 18,000 psi, tensile strength 7,200 psi, and maintains its physical properties to 425°F.

- · Lightweight and multi-strike ballistic protection
- Rapidly deployable
- X-Ray, EMP/EMI and Radiation shielding solutions
- · Lightweight, lethal projectiles
- Reduced weight weapon components

### Applied Research Associates, Inc.

Presentation: Tuesday, May 22, 12:05 - 12:15 PM 4300 San Mateo Boulevard NE, Suite A-220, Albuquerque, NM 87110 Phone: (505) 881-8074 Website: www.ara.com

Category: Directed Energy

Innovation: 60lbs Laser Weapon System

**Innovation Description**: Applied Research Associates (ARA) has developed a novel 60lbs, self-contained 1.5kW laser weapon called Silent Saber. The unit provides customers with an entry-level capability for close-in engagements (100-300m) in support of explosive ordnance disposal (EOD), counter-infrastructure and counter-drone missions. A prototype is currently being built for testing summer 2018.

### Applied Technology, Inc.

**Presentation: Wednesday, May 23, 10:50 - 11:00 AM** 5200 Potomac Drive, King George, VA 22485 Phone: (540) 663-0050 Website: www.appliedti.com

Category: Directed Energy

Innovation: Kinetic Drone Defense

**Innovation Description**: Applied Technology, Inc.'s prototype design for a land-based high energy laser weapon addresses current Class I/II UAS threats to 3km. The mobile system utilizes a 10kW laser; an optional 360° wide-angle surveillance system provides detection, and hand-off to the pointing/tracking system. A deployable system could be completed in one year.

### **Aquabotix Technology Corporation**

**Presentation: Tuesday, May 22, 4:05 - 4:15 PM** 21 Father DeValles Boulevard, Suite 106, Fall River, MA 02723 Phone: (508) 676-1000 Website: www.aquabotix.com

Category: Autonomous Systems

Innovation: Swarming Micro UUV

**Innovation Description**: The Aquabotix SwarmDiver is the first micro unmanned surface vehicle (USV) with swarming and diving capabilities. SwarmDiver can be configured with customized payloads for intelligence, surveillance, and reconnaissance (ISR) missions. SwarmDiver is easy to deploy and recover from any platform of opportunity.

### ArmaJet International, LLC

**Presentation: Tuesday, May 22, 3:35 - 3:45 PM** Ruelle de Bell Maison 11, Blonay Vaud, 01807 Phone: (478) 302-3374 Website: www.armajetintl.com

Category: Advanced Materials

Innovation: Liquid Armor Special Blast and Ballistic Coatings

**Innovation Description**: Hard Shell Liquid Armour<sup>™</sup> is a new innovative high-strength, lightweight polymer, designed for blast mitigation and fragment containment. It's a lightweight alternative to building and vehicle armoring systems, unmatched in weight to protection ratio and can mitigate IED blasts. New formulations of LA have been developed to defeat AP bullets.

# Enabling the Tactical Edge

Today's battlefield boundaries are consistently harder to define, making the need for agility, resiliency, and adaptability more critical than ever. As the 'tactics, techniques and procedures' necessary to support this construct continue to evolve and leverage advancements in technology, Cisco will continue to be the enduring DoD partner, working to further extend, enhance and secure the mission fabric to enable DoD's own Internet of Everything.

### Stop by Cisco Booth # 1936 to learn more.

### **AVATAR Partners, Inc.**

**Presentation: Tuesday, May 22, 11:35 AM – 11:45 PM** 621 Lynnhaven Parkway, Suite 208, Virginia Beach, VA 23452

Phone: (888) 372-2086 Website: www.avatarpartners.com

Category: Machine Learning Next Generation Technology

Innovation: Augmented Reality Maintenance Aid (ARMA)

**Innovation Description**: Augmented Reality Maintenance Aid (ARMA) is a military-grade Training and Operator Performance Aid designed to eliminate maintenance errors to 0%, reduce time on task by 75%, and reduce training time by 80%. Originally developed for the F/A-18 for training and while deployed, ARMA is configurable for maintenance of any Aircraft, Vehicle, and Equipment.

### Brimtek, a Digital Barriers Company

#### Presentation: Tuesday, May 22, 3:50 - 4:00 PM

21660 Red Rum Drive, Suite 105, Ashburn, VA 20147 Phone: (571) 918-4921 Website: www.digitalbarriers.com

Category: Artifical Intelligence

Innovation: SmartVis Face - Live Facial Recogniton

**Innovation Description**: SmartVis Face, Digital Barriers' advanced facial-recognition software is designed to detect, track, and recognize faces from a list of known individuals against multiple watchlists in the most challenging environments. Utilizing sophisticated deep learning algorithms, SmartVis Face enhances intelligence allowing users to locate missing people and manage National Security threats in real-time.

### **Caerus Associates**

#### **Presentation: Wednesday, May 23, 3:50 - 4:00 PM** 100 SE 3rd Avenue, Ft. Lauderdale, FL 33394

Phone: (703) 649-5301 Website: www.caerusassociates.com

Category: Artificial Intelligence

Innovation: Artificial Intelligence

**Innovation Description**: No single algorithm wins all the time! This notion is supported by No Free Lunch Theorem. For general, multi-task, and multi-modal learning there is not one algorithm to rule them all. Caerus promotes a Frankenstein Meta-Learning System that adaptively learns various tasks. Our goal in building these systems is to learn from everywhere, learn continuously, and never forget.

### **Clear Entropy**

#### Presentation: Wednesday, May 23, 4:20 - 4:30 PM

13206 Topsfield Court, Herndon, VA 20171 Phone: (571) 758-4414 Website: www.clearentropy.com

Category: Patterns of Life Analysis

Innovation: Mobile Location Intelligence - Enhancing Pattern of Life Analysis

**Innovation Description**: Clear Entropy brings an enhanced method of studying pattern of life by combining current and emerging technologies augmented by analytics. Through the use of mobile-based intelligence, hundreds of millions of device signals provide the foundation to quickly identify, isolate, and analyze patterns of behavior, driving decisions to support critical missions.

### **CORE Survival, Inc.**

#### Presentation: Wednesday, May 23, 3:05 - 3:15 PM

4241 116th Terrace North, Clearwater, FL 33762 Phone: (727) 576-1700 Website: www.coresurvival.com

Category: Integrated Wearable Sensing

Innovation: Active Identification Friend or Foe sensing and alert system

**Innovation Description**: Active Identification Friend or Foe Sensing and Alert System: HEL-STAR F2+ is a helmet-integrated, active IFF acquisition, response, and alert system. Responds to specified targeting lasers, providing an immediate haptic interrogation alert, and optional multispectral emission response. Independent and helmet integrated power, and ATAK accessibility for data collection and alerts.

### **Dexter Edward, LLC**

Presentation: Wednesday, May 23, 9:50 - 10:00 AM 13873 Park Center Road, Suite 304, Herndon, VA 20171 Phone: (703) 782-9841 Website: www.dexteredward.com

Category: Cyber

Innovation: Fognigma-Secure, Traceless Comms over Ephermeral Cloud Networks

**Innovation Description**: Fognigma is a software engine which creates encrypted, cloaked networks, allowing total protection and anonymity of communication traffic. With Fognigma, your organization can work without worry of leaks, hacks, or traces. Fognigma turns you into a communications ninja - strong, undetectable, and able to vanish in an instant.

Please visit us at booth 1824

## Ammunition for Professionals. Premium, Precision, Power.

Reliability is the key. From trigger to terminal effect, this is the sniper's choice for outstanding accuracy. Made in Switzerland.

RUAG SWISS P<sup>®</sup> is a registered trademark of RUAG Ammotec AG, a RUAG Group Company

### **Elysian Labs**

**Presentation: Tuesday, May 22, 9:50 – 10:00 AM** 2150 Shattuck Avenue, Berkeley, CA 94704 Website: www.elysianlabs.io

Category: Autonomous Systems

Innovation: CRUX - Tactical Input (CRUX-TI)

**Innovation Description**: The CRUX - Tactical Input (CRUX-TI) wireless button is an Android Tactical Attack Kit (ATAK)-integrated, programmable button designed to minimize heads-down time by simplifying digital operational workflow and providing tactile feedback through personal protective equipment (PPE) in low-light situations.

### **Energetic Materials & Products, Inc.**

Presentation: Tuesday, May 22, 11:50 AM - 12:00 PM 1413 Brandi Lane, Round Rock, TX 78681 Phone: (512) 380-1992 Website: www.empi-inc.com

Category: Energetics

Innovation: 12 GA Reactive Breaching Round

**Innovation Description**: EMPI has developed a reactive material (RM) projectile compatible with current handheld 12GA breaching shotguns. The design has a high density frangible nose and annular surround with a pressed RM pellet inside, so it penetrates a structure and reacts inside. This is an improvement compared to inert high-density material.

### **Enlighten IT Consulting, LLC**

#### Presentation: Tuesday, May 22, 10:05 - 10:15 AM

991 Corporate Boulevard, Suite 350, Linthicum Heights, MD 21090 Phone: (410) 449-1201 Website: www.eitccorp.com

Category: Big Data Analytics

**Innovation**: Big Data and Data Fusion (Enterprise to the Tactical Edge)

**Innovation Description**: Based on USCYBERCOM, DISA, Army, Air Force, and other mission partner successes, the BDP now supports data fusion operations across echelons and mission types for varied data sets in support of the Warfighter at all levels. Enabling more effective integration and collaboration in support of the Warfighter at all levels.

#### Esri

#### Presentation: Tuesday, May 22, 4:20 - 4:30 PM

380 New York Street, Redlands, CA 92373 Phone: (909) 793-2853 Website: www.esri.com

Category: Big Data Analytics

Innovation: Easy to Use Insights from Big Data

**Innovation Description**: Esri's innovation will explore using lightweight, innovative apps to harness Big Data for Big Understanding. Operators, analysts, and decision makers can work with maps, charts, and tables using a simple drag and drop interface. Analysis and visualization happen at the same time, on the same screen. Combine dynamic data services with real-time spatial analytics for data-driven decision making.

### **Ghost Robotics Corporation**

#### Presentation: Wednesday, May 23, 3:20 - 3:30 PM

3401 Grays Ferry Avenue, Building 197, Suite 312, Philadelphia, PA 19146 Website: www.ghostrobotics.io

Category: Autonomous Systems

**Innovation**: Fast, High-Endurance and Autonomous Legged UGVs for Unstructured Terrain

**Innovation Description**: Ghost Robotics<sup>™</sup> is developing the next-generation autonomous legged ground drones to tackle any unstructured and vertical terrain. Fast and agile, low cost, modular, size-scalable (1-4 ft. length), and programmable high-endurance quadrupedal-UGVs for situational awareness, mobile comms mesh, UAV and micro-bot mules, protection, and kinetic applications. Our Q-UGVs are unstoppable.

### **Glenair**, Inc.

**Presentation: Tuesday, May 22, 10:35 - 10:45 AM** 1211 Air Way, Glendale, CA 91201 Phone: (818) 247-6000 Website: www.glenair.com

Category: Integrated Wearable Sensing

Innovation: Integrated Soldier Power/Data Hubs

**Innovation Description**: Integrated Soldier/Power Data Hubs are Personal Area Network (PAN) hubs and interconnect systems providing network data access, peripheral connectivity, and smart battery power management for dismounted soldier C4ISR electronics in Digitally Aided Close Air Support (DACAS) missions including precision targeting, tactical radio communications, real time video downlink, and much more.

Designer and Manufacturer of Open Architecture Software Defined Radios h e r r i c k t e c h l a b s . c o m visit us at booth #1412

### Immunity, Inc.

**Presentation: Tuesday, May 22, 10:20 - 10:30 AM** 2751 North Miami Avenue, Suite 7, Miami, FL 33127

Phone: (786) 220-0600 Website: www.immunityinc.com

Category: Information Exploitation

Innovation: INNUENDO

**Innovation Description**: Designed around a covert and memory resident Python interpreter engine, Immunity's INNUENDO features an asynchronous encrypted messaging protocol, a full debugger API, a full sniffer MITM API, an integrated LPE framework, a modular and hot-swappable communications channel stack (ftp, imap, outlook mapi, dns, icmp, https, etc.), robust and interruptable data exfiltration, an RPC scriptable C2, a modern Web based UI, and much, much more.

### **KF Armory, LLC**

**Presentation: Wednesday, May 23, 2:35 – 2:45 PM** 5755 North Point Parkway, Suite 49, Alpharetta, GA 30022 Phone: (678) 990-3038 Website: www.kfarmory.com

Category: Advanced Materials

Innovation: Modular Interlocking Ballistics Barrier Systems (MIB2S)

**Innovation Description**: Special Operations personnel deserve the best ballistic protection available: The Modular Interlocking Ballistic Barrier System (MIB2S). The man-portable 12-inch MIB2S blocks quickly interlock to form a certified ballistic barrier that defeats .50 Caliber Armor Piercing Incendiary-Tracer. MIB2S also defeated IEDs, MK211 Raufoss and RPGs, and stopped vehicles, in DoD/DoE demonstrations.

### Modus Operandi, Inc.

Presentation: Wednesday, May 23, 2:50 - 3:00 PM 709 S. Harbor City Boulevard, Suite 400, Melbourne, FL 32901 Phone: (321) 473-1400 Website: www.modusoperandi.com

**Category**: Information Exploitation

**Innovation**: Collaborative Intelligence Exploitation using knowledge stores in a DIL environment

**Innovation Description**: Intelligence production at the edge. This capability focuses on the shooter/operator as a producer of intelligence, or "shooter-as-sensor." Shooters can immediately publish tactical intelligence products from their laptops to enable immediate access/dissemination of this information up and across echelons. A publish/subscribe system allows for dynamic updates/ alerts to other SOF teams.

### **Nikola Motor**

Presentation: Tuesday, May 22, 10:50 - 11:00 AM

1130 S. 3800 W. Suite 200, Salt Lake City, UT 84104 Phone: (435) 559-9181 Website: www.nikolamotor.com

**Category**: Autonomous Systems

Innovation: All Electric Drive Light Tactical All Terrain Vehicle

**Innovation Description**: The Nikola "Reckless" is an electric drive autonomous capable, Light Tactical All-Terrain Vehicle (LTATV). Reckless was designed to be the most technologically advanced and capable LTATV in the world. It's massive 125 kWh battery can deliver 720 ft lbs of torque and propel the vehicle from 0-60 in 3.5 seconds.

### **QinetiQ Ltd**

#### Presentation: Wednesday, May 23, 4:05 - 4:15 PM

Cody Technology Park, Ively Road, Farnborough, Hampshire, UK GU14 0LX Website: www.ginetic.com

Website: www.qinetiq.com

Category: Integrated Wearable Sensing

**Innovation**: Biometric Sensors through Bracer End to End encrypted Iridium Push-to-Talk satellite radio (one to many PTT + Satphone voice/data)

Innovation Description: QinetiQ Ltd and Inova Design Solutions Ltd are innovating to enable Bodytrak<sup>™</sup> biometric sensing over Bracer<sup>™</sup>, a unique FIPS 140-2-Level-3 encrypted satellite PTT system. This enhances PLI with biometric data (e.g. heart rate, core temperature, fall detection) via an audio earpiece. Biometric data is intelligently analysed before transmission across the network.

### **RIVA Networks, Inc.**

Presentation: Tuesday, May 22, 11:05 – 11:15 AM 555 Riva Avenue, East Brunswich, NJ 8816 Phone: (732) 940-5555 Website: www.RIVA-Networks.com

Category: Cyber

Innovation: Cyber VauLTE<sup>™</sup> secure LTE

**Innovation Description**: RIVA's new Cyber VauLTE<sup>™</sup> is the first secure wireless solution that provides no-attribution voice, text, and data connections. This portable 3G - LTE network is built around an NSA validated (CSfC) router from IAS that's been approved for Top Secret use. Cyber VauLTE<sup>™</sup> is small in size and power requirements.

# #TEELtechnologies

# Leading Digital Exploitation Tools for the SOF Community

Since 2006, Teel Technologies has delivered leading digital forensic exploitation technologies and specialized training to the SOF community. Twelve years later, our focus remains on bringing the most effective solutions and teaching best practices to the warfighter tasked with recovering data from the field.

### VISIT US AT BOOTH 1101 TO SEE:

### CFID

The most versatile and robust handheld forensic imaging tool available. Acquire data from flash media, smartphones, SIM cards, PCs and now UAVs, all in the palm of your hand.

The Detego Unified Forensics Platform is the world's leading digital triage solution on the market today. With features such as Ballistic Imager (1TB in 30 mins), Detego Field Triage and Detego Fusion, examiners and operators can acquire critical, actionable evidence faster than ever.

### 🝯 ProHawk<sup>-</sup>

An adaptive, real-time video enhancement and analysis solution, Prohawk clarifies and improves video footage quality down to the pixel with its proprietary algorithms.

### # TEELtechnologies PORTABLE CELLEX ADVANCED LAB

A completely portable advanced mobile device forensic laboratory for performing chip-level forensics in the field. The kit is packed with all the equipment needed to perform Chip-off, JTAG or ISP extractions on thousands of smartphones and burner phones.

### Booth 1101 | teeltech.com | info@teeltech.com | Norwalk, CT USA

### The Ochsner Group, LLC

**Presentation: Wednesday, May 23, 10:05 - 10:15 AM** 49 S. 12th Street, Suite 1403, Tampa, FL 33608 Website: www.ochsnergroup.com

Category: Autonomous Systems

Innovation: Covert sUAS "BirdsEye"

**Innovation Description**: Covert sUAS "BirdsEye" is the ultimate eye in the sky. Designed for surveillance while disguised as a large bird for the region, BirdsEye reduces detection by spotters and is ideal for supporting small units that require close reconnaissance prior to or during mission.

### Trigenx, LLC

Presentation: Wednesday, May 23, 10:35 - 10:45 AM

156B 174th Terrace Drive, Redington Shores, FL 33708 Phone: (727) 466-8612 Website: www.applicote.com

Category: Advanced Materials

Innovation: Micro Antennas

**Innovation Description**: Advancing improved mission communication requires increased effective antenna array density to increase range, multipath diversity, interference suppression, capacity, and data rate. Reducing size of a standard 8 GHz antennae by 12X and embedding it in structural substrates further increases density. Our technology enables fabrication and design of this micro-antenna array.

### True Velocity, Inc.

**Presentation: Tuesday, May 22, 11:20 – 11:30 AM** 2735 Forest Lane, Garland, TX 75042 Phone: (972) 487-6500 Website: www.tvammo.com

Category: Advanced Materials

Innovation: Point of Use Polymer-Cased Ammunition Manufacturing

**Innovation Description**: True Velocity's Point-of-Use manufacturing. In a 2,500 square foot area the self-contained manufacturing Pod can produce 30 million rounds of polymer-cased ammo/yr. Pods can be set up anywhere, needing only space, electricity, and water. This could potentially vastly reduce transportation costs, as well as being immediately responsive to customer needs.

### Zero Point, Inc.

Presentation: Wednesday, May 23, 3:35 - 3:45 PM

1763 Princess Anne Road, Suite 104, Virginia Beach, VA 23456 Phone: (757) 721-6601 Website: www.zeropointusa.com

website. www.zeropointusa.ev

Category: Energetics

Innovation: ZERO POINT TiTAN 12 ga. Disruptor System

**Innovation Description**: The TiTAN System, created specifically for the Special Operations community, is keeping pace with the demand for the dismounted warrior to be lighter, faster, and more capable. Our newest additions include the ZPL-EOD laser, Breech Bumper, and Tether assemblies allowing for even greater accuracy and resilience within any environment.

### Zignal Labs

#### **Presentation: Wednesday, May 23, 10:20 – 10:30 AM** 600 California Street, San Francisco, CA 94108 Phone: (415) 683-7871

**Category**: Big Data Analytics

Website: www.zignallabs.com

Innovation: Zignal Labs, Full Spectrum Media Intelligence Platform

**Innovation Description**: Zignal's media intelligence capabilities provide a necessary information overlay to interpret the complex regional nuances of modern conflicts. We provide a holistic and integrated view of the open source media environment, that can be fused with proprietary information to produce accurate and timely assessments, further enhancing a commander's situational understanding.

# PRIVATE - SECURED 4G LTE ADVANCED NETWORKS ON THE BATTLEFIELD

#### CONNECT WITH US AT SOFIC | BOOTH 1448 | MAY 21-24, 2018 | TAMPA, FL

#### COMPLETE COMMUNICATION INFRASTRUCTURE FOR THE WARFIGHTER

Tecore's multi-technology Network in a Box<sup>#</sup> (NIB) solutions provide plug and play, rapidly deployable communications. The high-speed bandwidth, compact form factor, scalability and cost-effectiveness of Tecore's NIB product line enables a broad range of deployment scenarios for remote locations, defense, security forces, public safety and networks-on-the-move. Additionally, Tecore's NIB solution supports Public Safety Band 14 in addition to all U.S. and International cellular bands.

#### **2018 SOFIC EXHIBITORS**

Exhibitors from around the world will be showcasing their latest innovations, products and services in support of special operations military command. With more than 430 defense related companies exhibiting, SOFIC exhibits should not be missed.

Exhibits are located in multiple locations this year. Reference the key below to find the correct location.

Booth 95. Mission BBO, is located at the Franklin Street entrance of the Tampa Convention Center. Booth numbers 96-99 are located outside the Channelside Entry of the Tampa Convention Center.

Booth numbers 3-40 are located on the mezzanine level, next to registration, and on the exhibit hall entrance level of the Tampa Convention Center.

#### **BOAT DOCK DISPLAYS**

Booths that start with "B" are boat dock displayers. You can find the boat docks by exiting towards the Tampa Bay and walk to the right down the Riverwalk.

#### **OUTDOOR DISPLAYS**

Booths that start with "SD" are in our new outdoor display lot. This space is located in the private parking lot just across from the Franklin Street entrance to the Tampa Convention Center. Be sure

to stop by during the lunch hour to visit a variety of food trucks.

#### **True Canine Capabilities Demonstration** on Tuesday, May 22nd 12:00 - 1:00 PM at the **Outdoor Display**

Join us across from the Tampa Convention Center to see a live demonstration with an internationally

renowned canine trainer and breeder, Leos Drhohlav. He has individually titled fifteen canines of which seven were titled at the most demanding level. See them in action!

#### **NO DRONES ZONE**

Drones will not be permitted in or on the property of the Tampa Convention Center.

#### SOF SELECT - SOFIC'S OPERATOR PAVILION

Visit SOF Select in the Oasis ballroom at the Westin Tampa Waterside, just a two minute walk from the Tampa Convention Center.

#### **Pavilion Hours**

Tuesday, May 22, 9:00 AM - 6:00 PM Wednesday, May 23, 9:00 AM - 5:00 PM Thursday, May 24, 9:00 AM - 1:00 PM

#### Participating companies include:

Blue Force Gear, Cascade Designs, Costa del Mar, Daniel Defense, Eagle Industries, Kryptek, Massif, Matbock, Mystery Ranch, Ops-Core, Patagonia, Point6, Princeton Tec, S&S Precision, Salomon, SCUBAPRO, Smith Optics, Suunto, Velocity Systems, VZ Grips

SOF Select - SOFIC's Operator Pavilion is exclusively sponsored by

Be sure to stop by our charity and non-profit organizations on the Tampa Convention Center mezzanine level and outside Ballroom D on the lower level (indicated by a D in front of their booth number).

Lockheed Martin

**BOOTH: 922** 1801 State Route 17C, Owego, NY 13827

#### http://www.cfvmpf.org

Headquartered in Bethesda, Maryland, Lockheed Martin is a global security and aerospace company that employs approximately 100,000 people worldwide and is principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services

#### SPONSOR BOOTH: 207

#### 4890 West Kennedy Blvd, Suite 475, Tampa, FL 33609 http://www.boozallen.com

For over 100 years, business, government, and military leaders have turned to Booz Allen Hamilton to solve their most complex problems. They trust us to bring together the right minds: those who devote themselves to the challenge at hand, who speak with relentless candor, and who act with courage and character. They expect original solutions where there are no roadmaps. They rely on us because they know that - together - we will find the answers and change the world. To learn more: BoozAllen.com

#### 1100 N. Glebe Road, Arlington, VA 22201 http://www.caci.com

CACI puts the SOF warfighter first with battle-proven logistics and IT solutions that ensure operators receive critical supplies and information when they need it. Our deployed SMEs provide planning, civil affairs and information operations, biometrics, and more. Hundreds of analysts deliver geospatial and multi-source intelligence. We provide aviation and modification support, and help optimize resources with acquisition and lifecycle program management, systems integration, and engineering.

#### **Dell Technologies**

SPONSOR BOOTH: 404 1 Dell Way, Round Rock, TX 78682

#### http://www.dell.com/federal

Dell EMC Federal is part of a collective force of companies under the Dell Technologies umbrella -- Dell, Dell EMC, Pivotal, RSA, SecureWorks, Virtustream, and VMware - trusted all over the world to provide technology solutions and services that accelerate digital transformation. We provide the foundation to help modernize, automate and transform your agency's data center with industry-leading servers, storage, cloud computing solutions, and converged infrastructure technology.

SPONSOR BOOTH: 1004

#### 2941 Fairvew Park Drive, Suite 100, Falls Church, VA 22042 http://www.generaldynamics.com

General Dynamics offers a broad portfolio of responsive solutions to the specialized needs of the Special Operations community. As an innovative partner, we pride ourselves in delivering unique products and services in such areas as combat vehicles, weapons systems and munitions, unmanned vehicles, and information systems, technologies and services in support of the warfighter and their family. For more information visit www.generaldynamics.com.

#### **iDirect Government** SOFIC SPONSOR BOOTH: 1336

#### 13921 Park Center Road, Suite 600, Herndon, VA 20171 http://www.idirectgov.com

iDirect Government serves the diverse and specialized needs of the Department of Defense and civilian government agencies, providing the most bandwidth-efficient, scalable, reliable and highly-secure satellite platform to support such mission-critical applications as ISR, airborne, COTM and maritime communications worldwide.

#### **Northrop Grumman Corporation** ELITE SOFIC SPONSOR BOOTH: 512

#### 1580A W. Nursery Road, A255, Linthicum, MD 21090 http://www.northropgrumman.com

ACH has a perfect safety record supporting our DOD, DOI, and commercial companies conducting shipboard operations, logistics, tactical training, CASEVAC, and Personnel Recovery. ACH is FAA Part 133 & 135 certified, CARB approved, and NVG capable aviation service provider performing difficult missions in the most austere environments.

# Air Force Special Operations Command (AFSOC)

#### **BOOTH: 25**

#### 229 Cody Avenue, Suite 103, Hurlburt Field, FL 32544

The Air Force Special Operations Command was established May 22, 1990, with headquarters at Hurlburt Field, Fla. The vision is: Air Commandos... Ready Today, Relevant Tomorrow, Resilient Always. The mission of AFSOC is to provide our nation's specialized airpower, capable across the spectrum of conflict...Any Place, Any Time, Anywhere. The priorities of the command are to ensure readiness to execute global special operations today, transform our force and fleet to maintain relevance tomorrow and invest in the resiliency of our force, family and relationships. AFSOC provides Air Force special operations forces for worldwide deployment and assignment to regional unified commands. The command's SOF are composed of highly trained, rapidly deployable Airmen, conducting global special operations missions ranging from precision application of firepower to infiltration, exfiltration, resupply and refueling of SOF operational elements. AFSOC has more than 19,500 active-duty, Air Force Reserve, Air National Guard and civilian personnel.

# PlayMaker®

WBT-3100 Capture, Playback, & Processing of up to 100 MHz of RF Spectrum from 100 kHz to 6 GHz

# Multi-Mission Support in a Single Low-SWaP Hardware Package Supporting Passive Collection, Situational Awareness & Targeting

PlayMaker is a powerful and highly versatile suite of software tools for RF signal detection, demodulation, analysis, recording, and post-processing. Designed with tactical operations in mind, PlayMaker provides multi-mission support into a single low-SWaP hardware package to provide situational awareness and actionable intelligence.

PlayMaker can be configured pre-mission or operated locally to rapidly detect, identify and demodulate and locate signals of interest. PlayMaker's ability to capture and reproduce the RF environment, and conduct retrospective direction finding operations against captured RF, makes it an excellent platform for post mission analysis.

PlayMaker is designed to be extensible, and its modular Open Signal Processing Architecture allows for rapid implementation of new protocol demodulations and capabilities delivered through scheduled software updates. Furthermore, users are able to develop their own custom solutions to meet specific requirements. PlayMaker provides a software development kit (SDK) that includes a development environment, sample code and comprehensive documentation. Using the SDK, a user can implement special purpose demodulators, codecs, or analysis components.

#### **Barrett Communications**

#### **BOOTH: 948**

#### PO Box 22716, Rochester, NY 14692 http://www.barrettUSA.com

For more than four decades, Barrett Communications have built a solid track record in delivering integrated HF and VHF radio solutions to military, special forces, government and peacekeeping organisations operating in challenging environments globally. Barrett's tactical networks are flexible and scalable and can be specified with a range of security options including Frequency hopping and encryption. Barrett networks are easily extended for interoperability with other communication systems.

#### **Basis Technology**

#### **BOOTH: 442**

#### One Alewife Center, Floor 3, Cambridge, MA 02140

#### http://www.basistech.com

Basis Technology develops software and solutions for multilingual name matching/watchlisting, text analytics, digital forensics, and cyber triage. Our machine learned name matching and translation, identity resolution, and advanced exploitation tools are widely deployed across the Intelligence Community. Basis sponsors Autopsy, the largest open source digital forensics platform in use by the Government. Cyber Triage provides incident response software that simplifies the collection and analysis.

#### Battelle

#### BOOTH: 98, 639

#### 505 King Avenue, Columbus, OH 43201 http://www.battelle.org/

From tactical mobility, mission systems, unmanned systems and payload integration to mission-critical equipment development and deployment across domains, Battelle has been trusted by U.S. Special Ops for more than 50 years to transform discoveries in the lab to field-proven solutions that protect people and save lives. Working with clients through the full product life-cycle, Battelle provides technology-driven special warfare solutions for unique challenges.

#### **Battlefield Clearance Team Licensing**

#### **BOOTH: 2120**

#### 1795 Bayhill Drive, Oldsmar, FL 34677 http://www.bctluxo.com

Mystic Lincoln Logs - DDESB/TP-18 compliant UXO work hour log book, tracks cert expirations and manages resumes. Mystic HQ - Plan projects / missions, which include site, personnel, forms, QC, and map data. Mystic Patrol - Software App on your field device to help collect data. i.e. plant GPS virtual flags with images, custom forms, e-sign safety protocols, activity logs, etc. Mystic Tracker - Equipment inventory App w/ verification system. QR code capability, Photograph items, and custom forms.

#### **BBI Detection**

#### **BOOTH: 128**

#### 8 Tom McDonald Avenue, Medipark, Dundee, DD1 1NH United Kingdom http://www.bbidetection.com

BBI Detection specialises in the development and supply of innovative technologies for the detection and decontamination of biothreats, and other harmful substances. We are committed to creating and supplying innovative technology that will fill the capability gaps that exist across the CBRNe field and best support global military, first responder and security markets.

#### **BCB International Ltd**

#### **BOOTH: 2004**

#### Clydesmuir Road Industrial Estate, Cardiff, United Kingdom CF24 2QS United Kingdom

#### http://bcbinusa.com/

Since 1854, BCB International has been developing pioneering innovations that hve helped generations of armed forces personnel operate and survive in some of the world's harshest environments. Their core products include: -Camouflage Face Paints -MRE fuel and cooking systems -Combat survival kits -Less lethal boat stopping systems - Less lethal MOE solutions

#### Bell Helicopter BOOTH: 740

#### PO Box 482, Fort Worth, TX 76101 http://www.bellhelicopter.com

Bell, a wholly owned subsidiary of Textron Inc., is an industry-leading producer of commercial and military, manned and unmanned vertical-lift aircraft and the pioneer of the revolutionary tiltrotor aircraft. Globally recognized for world-class customer service, innovation and superior quality, Bell's global workforce serves customers flying Bell aircraft in more than 120 countries.

#### Benchmade Knife Company BOOTH: 1149

#### 300 Beavercreek Road, Oregon City, OR 97045 http://www.benchmade.com

#### **Bertin Instruments**

#### **BOOTH: 2041**

#### 2096 Gaither Road, Suite 230, Rockville, MD 20850 http://www.bertin-instruments.com

Bertin provides optronics devices for the military market dedicated to the protection and surveillance of high-risk hotspots. The FusionSight®, digital Night Vision Device, combines the best of Low Light and thermal images for target detection. Exensor, development, integration and supply of networked unattended ground sensor systems for homeland security and military applications. We focus on customer needs by adapting our solutions to meet their specific requirements. www.exensor.com

#### **Bionic Power, Inc.**

#### **BOOTH: 150**

#### 2661 Lillooet Street, Vancouver, BC V5M 4P7 Canada

https://www.bionic-power.com/

Bionic Power Inc. designs and manufactures PowerWalk, a kinetic energy harvester that generates energy while users walk. Worn at the knee, PowerWalk generates 10-12 watts over variable terrain which is sufficient to charge a smart phone in less than an hour. PowerWalk provides energy security for dismounted soldiers and can reduce the amount of batteries that soldiers need to carry. PowerWalk was designed in consultation with the US Army through NSRDEC.

#### Black Dagger MHC, Inc. BOOTH: 34

#### PO Box 6073, Tampa, FL 33608-0073 http://BlackDaggerMHC.org

The Black Dagger Military Hunt Club Inc. is an all-volunteer 501(c)3 nonprofit corporation (EIN45-4337304) organized to provide outdoor opportunities for wounded veterans (vision impairments, TBI, SCI, and PTS) and military personnel to experience hunting/shooting sports and provide an outlet for rehabilitation. Located in Tampa Florida, they are a Community Partner with the James A. Haley VA Hospital's Adaptive Sports Program and work with the USSOCOM Care Coalition's Adaptive Sports Program.

#### Black Diamond Advanced Technology BOOTH: 540

#### 2301 E Yeager Drive, Suite 8, Chandler, AZ 85286 http://bdatech.com

Black Diamond Advanced Technology (BDATech) is a Veteran-Owned Small Business in Chandler, AZ and a demonstrated leader in the tactical computing and communication systems industry. Our focus is the dismounted Operator and providing innovative, trusted technology to ensure mission success. We specialize in customized hub systems and smart cables, engineered to withstand any environment and control a variety of missions. Because when it matters most you want something Built. Tested. Proven.

#### **Black Tree Group**

#### **BOOTH: 1349**

#### 5801 Benjamin Center Drive, Suite 106, Tampa, FL 33634 http://www.blacktreeinc.net

Black Tree provides operationally-adaptive C4ISR integration services to the DoD, Law Enforcement and Federal agencies. Our capabilities range from premium surveillance equipment manufacturers to custom integrated or modified commercial technology solutions, niche software and hardware engineering services, low volume production, new equipment training and operational sustainment training. We offer full cradle-to-grave program and project management services for all fielded efforts.

#### AD ON PAGE 80 BOOTH: 119

#### The Clock Tower Business Centre, Low Wood, Ulverston, Cumbria LA12 8LY United Kingdom

#### http://www.blueprintsubsea.com/pages/index.php

Blueprint Subsea design and manufacture an innovative range of underwater acoustic based imaging and navigation products for international subsea and defence markets. Our portfolio includes StarFish side-scan and Oculus multibeam sonars, SeaTrac Mirco-USBL tracking units, and Artemis imaging and navigation systems. Our products are used by Naval Mine Clearance divers, combat divers, and Search & Rescue organisations. They are also integrated into DPV/SDVs as well as ROV/AUVs.

SEE OUR	BlueSky Mast	, Inc.
	<b>BOOTH: 812</b>	

#### 1515 Gunn Highway, Odessa, FL 33556 http://www.blueskymast.com

BlueSky Mast designs and builds the world's most advanced multi-purpose, portable mast platforms for military and commercial communications and surveillance. Our mast systems are lightweight, tool-less and designed for durability, portability and rapid deployment. We are an experienced Armed Forces contractor with a highly developed understanding of field communications technology and can work with any devices you need to elevate.

#### Boeing

#### **BOOTH: 504**

#### PO Box 516, St. Louis, MO 63166 http://www.boeing.com

Boeing is the world's largest aerospace company and innovative manufacturer of commercial jetliners and defense, space and security systems. A top U.S. exporter, Boeing products and services include commercial and military aircraft, satellites, weapons, C4ISR, electronic and defense systems, launch systems, and performance-based logistics and training.

#### Bohemia Interactive Simulations BOOTH: 242

#### 3050 Technology Parkway, Suite 110, Orlando, FL 32826 http://www.bisimulations.com

Bohemia Interactive Simulations (BISim) is a global developer of advanced training and simulation software. BISim leverages a large, experienced inhouse engineering team and bleeding edge innovations from the commercial sector to develop high-fidelity, cost-effective training and simulation software products and components primarily for defense applications.

#### Breaching Technologies, Inc. (BTI) BOOTH: 02

#### PO Box 780156, San Antonio, TX 78278

#### http://www.breachingtechnologies.com

Breaching Technologies Inc. is a forward-looking company that has led the way in breaching products for nearly twenty years. BTI was the very first company to introduce a patented breach training door and has since developed over 21 patents, proving to be an innovator in the industry. BTI takes pride in engineering quality products to provide to war fighters and law enforcement personnel worldwide.

#### Breezer Mobile Cooling/Power Breezer BOOTH: 2043

https://www.dataminr.com/public-sector

Dataminr for Public Sector alerts first responders to breaking events, enabling the fastest real-time response. Visit us at: https://www.dataminr.com/public-sector.

#### Decon7 Systems, LLC BOOTH: 946

#### 8541 E Anderson Drive, Suite #106, Scottsdale, AZ 85255

#### http://www.decon7.com

Decon7 Systems' new Biological Decontaminant Accelerated Spray Plus (BDAS+) is a breakthrough solution to the complex chemical and engineering issues of containing the world's most effective military grade decontaminant in an individual rapid response application system. Where chemical and biological contamination is a threat, the low-burden D7 BDAS+ minimizes exposure risk to the warfighter.

#### Defense Logistics Agency (DLA)

#### **BOOTH: 1643**

#### 8725 John J. Kingman Road, J313, Fort Belvoir, VA 22060 http://www.dla.mil

As America's Combat logistics support agency, the Defense Logistics Agency (DLA) provides America's Warfighters, and our other valued customers, with the full spectrum of innovative logistics, acquisition, and technical solutions. DLA has been a strategic partner supporting Special Operation Forces during every major named operation. DLA has a Liaison Officer and Customer Support Representatives that are geographically located with each SOCOM Component and Theater Operation Command.

#### Defense Threat Reduction Agency (DTRA)

#### **BOOTH: 28**

#### 8725 John J Kingman Road, #6201, Ft Belvoir, VA 22060

The Defense Threat Reduction Agency is a Combat Support Agency and Defense Agency that enables DoD and the U.S. Government to prepare for and combat weapons of mass destruction and improvised threats and to ensure nuclear deterrence. We maintain unique relationships across the DoD and are a one-stop shop that functional and regional commands from around the world can rely on for expertise, equipment, training, planning and analysis. DTRA as we know it today, was established in 1998 to provide the Department of Defense's core intellectual, technical, and operational support expertise for countering threats posed by WMD (Chemical, biological, radiological, and nuclear) and high-yield explosives. In 2016 the Joint Improvised-Threat Defeat Agency (JIDA) was absorbed into DTRA and JIDA was renamed as the Joint Improvised-Threat Defeat Organization (JIDO). Today, the boundaries that traditionally separated WMD from other threats have become increasingly blurred. JIDO provides DTRA with expertise on countering improvised-threats (e.g. improvised explosive devices, homemade explosives, commercial grade explosives, sUAS, etc). As a result, DTRA is prepared to address the most the truly most consequential threats to our national objectives.

#### Delta-Xray, Inc. BOOTH: 1816

#### 2111 Wilson Blvd, Suite 700, Arlington, VA 22201

http://www.delta-xray.com

Delta-Xray is the principal US agent for Vidisco portable, Very High Resolution, portable X-ray systems for security applications. Our systems are used by every US federal agency/military service with EOD mission. They are 14-16 bit, 3.5+ lp/mm, capable of detecting organic materials, penetrating up to 3" steel, come in case or backpack and are fully integrated with robots. Our Slider 2x2 automatically takes contiguous images and presents a stitched mosaic. 24x7 trouble shooting and service.

#### Deployed Resources, LLC BOOTH: 848

#### 164 McPike Road, Rome, NY 13441 http://www.deployedresources.com

Deployed Resources is the single source for temporary life support facilities for the special operator. We have dedicated equipment that interfaces with military systems and trained staff providing turnkey services for special operations forces. We provide expeditionary, mission focused and tailorable capabilities that are cost effective for resource challenged customers.

#### DetectaChem

#### **BOOTH: 137**

#### 4100 Greenbriar Drive, Suite 180, Stafford, TX 77477 http://www.detectachem.com

DetectaChem, located in Stafford, Texas, USA, proudly manufactures the rapidly deployable, handheld, intelligent detection system called the SEEKERe and MobileDetect. Detectachem products enable explosive and drug detection for safety operations throughout the world. The automated testing platform allows for rapid, reliable results. MobileDetect takes automated colorimetric detection and makes it available to the masses using smartphone technologies. Detectachem technologies have been widely adopted by the US Department of Defense and major U.S. forces.

### http://www.JuggernautCase.com

Since 2000, Juggernaut Defense has been actively engaged in programs to bring digital connectivity to the dismounted warfighter. For the past seven years we have spearheaded the effort to ruggedize smartphones/tablets for the battlefield environment. Proudly designed, engineered and assembled in the United States of America.

# K9 Helm

### **BOOTH: 1450**

### 126 Farm Lane, Martinez, CA 94553 http://www.k9helm.com

We build head protection for working dogs. In addition to safety, our product's tough outer shell offers outstanding utility as a stable platform for helmet cameras and other devices. Its carefully crafted shape and patent pending retention system were tailored specifically to fit Belgian Malinois and German Shepherds. We're proud to present our Trident K9 Tactical Helmet, made for dogs who engage in dangerous work.

# KF Armory, LLC

### BOOTH: 01

### 5755 North Point Parkway, Suite 50, Alpharetta, GA 30522 http://www.kfarmory.com

KF Armory is proud to present the Modular Interlocking Ballistic Barrier System (MIB2S), an innovation in ballistic safety and force protection. For training safety, the 12-inch blocks snap together to form a protective wall or entire shoot house from scratch. Operationally they can protect critical infrastructure in high threat areas abroad. For additional information on the MIB2S please attend the SOFIC Innovations brief on 23 May at 11:05 am, or visit https://kfarmory.com/shop/mib2s/

### Kipper Tool Company BOOTH: 1511

### 2375 Murphy Blvd, Gainesville, GA 30504 http://www.kippertool.com

Kipper Tool Company (KTC) is a Woman Owned Small Business (WOSB), founded in 1992. As an authorized distributor for over 2,000 manufacturers and product lines, and over 200,000 items, we draw from the best the industry has to offer and provide our customers with a comprehensive range of industrial quality tools of all types, either individually or built into a single solution. This is the KipperTool® advantage. KTC proudly supports America's Force & products that are "Made in the USA."

### 1101 30th Street NW, Suite 500, Washington, DC 20007 http://www.klastelecom.com

Communicate more, carry less with Voyager — a modular and scalable networking system of systems. Voyager enables the modern warfighter to deploy reliable, secure and continuous communications to the tactical edge while reducing hardware footprint and saving costs. Visit our in-booth presentation theater, featuring special guests Google, Nutanix, SafeNet AT and VMware, as we discuss machine learning, artificial intelligence (AI), advancements in tactical compute & data storage networks and more.

### Knight's Armament Company BOOTH: 1151

### 701 Columbia Blvd., Titusville, FL 32780 http://www.knightarmco.com

Knight's Armament Company is a premier US firearms manufacturer, producing exceptional 5.56mm and 7.62mm firearms and derivative firearms, designed specifically for the rigors of military application. These same qualities are present in our products for law enforcement and personal use. Suppressors, accessories, handguards, mounting solutions, and electro-optics produced by the Knight's family of companies will also be on display.

### 12277 134th Court NE, Suite 100, Redmond, WA 98052 http://www.kymetagov.com

Kymeta Government Solutions is managed, led and staffed by those who understand both the distinct requirements of the government user community as well as the demanding environments where Kymeta solutions are deployed. We serve global government customers at the federal, state and local levels, always remaining cognizant that human lives often depend on the performance and reliability of our solutions.

### 602 E vermont Avenue, Anaheim, CA 92805 http://www.L-3com.com

L3 is a leading provider of a broad range of communication and electronic systems and products used on military, homeland security and commercial platforms. L3 is also a prime contractor in aerospace systems, security and detection systems, and pilot training.

# Landguard Systems Limited

### **BOOTH: 130**

Semaphore House, Fareham Heights, Standard Way, Fareham, PO16 8XT United Kingdom

### http://www.landguardsystems.com

Landguard Systems designs and manufacture of high performance low power radio systems for specialist applications in the military, government agency and law enforcement domains. The company have a number of established product lines in operational service including GUARDSMAN which is a family of Software Defined Radio specifically designed for Government users.

### AD ON PAGE 101 BOOTH: 1344

# 3495 Winton Place, Building A, Rochester, NY 14623

http://defense.lasermax.com

Founded in 1989, LaserMax is the pioneer in weapon-mounted, handheld thermal lasers and long range beacons based on its patented Quantum Cascade Laser (QCL) technology. LaserMax thermal lasers are ruggedized to survive the harshest environments and operate across a broad spectrum of fielded imagers. Visit us at booth #1344.

# Leading Technology Composites

### **BOOTH: 1204**

2626 W. May Street, Wichita, KS 67213 http://www.ltc-ltc.com

Leading Technology Composites (LTC) is the world's premier lightweight armor system supplier. LTC provides the nation's most elite operators with the most advanced and lightest weight multi-hit vital torso protection plates in the industry. LTC also manufactures lightweight armor systems for helicopter, fixed wing, marine and wheeled vehicles. In 2018, we will celebrate our 25th Anniversary, representing over two decades of excellence in armor system engineering and manufacturing.

### Leica Sport Optics BOOTH: 122

### 1 Pearl Court, Allendale, NJ 07401

### https://us.leica-camera.com/Sport-Optics

Leica leads the way in laser rangefinding, having introduced the first laser rangefinder in 1992! The accuracy and durability cannot be compared! See our complete line of rangefinders, riflescopes, spotting scopes and binoculars.

http://www.lmtdefense.com

Lewis Machine & Tool Company manufacturers M4 type carbines and M203 40mm grenade launchers. We will display our revolutionary 5.56mm MARS carbine, and our 7.62mm X 51 model. LMT designs and manufactures high quality firearms, continually striving to exceed customer expectations. A US Government GSA approved contractor, our products are in service with over 40 countries around the world. ISO 9001:2008 registered.

# **Lind Electronics**

### **BOOTH: 2223**

### 14850 Deveau Place, Minnetonka, MN 55345 http://www.lindelectronics.com

Lind Electronics provides Rugged Mobile Power and Cabling solutions for military, public safety and aerospace markets. Product solutions provide sup-

port for mobile computers, communication devices, military vehicular systems, aviation, UAV and military batteries. Engineered Rugged design for use in harsh environments.

# Logos Technologies, LLC

### **BOOTH: 749**

# 2701 Prosperity Avenue, Suite 400, Fairfax, VA 22031 http://www.logos-technologies.com

Logos Technologies has a proven track record for developing leading-edge wide-area motion imagery (WAMI) sensors and other advanced solutions. Our systems serve as a force multiplier, allowing operators to identify threats, quickly and affordably, across an entire city-sized area. Logos specializes in the fields of advanced sensors, wide area motion imagery, advanced analytics, and processing of large, multi-source datasets. Learn more at www.logos-technologies.com

## **LoPresti** Aviation

### **BOOTH: 110**

210 Airport Drive East, Sebastian, FL 32958

### http://www.loprestiaviation.com

LoPresti Aviation's specialty is engineering and manufacturing of High Intensity Discharge (HID) landing, taxi, and recognition lighting systems. We manufacture complete kits for multiple Make and models for Federal Aviation Administration Part 23, Part 25, Part 27 and Part 29 aircraft. Each kit carries a supplemental Type Certificate (STC) and Part Manufacturing Approval (PMA) covering over 300 aircraft models.

## Los Alamos National Laboratory

### **BOOTH: 2235**

PO Box 1663, MS B224, Los Alamos, NM 87545 http://www.lanl.gov/index.php

To solve national security challenges through scientific excellence

### SEE OUR AD ON PAGE 37 BOOTH: 947

### 4021 Executive Drive, Dayton, OH 45430

### https://www.macb.com/

For 39 years, MacAulay-Brown, Inc. (MacB) has been solving many of our Nation's most complex National Security challenges. We are committed to delivering critical capabilities in the areas of Intelligence and Analysis, Cybersecurity, Secure Cloud Engineering, R&D, Integrated Labs and Information Technology to Defense, IC, SOF, Homeland Security, and Federal agencies. Our 1,500 employees worldwide are dedicated to developing mission-focused and results-oriented solutions that make a difference.

### **MAG Aerospace**

### **BOOTH: 1252**

### 22455 Davis Drive, Suite 100, Sterling, VA 20164 https://magaero.com/

MAG is a leading provider of manned/unmanned full spectrum ISR and specialty aviation services (operations, training, and technical support) to Gov't and commercial customers worldwide. In 2017, MAG operated 200+ manned/unmanned special mission aircraft, logging 98,000+ flight hours on 5 continents in support of customers' missions. MAG's FLIR 380 HDc and L3 MX-15 EO/IR sensor training capability showcases advanced modeling/simulation technologies in a low cost, comprehensive training solution.

### **Marathon Targets**

### **BOOTH: 2214**

# 82 Meeks Road, Marrickville, Sydney, NSW 2204 Australia http://www.marathon-targets.com

Marathon Targets makes autonomous robotic human-type targets for live-fire training. The robots look, move, and behave like humans: if one target is hit, the others react by running for cover – or attacking the shooter. Special Forces on four continents trust Marathon Targets - the new standard in realistic live-fire training.

### Maritime Tactical Systems, Inc.

### BOOTH: BO4

### 1227 South Patrick Drive, STE 122, Satellite Beach, FL 32937 http://martacsystems.com

Maritime Tactical Systems (MARTAC<sup>™</sup>) has created next-generation unmanned surface and subsurface multi-mission platforms. The MAN-portable Tactical Autonomous System (MANTAS<sup>™</sup>). The T12 unmanned system also includes a FLIR SeaFLIR230 EO/IR gyro stabilized sensor, a Teledyne Marine T20 MultiScan Sonar and a QRC WBT3002 EW sensor . MANTAS are scalable with an extreme performance envelope that can be rapidly re-purposed to support a wide range of mission profiles including SIS Swarming Autonomy.

# Marlow Ropes, Inc.

### **BOOTH: 1153**

# 10 Cordage Park Circle, Suite 228, Plymouth, MA 02360 http://www.marlowropes.com

Marlow Ropes has earned an outstanding reputation for the quality and technical innovation of our Special Forces ropes. This reputation is born out of pioneering designs that have been tried and tested in the worlds harshest working environments and toughest combat zones. Marlow Ropes is known and respected around the world for the design and development of the the original Fast Ropes & Extraction Ropes. We manufacture and distribute quality British made products to over 80 countries worldwide.

# **Martin UAV**

### **BOOTH: 1440**

### 3335 Kifer Road, Santa Clara, CA 95051

At Martin UAV, we specialize in building disruptive, groundbreaking platforms, including the V-BAT; a first-of-its-kind VTOL UAS that combines the ability to hover (at any time) with the efficiency of high speed horizontal flight. A true tactical aircraft, V-BAT requires no launch or recovery equipment, is safe to operate (no exposed rotors), pallet transportable, and offers unmatched power reserves for "alternative" payloads. Martin aircraft are commercially developed. www.martinuav.com

### Maxeler Technologies, Inc. BOOTH: 1946

# 640 W. California Avenue, Suite 210, Sunnyvale, CA 94086

# http://www.maxeler.com

Maxeler Technologies provides maximum performance density for mission critical real time data processing: where speed matters, where space is tight, and battery life makes a difference. Maxeler brings competitive advantage in AI, Security, IoT and Simulations.

### MaxVision, LLC BOOTH: 421

### 495 Production Avenue, Madison, AL 35758

### http://maxvision.com

Rugged Portable Computers (dba MaxVision®) specializes in ruggedizing the industry's best Commercial-Off-The-Shelf (COTS) technology to create the fastest rugged portable computers in the industry which include deployable storage/servers and multi-screen workstations. Our designs provide competitive pricing of COTS technology, built rugged for extreme environments.

# McQ, Inc. BOOTH: 747

### 1551 Forbes Street, Fredericksburg, VA 22405 http://www.mcqinc.com

McQ Inc., is a sensor company designing & manufacturing high technology solutions for surveillance and remote sensing applications. McQ is known for breakthroughs in digital imaging systems and sensor processing, low power requirements, advanced signal processing, low false alarms and reliable network communications architecture. The fully networked sensors detect and classify targets in remote areas, triggering real time HD video that can be commanded and controlled from anywhere in the world.

# **Mercury Systems**

### BOOTH: 9

47200 Bayside Parkway, Fremont, CA 94538 http://www.themis.com

Themis combines industry leadership, high-performance computing, and advanced thermal and kinetic management design to deliver reliable, rugged standards-based and custom embedded computing solutions for OEMs, systems integrators, and application providers. Our achieve a superior balance between standard commercial technology and ruggedness to keep missioncritical applications available in the most demanding environments.

### Metal Shark Aluminum Boats **BOOTH: BO2**

### 6814 E. Admiral Doyle Drive, Jeanerette, LA 70544 http://www.metalsharkboats.com

Metal Shark Aluminum Boats, are leading suppliers of welded aluminum boats for defense, law enforcement, and commercial entities. Key customers include the United States Coast Guard, Navy, Air Force, Army, and the militaries of partner nations worldwide. From its two fully self-contained facilities in South Louisiana, Metal Shark produces a wide range of custom monhull and catamaran center console and pilothouse patrol boats, fireboats, skiffs, and speciality vessels ranging from 16' to 250'.

### **Micro-Ant BOOTH: 1304**

### 4722 Wesconnectt Blvd, Jacksonville, FL 32210 http://www.micro-ant.com

Micro-Ant develops and manufactures custom antennas and RF electronics for military and commercial uses. These antennas include ESAs, flat panels, parabolic other antennas for land, maritime and airborne use for COTM, COTP and fixed operation. Micro-Ant's active components include LNAs, LNBs and SSPAs often integrated into the antennas. Micro-Ant has antennas from 40 MHz to 40 GHz covering L, S, C, X, Ku, K and Ka bands among others. Micro-Ant is AS9100 and ISO 9001 certified.

### Mildef, Inc. **BOOTH: 1812**

### 630 W. Lambert Road, Brea, CA 92821 http://www.mildef.com

MilDef develops, manufactures and sells rugged computers and special electronics to customers in the aerospace and defense sector. The products range from rugged laptops and tablet PCs to servers & computers, routers and other network equipment. Our products are built to survive the rigors of combat in any environment from scorching desert heat to severe arctic winds.

### Military Learning Center of Tampa Bay **BOOTH: D5**

### 3062 U S 301 North, Tampa, FL 33619

### http://mlctb.org

North American Surveillance Systems Inc., (NASS), is a rapid response turnkey solutions provider, enhancing the mission specific operational capabilities of fixed and rotor wing aircraft worldwide. Specializing in aircraft modification, special mission training EO/IR, SIGINT, ASE, LIDAR, Radar, Weapons, and Mission Management Packages. Mechanical and Electrical Design, System integration, Special Mission Modification. Veteran-owned small business AS9100C / ISO9001 www.nassusa.net

### Novetta BOOTH: 853

### 7921 Jones Branch Drive, Suite 500, McLean, VA 22102 http://www.novetta.com

With more than two decades of experience solving problems of national significance for government and commercial enterprises worldwide, Novetta has pioneered disruptive technologies in four key areas of advanced analytics: data, cyber, open source/media and multi-int fusion. Novetta enables customers to find clarity from complexity in 'big data' sets never intended to be analyzed together at the scale and speed needed to guide critical business and mission strategy. Headquartered in McLean, VA.

# NOVO DR LTD.

### BOOTH: 952

40 HaAtsmaut Road, Yehud, Israel http://www.novo-dr.com

NOVO DR Ltd. is the leading developer and manufacturer of Portable Digital Radiography X-ray Inspection Systems. We produce the latest generation flat panel based radiography inspection systems for the Security \$ NDT sectors. Combining our decades of experience and intensive in-house R&D, NOVO takes portable DR to the highest level possible while emphasizing the following: • Highest image quality • Portability & Small footprint • Ruggedness • Efficient user experience • Field work optimization

### NTS

### **BOOTH: 1753**

# 4265 Eagle Landing Pkwy, Orange Park, Florida 32065 http://www.nextechsol.com

NTS provides a wide range of professional IT consultation services including Platform as a Service (PaaS) and IT Strategy Development to achieve mission needs. We are experienced with a number of cloud automation and tactical orchestration services with experts that can integrate with your team and process. We ensure your organization can scale to meet the needs of the mission.

### Nusura, Inc

### **BOOTH: 109**

### 4101 E. Louisiana Avenue, Suite 400, Denver, CO 80246 http://www.nusura.com

Nusura, Inc. is the parent company of SimulationDeck, a "digital sandbox" which allows training & exercise planners to replicate the information environment (IE). SimulationDeck replicates the IE and includes analogues to traditional news outlets, social media platforms, & other web-based technologies such as Twitter, Facebook, YouTube and social media mapping systems like Geofeedia & LifeRaft Navigator to gather Open Source Intelligence in the simulated IE in order to enhance decision-making.

### SEE OUR AD ON PAGE 57 BOOTH: 1736

### 7001 Dorsey Road, Hanover, MD 21076 http://www.oceaneering.com

The Advanced Technologies (ADTECH) group of Oceaneering is an industry leader in enabling humans to work safely and effectively in harsh environments ranging from the depths of the sea to the outer reaches of space. ADTECH specializes in the support of manned systems and the development and application of practical, cost-effective robotic systems. ADTECH is show-casing the Liquid Thermal Garment, a hi-tech base layer clothing system.

1895 Preston White Drive, Reston, VA 20191

### http://www.oceusnetworks.com

Occus Networks provides secure, customized mobile broadband products and solutions to governments and enterprise customers leveraging the latest in standards-based commercial technology. We specialize in fixed and wireless broadband solutions that enable secure, high-speed voice, video and data communications. Privately U.S.-owned and operated, Occus Networks' headquarters are located in Reston, Virginia, with labs in Plano, Texas.

### SEE OUR AD ON PAGE 79 BOOTH: 1820

### 300 Camarillo Ranch Road, Suite A, Camarillo, CA 93012 http://www.odu-usa.com

The ODU Group is one of the world's leading suppliers of connector systems. ODU connector solutions ensure a reliable transmission of power, signals, data and media for a variety of demanding applications including military and security such as: soldier communication systems, night vision, tactical radios, navigation devices, UAVs and airborne vehicles

### AD ON PAGE 85 **Omnetics Connector Corporation BOOTH: 542**

### 7260 Commerce Circle East, Minneapolis, MN 55432

### http://www.omnetics.com

Omnetics manufactures a complete line of Highspeed Micro-miniature, Nanominiature, and Hybrid connectors, wire harness and cable assembly solutions. These rugged Mil-Spec based Micro-D, Nano-D, Circular, and strip connector solutions can aid in the SWaP design requirements of your interconnects while increasing the number of contacts for high speed compact circuitry in mission critical applications and withstand harsh environments.

## **ONTime Networks, LLC**

### **BOOTH: 117**

### 6060 North Central Expressway, Suite 500, Dallas, TX 75206 http://www.ontimenet.com

OnTime Networks provides network centric solutions (Ethernet switches, routers, taps and time synchronization servers) that are specifically designed for the unique requirements of mission critical applications within the Aerospace and Defense industries and can be found in Airborne, Ground and Naval Defense applications. Our rugged systems address complexity, enable modularity and provide growth, while delivering optimal performance for SWaP-C constrained applications.

# Operation Healing Forces

### **BOOTH: 39**

# 380 Park Place Blvd, Suite 175, Clearwater, FL 33759 http://www.operationhealingforces.org

The mission of Operation Healing Forces (OHF) is to serve the needs of our active-duty and recent-veteran wounded, ill, and injured Special Operations Forces (SOF) and their spouses by starting or continuing the process of mentally, physically and emotionally healing in preparation to return to the fight or transition successfully into civilian life.

### Optics1 BOOTH: 1945

### 2 Cooper Lane, Bedford, NH 03110 http://www.optics1.com

Optics 1 is a global leader in full-service state-of-the-art design and production of electro-optical products, systems, and sensors. We specialize in the design of compact, high-performance electro-optical systems including visual augmentation systems, laser range finder systems, and long-range precision targeting and observation devices. Optics 1 is able to provide unmatched first-class electro-optical systems for warfighter and law enforcement missions.

### Orbit Communication Systems Inc. BOOTH: 139

### 716 S. Military Trail, Deerfield Beach, FL 33442 http://www.orbit-cs.com

Orbit provides leading airborne audio management and satcom solutions. Powered by a patented Dual IP Ring, Orbit audio systems feature 3D Audio, Adaptive Noise Reduction and Voice-Activated Detection as a standard. The 3D Audio delivers 360-degree clear audio experience and significant benefits for pilots: increased situational awareness, survivability, flight safety and reduced fatigue. Our latest innovation for rotary, fixed-wing and UAVs is a 30cm terminal optimized for helicopters.

# Orbital ATK

### **BOOTH: 648**

### 9401 Corbin Avenue, Northridge, CA 91324 http://www.OrbitalATK.com

Orbital ATK is a global leader in aerospace and defense technologies that designs, builds and delivers space, defense and aviation-related systems for customers around the world, as a prime contractor and merchant supplier. We specialize in special mission aircraft conversion including maritime patrol, gunship and weaponized airborne ISR platforms. We produce small-, medium-and large-caliber ammunition, medium caliber guns and precision guidance kits for artillery and mortar munitions.

### Otis Technology BOOTH: 551

### 6987 Laura Street, Lyons Falls, NY 13368 http://www.otistec.com

Otis Technology is known for manufacturing the most advanced gun cleaning systems and accessories available. The superior Breech-to-Muzzle® design combined with unmatched quality has positioned Otis as the gun care system of choice with the US Military, Hunters, Shooters and Law Enforcement personnel Worldwide. Otis Technology is SMART GUN CARE.

### Women In Defense, A National Security **Organization (WID) BOOTH: 3**

### 2101 Wilson Blvd, Suite 700, Arlington, VA 22201

Women In Defense, an affiliate of the National Defense Industrial Association, supports the advancement and recognition of women in all aspects of national security. Established in 1985 as a 501(c)3, this organization gives women a business environment for professional growth through strategic networking, education and career development. WID provides a dynamic, forward-thinking community for developing leadership skills, cultivating relationships, mentoring and education through national and regional events addressing some of the most pressing national defense issues. Through the HORIZONS scholarship program, women get the opportunity to further their educational objectives and career pursuits in the defense workforce through a demonstrated commitment to creating a more diverse national security marketplace. WID has nearly 4,000 members and prides itself on 20 chapters in key geographic areas. WID's members are from defense companies and related small, medium and large businesses, all branches of armed forces, government agencies, academia, associations and professional services. WID produces National and Chapter educational programs, provides awards and scholarships and collaborates on STEM initiatives.

### Woolpower

### **BOOTH: 1046**

### Chaufförvägen 29, Östersund, Jamtland 831 48 Sweden http://www.woolpower.com

Since 1972 garments from Woolpower are produced in our own factory in Östersund, Sweden. The garments are made from of our own developed material Ullfrotté Original. This material, a blend of 2/3 fine merino wool and 1/3 of synthetic fibre has a unique terry knit structure with heat insulating loops that easily transport moister away from the skin. The material has been developed to take the optimum advantages of the wool properties while reinforcing this quite delicate material with synthetic fibre for increased durability. Woolpower is used worldwide by NATO and Armed forces.

### 801 N. Second Street, Ste. 302, St. Louis, MO 63102 http://www.wwt.com

World Wide Technology, Inc. (WWT) is a leading systems integrator providing technology products, services and supply chain solutions to commercial, public sector and service provider markets around the globe.
